NEW TERMS.

From and after the 1st day of January, 1882, the subscription price of the *Watchman* will be as follows:

One year, paid in advance,	$1.50
" payment delayed 3 months,	2,00
" payment delayed 12 months	2.50

WANTED—15 cords of 2 foot wood—apply at Watchman Office.

Mr. R. L. Crawford, has opened a family grocery store in the new Crawford building, next to Blackmer & Taylor's Hardware House.

—o—

Mr. D. L. Bringle, radical, voted the straight democratic ticket on Tuesday, with a single exception—and has been "cussed" for it, so rumor says.

—o—

We are pained to announce the sudden death of B. Craven, D. D., President of Trinity College. His death will be mourned all over the State. His loss is irreparable to the College.

—o—

The election passed very quietly here on Tuesday. The large democratic gain at the Salisbury box is credited to the fact that the merchants closed their stores and worked hard at the polls. The box went republican in 1880 and a hundred and fifty democratic this year—the result of personal exertion.

—o—

Mr. Edward A. Oldham, editor of the *New South* Wilmington, N. C., has written a poem: "The Legend of the French Broad" for the *Arkansaw Traveler*. The poem was illustrated with two illustrations of the French Broad River. The poem, says the *Traveler*, "possesses genuine merit and speaks well for the gentleman's poetic abilities."

Names in *Italics* signify Democrats.

—o—

From the rumored returns from Davie, it appears that Mr. Theo. F. Kluttz Democratic candidate for the Senate, for Rowan and Davie has been defeated. About 500 Democrats remained from the polls in this county, so that the democratic majority has been reduced to about 200. Davie gave radical coalitionist Ramsay 340 majority, which defeats Mr. Kluttz by over a hundred votes. This is greatly to be regretted, especially when we consider that Mr. Kluttz was forced into the canvass, and after he went in, worked in the most faithful manner for the success of the ticket. The democratic people of Rowan are to blame for this defeat.

—o—

Messrs. Rankin & Mills both deny that there was any "oyster supper" attended by Pink Hall at their oyster saloon. Mr. Mills in a letter of bitter denunciation against our informant says: "I was out of town and did not arrive at home until late at night, and understood that Dr. Mott, Col. Dockery and Dr. Howerton had called to see me, and was waited upon as any other gentlemen would be and then returned to the Mt. Vernon Hotel."

Mr. D. L. Bringle is also "mad" that his name should have appeared with that "liberal crowd." He denies being present. So it seems that the "oyster supper" was slightly incorrect.

There was no intention of injuring the business of any one by the publication of the article referred to.

—o—

The Liberal baby in Rowan is dead. On last Tuesday the lingering breath left the body. It was a hard death, yet it died and now lies buried along side of prohibition—yes the new made mound covers the liberal child.

"Desolate and lone lies the liberal fair,
Whirled are the leaves in the autumn air,
Withered and dead they fall to the ground,
And silently cover a new made mound,
And the years glide by."

And so does Charlie Price glide by—buried with his ignoble cause—Requiescat in pace.

Charlotte *Observer*: The exhibition of Mr. Arthur Rutt's new paintings at the opera house last night was perhaps the first occasion in its history when the opera house was completely filled. Edwin Booth once drew a packed house, but his crowd was not so large as was that which assembled last night to see the panorama. It was scarcely dark before impatient groups began gathering, waiting for admittance, and by the time the exhibition began, there were no seats to be had and one was satisfied to find comfortable standing room. We had already prepared our readers to expect something strikingly beautiful; and grand and none were disapointed. A brilliant calcium light thrown upon the canvass drew out the pictures with good effect. An appropriate and interesting lecture explained each of the 40 scenes. It is a wonderful work on canvass and one must see it before its beauty and grandeur can be comprehended or realized, and wherever the talented young artist goes, we give him the most cordial recommendation and can assure the public that the money they spend on his entertainment will be happily and most profitably invested. Not one of all the crowd present last night would stay away if the exhibition were to be repeated to-night.

DIED.

At her home, 3½ miles west of this place, on the morning of the 6th instant, Mrs. JANE ELIZABETH FRALEY, wife of Wm. R. Fraley, Esq., aged 55 years, 7 months and 3 days.

The deceased had been a great sufferer for a number of years, and of late has been waiting for and expecting deliverance by death. She had finished her work on earth and was ready and willing to depart and enter upon that rest prepared for those who look for a heavenly reward. Her last words were—"Received my spirit, Lord Jesus." She has followed quickly after a beloved brother, the late Wm. M. Kincaid, who died August 24th, and has left a husband, four sons and a daughter, with numerous friends, to mourn the end of a life which so tenderly endeared her to them all.

Owing to unfavorable circumstances on the day of the burial, the memorial services will be held at Franklin church on the first Sabbath in December, proximo.

HALL, FULTON LODGE,

NO. 99, A. F. & A. M., SALISBURY, N. C., NOV. 2, A. D. 1882, A. L. 5882.

In Memory of a Departed Brother.

Whereas, "The Supreme Grand Master" has called our worthy Past Master, Brother Charles Gordon, from "Labor to Rest," thus depriving this Lodge of an exemplary and faithful member, the Masonic Fraternity of a good Mason, his family of a good husband and kind Father, and the world of a good man.

Therefore, Resolved, That while our hearts are sad, and we feel that we have lost much by the untimely death of our Brother, we bow with humble submission to the will of "Him who doeth all things well, knowing that he is too wise to err, and too good to afflict." That in the death of our brother, he exhibited by his devotion to duty, strong integrity and courage by which he saved many lives, some of the character for which he was highly esteemed by us as a man and Mason.

That while we have "Consigned his body to the Grave" and resigned his spirit to God, we shall cherish his memory, and love his virtues long after his mortal remains shall have mouldered into mother earth.

That we wear the usual badge of mourning for thirty days.

That we extend to his family our sincere sympathies in their sad affliction.

That a copy of these resolutions be spread upon the minutes of this Lodge, a copy sent to his family, and a copy furnished the *Watchman* and *Examiner*, with a request that they publish the same.

TURNER'S N. C. ALMANAC FOR 1883.—This popular almanac, "The Old Reliable," which for 45 years—nearly half a century—has been paying its annual visits to the homes and firesides of our people, has been received from the publishers, Messrs. J. H. Enniss & Son, Raleigh, N. C. As usual, it is full of important information to all classes, and especially to the farmer, gardener and housekeeper, to whom it is invaluable. A very valuable feature of this Almanac is its Annual State Record, in which are recorded the most important events; also, the deaths of aged and official persons which have occurred in our State during the past year, which makes it very valuable for reference. The publishers propose to print, free of charge, the business card of all merchants who sell the almanac, on the outside page. For terms, etc., address J. H. Enniss & Son, Raleigh, N. C.

Statesville *Landmark*: We are glad to learn, from headquarters, of the continued success and prosperity of Simonton Female College. It has now the largest graduating class yet organized, and with a full corps of experienced teachers and with every department well represented, we can heartily recommend its advantages to all our people.

New York Rice Market.

New York Journal of Commerce, Nov. 2.

There continues a very good demand, with a strong market. We quote prices: Carolina and Louisana, fair to good 5¼@6c; prime to choice 6¼@7c; Rangoon 5@5⅛, duty paid, and 2⅝@2¾ in bond.

CHARLESTON RICE MARKET.

Charleston News and Courier, Nov. 2.

There was a good demand at firm rates. Sales of 300 tierces clean Carolina. We quote as follows: Common 5c; Fair 5⅛@5⅜; Good 5½@5¾; Prime 6@6¼c per lb.

A CURIOSITY IN CHIROGRAPHY.—We saw on Tuesday last a postal card upon which were inscribed in legible characters without any abbreviations, 2,452 words. The card was addressed to a lady in Harrisonburg, Va., and the writing was done with an ordinary hard lead pencil, a good portion of it by the light of a lamp. The letters were so distinctly formed that every word could be read by a person with good eye-sight without the aid of a magnifying glass. No glass was used in writing. In the center of a circle, the size of a gold dollar in the middle of the card, was inscribed the Lord's prayer. This remarkable feat of penmanship was executed by Mr. Charlie M. Brand, a compositor in this office, and we take the liberty of challenging any typo in the State to beat it. Our foreman proposes to do it, but we shall be skeptical as to his ability until it is demonstrated.—Charlottesville (Va.) *Chronicle*.

It is stated that larger number of oaks are planted on English farms than all of the other kind of trees.

MINING INTELLIGENCE.

T. K. BRUNER MANAGER.

The Powder mine in Polk county is about to be re-opened.

LALOR.—Prof. Maillefort is putting up new amalgamating machinery at the Lalor. They are working a force of 68 men.

At the Crowell Mine, Stanly County, they are sinking a new shaft on Kimball Hill—going down have cut a stringer which pans nicely.

The Rich Rocky River Gold mine, in Cabarrus county, has been sold. Particulars next week.

New concentrating machinery, hoists and pumps, are on the way for the Dutch Creek mine.

ARLINGTON GUARANTEE.—They have decided to sink much deeper, although the supply of ore is sufficient to last a considerable period.

Mr. L. Graf, of Newark, N. J., has failed for $200,000. It is not yet ascertained what his assets will be. Mr. Graf owns the "Rowan" and "Atlas" Gold mines in this county. It is hoped that he will come out all right.

A company from Tiffin, Ohio, have recently purchased the Hammet mine—hydraulic—on Pacolet River, 5 miles from Cowpens, S. C., and their operations have already reached a point which promises a speedy return.

CONRAD HILL.—They are doing their usual work at this mine, and in addition put its new plant for the chemical treatment of copper ores at work on the 23d of last month. Though the "run" was only a preliminary one to test the efficiency of the plant, the precipitation vats showed a handsome accumulation of copper.

Col. W. M. Cochrane, of London, England, was here and at Gold Hill the latter part of last week and first of this. The Col. is one of the Directors of the Gold Hill mine, and his visit here was for the purpose of seeing it. He is Colonel of the 3rd Battalion Highland Light Infantry of London, which played a part in the recent Egyptian picnic.

J. C. Bates of Union County, was in Charlotte a few days ago with a fine box of ore from the Crump mine; the sample weighed only 8 pounds, but contained nearly $300 in gold. A box had been sent to New York a few days earlier which was even more valuable. The Crump mine is remarkable for its rich bunches.

IDLE MINES.—The Bullion mine, just beyond the Reimer has been lying idle for something over a year. They have considerable ore on the dump—some of it heavy sulphurets. It is also equipped with some new machinery—an engine and boiler. They have no machinery for manipulating their ores. It was understood that the recent sale of this property—which was a mere form—that work would soon begin and that some return would be gathered for the outlay already expended. This is a good property and we would like to see it at work.

THE GRUPY COPPER,

or the Howard Gold and copper mine, 6 miles east from Salisbury is another valuable property which has been lying idle since the beginning of the war. This property had been worked by several companies prior to the time the Howard Co. took charge. They have the property well opened on a good bold vein of sulphurets of copper and pyrites. They have a mill house furnished with a good 80 horse engine and boilers (recently used to run distillery) and the only thing needed is for some one to go to work. This, however, cannot be done unless there is a sale of the property. There are 1000 shares of stock, 400 owned by Mr. Grupy and the other 600 owned by the heirs of the old Howard Co. This will be one of the most important mines in the county some day.

Life in a Cave,

A Mysterious Discovery by Alabama Hutters.

DECATUR, ALA., November 4.—Some negroes were out on the hills chestnut hunting beyond Pleasant Hill yesterday. Their dogs treed something in a cave in a secluded forest, and it proved to be a man, who ran off as the negroes approached. When they came up to his hiding place they found a small cave, and the interior presented a cosy retreat, well supplied with bedding, cooking utensils provisions, tobacco, cigars, newspapers, and many other things, indicating that the occupant of the cave had come to stay, and had inhabited this retired home for some time. The hunters did not get close enough to the man to discover who he was, but it is supposed that he is some fugitive from justice, who has been living in seclusion in this forest cave.—Cincinnati *Times-Star*.

A POOR HOUSE BURNED—FIFTY LIVES LOST.—Halifax, Nov. 7.—A fire broke out at midnight in the eastern end of the Provincial Poor Asylum, an immense six story structure, containing about four hundred people, and at 1:30 a. m. half the building was a mass of flames. The inmates rushed about the building seeming almost out of their senses and the work of getting them out was very difficult. It is thought not less than fifty persons are burned to death.—Char. *Ob.*

J. D. GASKILL.

Before cold weather comes all animals will fatten rapidly, therefore they should be well fed now, and when properly fattened let the butcher have them. Such stock as is to be wintered should be got into good condition before winter sets in, if it is not so already, and the labor of wintering will be found to be much easier.

It is said that there are upward of 3,000 steam plowing machines now employed in England and Scotland.

It is said that Australia has more meat-producing animals in proportion to its population than any other country on the globe.
