## A Big Find in Phiadelphia.

As a result of the renewed search this afternoon of the dwelling No. 3419 Walnut street, occupied by Major Phipps, the absconding almhouse superintendent, about $10,000 worth of all kind of goods were found, including groceries, cotton and linen goods, satins, household goods —and in fact, all sorts of supplies furnished the institution. Mr. Phipps is still minus.

Ladies holding department positions in Washington, to which they were appointed from Pennsylvania, are in the receipt of assessment circulars from one of the Republican committees of that State. These mandatory papers call for three per cent. of their respective salaries and are quite as urgent in tone as the regulation Jayhubbell. The widows and orphans of soldiers are, equally with other department ladies, the victims of this insolent oppression.

## DR. HARTER'S IRON TONIC.

*A combination of Protoxide of Iron, Peruvian Bark and Phosphorus in a palatable form. The only preparation of iron that will not blacken the teeth, so characteristic of other iron preparations.*

GENTLEMEN: I have used DR. HARTER'S IRON TONIC in my practice, and in an experience of twenty-five years in medicine, have never found anything to give the results that DR. HARTER'S IRON TONIC does. In many cases of Nervous Prostration, Female Diseases, Dyspepsia, and an impoverished condition of the blood, this peerless remedy, has in my hands, made some wonderful cures. Cases that have baffled some of our most eminent physicians, have yielded to this great and incomparable remedy. I prescribe it in preference to any iron preparation made. In fact, such a compound as DR. HARTER'S IRON TONIC is a necessity in my practice. DR. ROBERT SAMUELS.
ST. LOUIS, Mo., Nov. 26th, 1881. 3104 Wash Avenue.

## The Effects of Environments.

In the discussions of the effects of hereditary and parental influences in our parlor meetings last winter, there were those who thought that environment had quite as much to do in shaping the character of children as inherited conditions. They claimed that there is an abundance of facts to prove that however well born a child may be, if the parents are by stress of circumstances driven to the hovel or tenement with deficient food and unfavorable surroundings generally, the child will be likely to degenerate morally, mentally and physically. The Germans have been observing its effects on longevity, and they find that taking 1,000 well to do persons and 1,000 poor persons, there remained of the prosperous after five years, 943, while of the poor only 655 remained alive; after fifty years there remained of the prosperous 557, and only 283 of the poor; at seventy years of age there remained of the prosperous 235, and but 65 of the poor. The total average length of life among the well off classes was found to be fifty years, as against thirty-two among the poor.—Foot's Health Monthly.

That Mahone is "gone up" is apparantly beyond peradventure. His big assessments can't save him. From every part of Virginia news comes that leading Readjusters are deserting the sinking ship. They are men of local influence—such as the new judges lately chosen by the late Legislature—chairman of executive committees, editors of established papers, and so on. The white people of Virginia will be true to themselves, and they will cast off the odious yoke of a free booter who has made plunder out of the honor of Virginians.

Whenever there is any trouble in the Radical-Liberal camp Dr. Mott appears. This man who spent $299,000 in the campaign of 1880, this man has the corruption funds in his hands now. There was trouble in the first District—we see Mott there. There is trouble in the second district—we see him there. There is trouble in Charlotte—we see him there. He always quiets the trouble, or at least it is so published. How does he do it? Is it because he carries the bag?—*Concord Register.*
