

Carolina Watchman.

THURSDAY, AUGUST 2, 1883.

Those who have on hand any considerable sum of the "trade dollar" coinage should not allow the discount of 15 cts. claimed by all trading men, but hold on until Congress shall authorize their redemption at par value, as by every consideration of justice it is in duty bound to do.

The ex-Sheriff and Treasurer of Gaston county have got themselves in a disagreeable fog. The ex-Sheriff seems behind in his accounts with the county in the sum of \$2,000. He exhibits a receipt from the County Treasurer, and claims to have had another which he has lost, the two together covering the deficit of \$2,000.

John Wadsworth of Charlotte, who has made a handsome property by the Livery Stable business, is becoming noted throughout this part of the State as one of the most successful and splendid farmers also. He has a model farm near Charlotte which, we learn from the city papers, is one of the most attractive places near the city.

The Garfield memorial church in Washington city is near completion and will soon be formally dedicated. Garfield and Andy Johnson were both members of what is known as the "Christian Church," a denomination which appears to be numerically strong in Kentucky, Illinois, and other Western States.

The "Messenger of Peace," is now in its 13th volume. It is devoted to the propagation of peace as against war. Published at New Vienna, Ohio, by the "Peace Association of Friends in America." It is sowing good seed and has the promise of a good reward, but may not see it very soon.

The liquor question is one of the most prominent now engaging public attention in almost all the States except North Carolina. Some are for prohibition and others for high taxation; some one thing and some another—all going to show that the public mind is tormented by the evils of the great curse.

Young Zeb Vance was engaged in a cutting scrape at Asheville, N. C. last week, with Zeb Crowell, and sustained injuries which at first alarmed his friends, though it is now thought he is out of danger.

Chatham Record: Dr. Cureton, of Polk county, owns a cow which gives nine gallons of milk a day.—Only 29 persons out of six hundred, in the Pittsboro township returned "money on hand" to the tax lister.

The Cincinnati Times Star, announces, a high state of excitement in Chester and Lancaster counties, S. C. on the discovery of an armed band of 6 white and 6 colored robbers prowling about the country.

Capital invested in new buildings in New York city for the year is estimated at \$54,000,000. The extension of the city may be judged by the amount thus appropriated.

President Arthur was at Louisville, Ky., and had the honor of opening the Grand Exposition on Tuesday. He was received with great enthusiasm by an immense audience.

Mrs. Stonewall Jackson and daughter had a brilliant reception at Morehead city yesterday evening. There is quite a gay assemblage at that place this season.

A Munchausen traveler writing from the Warm Springs, N. C., has found the skeleton of a mail robber gripping a mail bag of the period of 1827.

Rumors of disturbed relations between Mexico and Spain, growing out of the repudiation of debt by the former.

Mexico has jailed some railroad officers for running the train over some drunk people sleeping on the track at night.

The wheat crop of this year is estimated to be 50,000,000 bushels less than that of 1882.

Rev. Mr. McKinnon, of Concord, has called from Columbia, new under consideration.

The cholera in Egypt seems to be abating. The death rate is not so heavy as a few days ago.

Unless blessed with rain, the crop of Stany and Montgomery counties will be light.

WHAT THEY SAY.

Charlotte Observer July 28: A mad dog in the city escaped policeman Mannus. Another in the country attacked Mr. John P. Morris in the road, but he shot him before sustaining any damage.

Observer of the 29th: A new mineral spring discovered in Mallard Creek township. The city has received a new and complete set of surveying instruments.

Bakersville Democrat: Large parties of ladies and gentlemen arriving to visit the Roan and other places of interest in the mountains.

Raleigh News-Observer: Rev. D. A. Long will probably go to Ohio to take charge of Antioch College of that State.

It Must be Abolished.

The Democracy of Virginia has ranged itself alongside of the Democracy of North Carolina in demanding the abolition of the internal revenue system, and puts itself on record thus:

We favor unconditional and immediate abolition of the internal revenue system—a nursery of spies and informers; a menace to the freedom of elections; an intolerable burden on the taxpayers; a source of the greatest corruption; and in its practical operation is a special burden on this State and her interests.

Here is multum in parvo, a pithy but comprehensive arrangement of a system which has nothing in it to commend it and everything to condemn. It is not only a nuisance, a breeder of corruption, and an engine of oppression, but it is a machine through whose agency the handful of men who boss it can hold possession of and control the destinies of the country.

Where the Bonds are Held.

In view of the fact that only a few years ago it was estimated that more than a thousand millions of United States Government bonds were held by foreign holders, a recent bulletin issued by the census department, showing the distribution of the registered bonds at the present time, is not without interest.

The interesting and gratifying feature of this exhibit, of course, is the fact that the bonds are nearly all held by American holders at the present time.

The location of these bonds furnish an index of the relative accumulation of surplus capital in the various sections of the country. Thirty six per cent. of the holders reside in New England, forty-two per cent. in the Middle States, three and a half per cent. in the South, fifteen per cent. in the Western States and three and a half per cent. in the Pacific States.

Mr. Brewster's Game.

The Raleigh News-Observer says that "it is a trifle early for the department of Justice to begin a fresh batch of political persecutions in this State. But as far as we can speak for the Democratic party we challenge Mr. Brewster and Mr. Ker, the renegade Pennsylvania Democrat, and the whole batch of them to the encounter.

Later reports confirm the above sale.

LANCASTER, PA., July 27.—At 5:30 this morning the fast express east, on the Pennsylvania Railroad, near Mount Avery, struck a market wagon containing Henry Welch and wife and Miss Alice Swartz. Miss Swartz was killed instantly; Welch with a part of the vehicle was dragged about 400 yards and was dead when found, and Mrs. Welch lived only about 20 minutes. The engineer whistled to warn the occupants of the wagon, but Welch tried to whip his horse across the track.

Raleigh, N. C., July 27.—An adjourned meeting of the stockholders of the Atlantic & North Carolina Railroad was held yesterday at Morehead City to consider propositions to buy or lease that road, but an injunction was served on the company against making the lease, at the suit of Wm. C. Christian, and issued by Judge bond.

PHILADELPHIA, July 27.—A reception was given last night on board the new steamship Alameda, just launched from Cramp's ship yard.

LONDON, July 27.—The Press Association says it has been officially informed that a case of sickness, suspected to be cholera, has been discovered in London docks and another in Wales.

NILES, OHIO, July 27.—The liabilities of the Ward Iron Company, which suspended yesterday, are estimated at \$500,000. The company's mill here was closed yesterday.

ALEXANDRIA, July 27.—The number of deaths from cholera at Cairo yesterday was 311. A British Lieutenant and eight soldiers succumbed to the disease.

The Cholera—A Prevention and a Remedy.

The frequent notices in your paper recently of the dreaded scourge, the cholera, remind me of an article which appeared about twenty years ago on this subject. It was a statement made by a missionary said to be every way trustworthy, and was to this effect: While the cholera was prevailing fatally in the Island of Mauritius there was one plantation employing about five hundred workmen upon which not a case occurred.

The Richmond State received a dispatch from Saratoga, N. Y., under date of July 28th, which stated that "the Seoney syndicate, composed of George I. Seoney, George F. Baker, E. D. Falnstock, Calvin S. Brice, William P. Clyde and General E. T. Thomas, have purchased the controlling interest in the Richmond and Danville road.

Col. A. S. Buford, president of the Richmond & Danville, is in New York. The above telegram was shown to Col. A. L. Rives, second vice-president of the company, who told the State reporter that he knew nothing about the matter; that the report might be true or it might not; it was the first intimation that he had of any such transaction.

When the Stewarts and other capitalists of Richmond, says the State, were in the Richmond & Danville pool the road was known as a Richmond institution. But since they sold out and their shares fell into the hands of Northern capitalists very little has been known in that city of the "inside workings" of the company.

The Seoney syndicate is the same syndicate that is behind the East Tennessee, Virginia and Georgia Railroad, and is the most powerful organization that has ever yet taken hold of Southern roads. Seoney, Brice and Thomas represent the Seoney combination and the Metropolitan National Bank; Scott is of the firm of George S. Scott & Co.; Baker and Falnstock represent the First National Bank of New York, while Clyde is of the great shipping house of William P. Clyde & Co.

LANCASTER, PA., July 27.—At 5:30 this morning the fast express east, on the Pennsylvania Railroad, near Mount Avery, struck a market wagon containing Henry Welch and wife and Miss Alice Swartz. Miss Swartz was killed instantly; Welch with a part of the vehicle was dragged about 400 yards and was dead when found, and Mrs. Welch lived only about 20 minutes.

Raleigh, N. C., July 27.—An adjourned meeting of the stockholders of the Atlantic & North Carolina Railroad was held yesterday at Morehead City to consider propositions to buy or lease that road, but an injunction was served on the company against making the lease, at the suit of Wm. C. Christian, and issued by Judge bond.

PHILADELPHIA, July 27.—A reception was given last night on board the new steamship Alameda, just launched from Cramp's ship yard. Miss Alice Cramp aged 13, daughter of one of the firm who was one of the party when the launching took place, fell overboard and was drowned. Her body was not recovered until to-day.

LONDON, July 27.—The Press Association says it has been officially informed that a case of sickness, suspected to be cholera, has been discovered in London docks and another in Wales. Proper precautions have been taken in connection with each case.

NILES, OHIO, July 27.—The liabilities of the Ward Iron Company, which suspended yesterday, are estimated at \$500,000. The company's mill here was closed yesterday.

ALEXANDRIA, July 27.—The number of deaths from cholera at Cairo yesterday was 311. A British Lieutenant and eight soldiers succumbed to the disease.

Scott & Co.; Baker and Falnstock represent the First National Bank of New York, while Clyde is of the great shipping house of William P. Clyde & Co.

How to Stop a Paper.

As none of our subscribers have ever stopped their paper, says the Bakersville Democrat, and none ever propose to do so, the following, which we find in an exchange, without "local habitation and name," is of no special interest, and has no reference to them, but the fellow to whom it does refer might borrow their paper, and thus learn what belongs to a gentleman, to a business man, and his duty, hence we give it as follows:

You have an undoubted right to stop a newspaper when you feel disposed, upon the payment of all arrearages. Do not hesitate to do so on account of "tenderness" for the editor. Don't you suppose he would quit buying sugar of you, or meat, or clothing, dry goods, etc., if he thought he was not getting his money's worth, and why should you not exercise the same privilege with him?

LANCASTER, PA., July 27.—At 5:30 this morning the fast express east, on the Pennsylvania Railroad, near Mount Avery, struck a market wagon containing Henry Welch and wife and Miss Alice Swartz. Miss Swartz was killed instantly; Welch with a part of the vehicle was dragged about 400 yards and was dead when found, and Mrs. Welch lived only about 20 minutes.

TEACHER WANTED To take charge of Franklin Academy, four miles north of Salisbury, middle aged man with references preferred. Apply soon to J. W. C. & H. H. MILLER, Trustees, Salisbury, N. C., July 7th, '83, 3031m.

A Great Water-Power FOR SALE! The most extraordinary improved Water Power on the Yadkin River is for sale at low figures. It is situated at the head of the Narrows in Stanly county, 13 miles from Albemarle, the county seat; 13 miles from Gold Hill, and about 28 miles from Salisbury. It is one mile from the public highway leading to Salisbury, from which road it is easily accessible down to the water's edge. The peculiar feature of this property is that it is a natural spring of water which makes about a six foot head of available water. The dam runs at an angle of about 20 or 25 deg up the river nearly all the way across, gradually diminishing in height as it approaches the opposite shore. A race of 400 feet in length will add from 12 to 14 additional feet of head, making the grand power of 18 or 20. There is any quantity of building stone and slate of excellent quality, on the premises, easily transported by water.

VALUABLE TOBACCO FACTORY FOR SALE! On Saturday the first day of September, 1883, at the Court House door in the Town of Salisbury, I will sell to the highest bidder, the following Real Estate, to wit: The lot on Council street, consisting of one acre of land, known as the Tobacco Factory Lot, within 150 yards of the Court House, occupied by Messrs. Payne, Lunn & Co., manufacturers of Tobacco. The Factory Building situated on said lot, is of modern build, very large, new, with brick walls on the inside, capable of being heated in winter, and cool in summer. The building was erected for the purpose for which it is now being used, within five miles walk of the Railroad Depot, and very near the Tobacco Warehouses now in operation. This is a
