

THE ELECTION.

The first announcement of the results of the election on the 7th, was subject, of course, to liberal allowances; for it was well known to almost every reader that the results of such a contest could not be gathered up with accuracy in one or two days after the battle.

The result in Rowan county is not near so satisfactory as the Democrats had hoped it would be. THEO. F. KLUETZ, the gallant candidate for the Senate, has been defeated. Rowan failed to give him the majority he was entitled to. He went out to the county with only 204, when he should have had at least 500 majority.

Rowan was again at fault in respect to Robbins, our candidate for Congress, whom she sent out with the slim majority of only 107 instead of the five or six hundred to which he was entitled by every consideration of self interest to the voter.

Had Rowan polled her full Democratic strength Robbins would have been elected, but failing to do so, he is defeated. This is only part of the price the Democrats of Rowan have to pay for failing to vote. It is pretty heavy, and will no doubt sting them to the quick, especially as it was the year for a glorious Democratic victory in almost every State in the Union.

The result in the State at large for Congressmen is six Democrats out of nine. Bennett is elected over Duckery by a small majority, it is believed at this time, though it may require the official vote of the counties to determine the question.

In regard to the Judges, the Raleigh News-Observer, of the 14th gives the following: We have added up the official figures from fifty-two counties. They give Mc Rae 1,790 majority over Guthrie. This indicates that McRae's majority will be about 3,000. The other candidates on the judicial ticket run along with Judge Melroe, there being but slight difference among them.

We copy from the same paper the following estimate of the members elect to the Legislature: Unofficial returns and a close estimate indicate that the Senate will stand 34 Democrats and 16 Republicans, and the House 72 Democrats and 48 Republicans. On joint ballot the Legislature will stand 106 Democrats and 64 Republicans.

The result of the election in New York gave occasion to at least one piece of wit. Mr. Cole, who was appointed Captain of the Port of New York by Gov. Cornell, telegraphed to an Elmira paper as follows: "We have beaten the Prohibitionists and Greenbackers out of sight, and are only about 200,000 behind the Democrats."—Char. Journal.

THE VERY LAST.—The following to the Charlotte Journal:

"RALEIGH, Nov. 15, 8 P. M. "Graham county gives Bennett 152 majority, and he now has 117 majority, with Hyde and Watauga counties to 'hear from.' Two reports from Watauga 'have been received—one from Statesville, giving Bennett 125 majority, and one from Charlotte, giving him 593. "Hyde is reported close by one dispatch from Washington, but a dispatch from Elizabeth City says Hyde gives Bennett 150. We are clear out of the woods." S. A. ASHE.

ATLANTA, November 15.—Pope Barrow has been elected U. S. Senator to fill the unexpired term of the late Benjamin H. Hill. Alfred H. Colquitt was elected the first ballot to the U. S. Senate for the full term commencing March the fourth.

ATLANTA, Nov. 15.—The vote on the Senatorial election was: Short term—Barrow 116, Hill 99; long term—Colquitt 122, Jackson 40, Black 33, Anderson 27.

W. J. Best's lease of the Midland Railroad from Morehead to Goldsboro, has been declared forfeited by a stockholders meeting. W. W. Carruth for himself, Best and others, entered a protest to the action. Another resolution authorized a new lease at a sum not less than \$40,000 and for a term of 30 years, was adopted, by which it is hoped a satisfactory arrangement will be effected.

HOW IS IT DONE?—There is one or two newspapers in the State whose lease on life generally begins a few months before, and ends a week or two after, each State election. Will some one please explain the mystery of such a newspaper existence?

QUAKING REPUBLICANS.

The Republicans have taken the alarm at last. They see the handwriting on the wall, and are wisely setting their house in order. The New York Tribune, the leading Republican paper of New York, in view of the recent Democratic victories, thus talks of the situation, and of what the party ought to do. We will not be surprised if the present Congress shall attempt by liberal and just legislation this winter to break the force of the recent overthrow of the Republicans.

The chief necessity for the Republicans now is to unload the administration, its instruments and its methods, and to frame measures which will meet the public demand for better government. If the party does not succeed in framing and practically uniting upon such measures as do satisfy the public demand, it will render Republican success in the next Presidential election very much more difficult and doubtful.

It is a hopeful sign of the times that the newspapers generally concede that the elections on the 7th broke up rings and the lobby business which have run riot at Washington since the war, and by which colossal fortunes were made by plundering the government—the people's treasury.

Will Arthur reward Col. Johnston, Gen. Leach and Hon. Chas. Price for their arduous labors during the late canvass, or were they paid in advance, is the question. Neither of them have a reputation for gratuitous services that any body knows of.

The English newspapers in commenting on the late elections in the United States, see but one prominent cause for overthrow of the Republicans, and that is their failure to institute thorough reform in the civil service and give to the people an upright and permanent civil and judicial service.

GYPSIES.—The Washington (D. C.) Star, speaks of a grand encampment of gypsies near that city, who are preparing to move down to North Carolina to spend the winter. There will be nearly a thousand of them, of which six hundred are women and children. Branches will go to other States, South. The Star says further:

"The branches of the band that unite in North Carolina are governed by Queen Zeldia, who was chosen for this high position on the death of Zanos, 'the child of the stars,' near Columbus, Ohio, two years ago. Zanos had ruled as queen for eleven years, and one of her commands was that this annual gathering should take place. The principal business of the gypsies appears to be horsetrading and fortune telling. They appear to be harmless, though many persons fear them."

Fraud to be Investigated. Hon. A. M. Kelley, chairman of the Virginia Democratic Executive Committee, has issued the following letter, under date of Richmond, November 8th:

"Democratic judges of election, supervisors and challengers are earnestly requested to report to me at once all cases of illegality and informality, and especially the number of votes cast at their respective precincts by parties presenting tax receipts signed by appointees of the auditor. All of these are believed to be illegal, and the bulk of them fraudulent. The outrages and open violations of law which distinguished the election in this city were doubtless repeat everywhere. The evidence of such practices must be valuable, and may, in certain cases be decisive. We confidently believe that we have carried the State, and that Mr. Massey is elected, and that an honest vote will demonstrate it. Virginia will not fail to answer when the roll made up by the magnificent victories of yesterday is called."

The Meaning of It. New York Sun. Would you know the meaning of the political revolution which struck its first blow in Ohio in October, and swept through Pennsylvania, New York, Massachusetts and Colorado on Tuesday last? It means these four things:

1. Reduplication of the expenses of every branch of the Federal government to a basis of simplicity, economy and honesty! 2. Abolish the internal revenue abomination!

3. Make the tariff simple and rational, and just sufficient to provide for the wants of an honest and economical administration in time of peace! 4. No subsidies, no jobs, and above all, no meddling either by the administration and its agents, or by Congress and its employees! This is the meaning and the purpose of this mighty overturn.

Is the Democracy wise enough and high-minded enough to execute this peremptory mandate with fidelity and courage? We shall see. The occasion is great. And we are happy to add, the future is hopeful.

Ex-Governor Hendricks is recovering.

Over 2,200 children are at school in Raleigh. The recent election in Virginia has shown Mahone of two-thirds of his strength.

The cotton crop of this year is estimated by some of the papers as high as 7,000,000 bales.

S. T. Mickey of Salem, N. C., is said to have invented a speedy method for loading and unloading Cars. It is in demand and will be patented.

A train of freight cars on the R. & D. R. R., were wrecked at Charlotte last week, by some evil disposed person, as it was supposed.

CHICAGO, Nov. 15.—The Bricklayers in the employ of the Bosses Association, struck this morning against the system of the payment by the hour and for an increase in wages.

It is a hopeful sign of the times that the newspapers generally concede that the elections on the 7th broke up rings and the lobby business which have run riot at Washington since the war, and by which colossal fortunes were made by plundering the government—the people's treasury.

How a Northern Man Becomes Crazy from Morbid Fears of Southern Political Methods as Conceived from a New England Education. From Charlotte Journal.

Last Friday a week ago, Mr. E. S. Hawks, a gentleman of Ashfield, Mass., reached Fort Mills, with three elegant bird dogs, which he proposed to train for the approaching field trials at High Point. He was thoroughly well equipped as a sportsman and trainer, and devoted himself to his business with much assiduity.

But he soon began to exhibit peculiar symptoms of mental derangement which took the form of excessive fear, that, being a Northern man and a Republican, he would be killed. The excitement attendant upon and following the election so wrought up the fears suggested by his evidently disordered brain that he proprietor of the house at which he lodged in Fort Mill, says he would frequently express the apprehension that he was to become a political victim, and when citizens of the village would enter the house and refer to politics he would hasten to his room and lock himself in, from whence he would be induced to come out only after much persuasion and that no harm should be done him. These apprehensions were the only exhibitions of derangement he made, and as he appeared rational in all his other actions and utterances, no interruption was offered to his training of the dogs, which he continued with diligence and interest. He seemed extremely fond of the dogs, and took much pride in the excellence of their pedigree and the progress of their training. He valued them at \$50 each.

Saturday morning last, with his gun and one of the dogs, he took the fields. He did not return to dinner, as was his wont, but a negro came with the story that while working in a cotton field that morning, he had heard a shot and a yelp and a moment after had seen Mr. Hawks flying like a madman through the cotton field, entering the woods again on the opposite side. In a moment he had heard another shot from the woods. It was feared that the poor fellow, in a freak of insanity, had killed himself, and party of citizens was formed to search for him or his corpse. Proceeding to the spot from whence the first shot heard by the negro had sounded, the dead body of the dog was found with a pistol shot through its head. Following the trial of the insane man, his pistol was found in the woods beyond the cotton field; but nothing could be seen of the fugitive, although the search was continued throughout the afternoon and Sunday.

Yesterday morning Mr. Hawks entered the hardware store of Messrs. Brem & McDowell in this city. His appearance was wild and disordered in the extreme. He was dressed in a canvas hunting suit covered with mud and dirt, his hat was torn and the hair of his head protruded through the holes. His heavy hunting boots were wet, as though he had been wading in the water; his hands were torn and bleeding, and his eyes had the wild and unmistakable gleam of insanity. He seemed quite a comatose in the store when he entered, but Mr. Brem, who had met him when he passed through Charlotte on his way to Fort Mill, recognized him and his situation at once, having heard of his disappearance at Fort Mill. He told Mr. Brem his story: He had fled, he said, because he was convinced there was a conspiracy to take his life because he was a Northern man and a Republican, but strangely enough he thought the negroes were to be the agents of his death. He had been pursued by them since Saturday morning; had shot his dog because he feared it would be the means of his discovery and capture. He had not had a mouthful to eat since he left Fort Mill, and had been hiding in ditches for 2 days and nights. He was taken to the Central Hotel by Mr. Brem, who telegraphed to Fort Mill for his dogs and baggage. He was well supplied for money, and leaves for his home in Massachusetts to-day.

RICHMOND & DANVILLE.—The road has earned its dividend, in fact was never doing better, but being in need of money, and being unable to borrow, on account of the wide fluctuations in the stock, was compelled to pass it. This stock is good for a considerable advance within the next thirty days or sooner.—N. Y. Stock Report.

The Thing Must be Wiped Out.

Charlotte Observer. If the next Congress don't abolish the internal revenue system the people ought to abolish the Democratic party. The people demand it, and Congress must turn a deaf ear to the demand. There was a time when its abolition would have been impossible because the revenues derived from it were considered necessary to meet the current demands and debt obligation of the government. But that time has passed. It is no longer necessary, and it can be abolished without opposition worthy of the name. Many Republicans have pronounced in favor of it already and many more will since they have seen the drift of the popular current in the past election. It is more than likely that some Republican like Kelly, of Pennsylvania, will steal Democratic thunder and introduce a bill for its repeal next winter, have it passed and thus rob the Democrats of the honor and prestige of its passage. The Democrats should not be anticipated in this move nor wait until the 48th Congress meets to agitate it. It should be done at the very first opportunity, and no rest should be taken until it is entirely wiped out.

Political Hallowation.
