HARTER'S IRON TONIC
 A combination of Ferrous Sulphate and Phosphorus in a palatable form. The only preparation of iron that will not blacken the teeth, and is superior to all other iron preparations.
 GENTLEMEN: I have used Dr. HARTER'S IRON TONIC in my practice, and in a number of cases of general debility, and in all cases of nervous prostration, Dyspepsia, and in all cases of indigestion, it has proved a most valuable remedy. It has in my hands, made some wonderful cures. I have used it in preference to any iron preparation made. In fact, such a compound as Dr. HARTER'S IRON TONIC is a necessity in my practice.

A SUCCESS AT LAST.
A GOOD WASHING MACHINE.
 INVENTED AND PATENTED BY
T. J. MERONEY, SALISBURY, N. C.
 THIS MACHINE is a plain wooden tank lined with copper or galvanized iron, with perforated pipes in the bottom for the admission of steam, with corrugated roller, made of same metal, and of sufficient weight. This Roller gathers the air while passing back and forth over the clothes, forcing air and water through the fabric. At same time the steam is thrown up through the perforated pipes underneath from the bottom of the tank. There are wooden strips between the pipes so as to protect them and form a smooth bottom in the tank.
 The process is simple: any one can operate the machine. First, soap the clothes and distribute them evenly about four or five inches thick in the tank. Turn on enough water to cover them—turn on steam, and move the Roller back and forth until the water is colored. Turn the valve and let the water pass off. Add fresh water, and repeat this three or four times, and you find the clothes are thoroughly washed without the slightest injury, for there is no rubbing process employed, the Roller having rounded edges so as to prevent any wear or cutting. A lace handkerchief can be washed as well as a bed will be manufactured at as small a cost as possible. Any one having a steam boiler in operation can use one of my machines at small cost and with satisfactory results. One person can do the work of ten wash-women in one day and do the work better.
 It is a splendid thing for boiling grain and vegetables for stock.
 It is also a good wool-washer.

A Reproductive Comet.
 The present comet in the Eastern sky, which can be distinctly seen by everyone at early morning, is certainly the most remarkable one of all the modern comets. Prof. Lewis Swift, director of the Warner Observatory, Rochester, N. Y., states that the comet grazed the sun so closely as to cause great disturbance, so much so that it has divided into no less than eight separate parts, all of which can be distinctly seen by a good telescope. There is only one other instance on record where a comet has divided, that one being Biella's comet of 1846, which separated into two parts. Applications have been made on Mr. H. H. Warner by parties who have noted these cometary offshoots, claiming the \$200, prize for each one of them. Whether the great comet will continue to produce a brood of smaller comets remains to be seen.

A LADY AND GENTLEMAN.—"Is this woman your wife?" asked the justice of a colored man, and pointing to a woman. "Is what my wife?" "Is that woman your wife?" "I don't see no woman. I see a lady, and de lady is my wife." "Is this man your husband?" asked the justice of the woman. "Dat gentleman is my husband." "Well ladies and gentlemen, I have investigated this case, and I have decided to send this lady and gentleman to jail for six months.—Arkansas Traveler.

PUT BRACK INTO SLAVERY.—This was the cry of the Radical leaders to colored voters in all the elections since the war. They told the colored voters if the Democrats got in power they would be put back into slavery. But the Democrats have been in power so long and proved the utter falsity of the charge, that the leaders find out they cannot fool the colored voters by that false pretense any longer. Hence you hear no more of it.—Davidson Dispatch.

EVERETT AND LEACH.—In the Senate of 1877 a bill providing for election of county commissioners and justices of the peace came up on its second reading. Geo. B. Everett, the great revenue evangelist moved to lay the bill on the table—to kill it. James Madison Leach voted for that motion. See Senate Journal pages 119, 120. We merely allude to the above facts to show that no reliance can be attached anything he might say on the subject.

NEWBERN, N. C., October 19.—About 150 bales of cotton were burned on the Midland railroad wharf here this afternoon. They were in transit to Norfolk New York and Boston.

The political millennium in the Democratic party of Pennsylvania was reached Saturday evening, when ex-Senator Wm. A. Wallace and the Hon. Samuel J. Randall, who have heretofore been leaders of opposing factions, spoke from the same platform. Mr. Randall humorously remarked that when the distinguished ex-Senator and himself came together in hearty accord, thorough Democratic unity could be regarded as accomplished.

BRIEFS.
 Two hundred "orators" loaded to the muzzle are to be turned loose on the Republican side in the Bay State this fall.
 The telephone between the Fair Grounds and the city of Raleigh will afford rapid communication during the fair for the accommodation of those who may need it.
 A Brooklyn boy wrote a composition on the subject of Quakers, whom he described as a sect who never quarreled, never got into a fight, never clawed each other and never jawed back. The production contained a postscript in these words: "Pa's a quaker, but ma isn't."

An Englishman was boasting to a Yankee that they had a book in the British Museum which was once owned by Cicero. "Oh, that ain't nothing," retorted the Yankee, "in Boston they've got the lead pencil that Noah used to check off the animals that went into the ark."

Sitting Bull was greatly astonished when being a plate of ice cream, not being able to understand how it could be so cold in summer, and when a young lady sat down and showed him how to eat it he fainted dead away. Such an exhibition is trying to the nerves of young men who are accustomed to them, and proved too much for the untutored savage.

You want to know how to tell whether or not he is dead gone on you? Ask him to button your glove. If he does it readily, you may as well look elsewhere; but if he goes to work "fingers all thumbs," and tags and strains; if he tears out a button-hole or two; especially if he scratches your wrist once or twice, you may be sure that you've got him and may pull him at your leisure.
 It is a very good omen for the Democratic party that the contending factions in New York city have united sufficiently to agree upon a union ticket. With harmony and zeal the Democrats ought to be able easily to sweep the State. We would suppose 50,000 majority a moderate estimate.—Wtl. Star.

The British Government is taking proper and honorable steps in demanding that Arabi Pasha shall have the benefit of a fair trial. Any other arrangement would reflect very greatly upon the Gladstone Ministry. Arabi is the prisoner of England. He should be tried according to civilized law.—Wtl. Star.
 So it is carpet-bagger Hubbs who withdraws and not O'Hara. It is commonly reported at Raleigh that a strong effort was made to buy off "the colored man and brother," but only half the sum demanded was offered. Now it is Hubbs. He says he retires because if he continued it would "give the District and State to the enemy." Mighty Hubbs! We wait farther intelligence. Who can give "the true inwardness" of that withdrawal?—Wtl. Star.
