THURSDAY, AUGUST 16, 1883.

We think there has been so change in the public sentiment of our people in this part of the State on the tariff question, but that they still doward the repeal of the internal revenue system as a leading measure, to be followed by such an arrangement of tariff dues on importations as will equalize the burden of government

COMPARISONS, it is said, are odious, but there is so much truth and good sense in the following that we are obliged to commend it:

HEAVY LOSS BY FIRE.—The largest and finest Hotel in the South, the Kimball House, Atlanta Ga., was totally destroyed by fire Sunday morning last. The fire broke out in a paint shop in the basement, reached the elevator and quickly leaped up that opening to the roof, setting fire to every floor in its passage. It was discovered about 41 p'clock, and by 8 o'clock the work of destruction was complete. The loss is estimated at \$1,000,000. The lower rooms on two fronts were occupied by stores, gage in the house, with the exception of Observer. one trunk, was saved, and not a life lost, This immense and elegant building cost \$620,000-a sum of startling amount, But we learn that it is to be rebuilt, and will be given new and valuable improvements.

A Mad Dog's Bite.

The following, clipped from the Charlotte Journal Observer, relates the curions consequences of the bite of a dog with the rabies:

"Out in Long Creek township about four weeks ago, a mad dog bit a hog, belonging to Mr. Frank Shoemaker, and last Thursday the hog died, after a week's cavorting around with the rabies. The hog actually went mad and its favorite freak was to root. It rooted up three pine trees, five or six panuels of fencing and finally overturned Mr. Shoemaker's corn crib It died trying to root up a big rock. The by the carcass. Others flew up into trees, where they sat with ruffled feathers, unti and wants to know if anything like it has ever happened in this country before." It is all new and as strange as fiction to

us. We have seen three hogs die of rab ies, but they performed no extraordinary rooting or other kind of feats. On the contrary, they fell to the ground when the spasams came on, and there remained, or fifteen minutes. Death released them

It is said that insanity is on the increase in all civilized countries. So important a fact should elicit the most careful investigation as to the causes which produce it. It would be no difficult task to obtain satisfactory information from the officials of insane and lungtic asyfums in this and other countries. It is generally conceded that drinking spirituous liquors is the most prelific of all the causes, though it may need the confirmation that carefully prepared statisties would show. Whatever the causes they should be sought out as a first step towards applying a corrective. An evil of such magnitude should excite the active concern of all.

Depopulating Ireland.

LONDON, August 10 .- The Standard this morning says that the government has decided to provide an additional sum of £100,000 to aid Irish emigration, the money to be taken from the British exchequer instead of from the surplus Church fund. A meeting in favor of State aid emigration was held at the Mansion House to day. The Earl of Shaftensbury presided. A resolution was offered providing for sending 200,000 persons to Canada and other British Colonies and for procuring them farms in their new homes, the money for the parchase of land to be advanced by the State, which is to take mortgages on the farms as security for payment. The resolution, 44 which was supported by the Archbishop of Canterbury, was adopted. It is proposed to send 10,000 families to Canada

ADAMS, N. Y., Jan. 30, 1882. Dr. B. J. Kendall, & Co., Gent's: Having used a good deal of your Kendall's Spavin Cure with great success, I thought I would let you know what it has done for me. Two years ago I had as speedy a coll as was ever raised in Jefferson County. When was breaking him, he kicked over the cross bar and got fast and tore one of his hind legs all to pieces I employed the best farriers, but they all said he was spoiled. He had a very large thorough-pin, and I used two bottles of your Kendall's Spavin Cure, and it took the bunch entirely off, and he sold after, wardstor \$1,500. I have used it for bone spavins and wind galls, and it has always cured completely and

left the leg smooth.

It is a splendid medicine for rheumatism. I have recommended it to a good many, and they all say it does the work. I was in Witherington & Kneeland's drug store, in Adams, the other day, and saw a very fine picture you sent them. I tried to buy it, but could not; they said if I would write to you that you would send me one. I wish you would, and I will do you all the good I can.

Kendall's Spavin Cure.

B. J. Kendall & Co., Gents:-Being a sufferer from rhetimatism, I have tried a great many remedies for that complaint, using everything that I heard of or that my frienes knew of, and being treated by the best physcians in this city without effect. I had become discouraged and had concluded there was no help for this disease, when I fortunately met your agent, Mr. John Fish, who told me it was unnecessary to suffer any more, as Kendall's Spavin Cure would do the business, and as I was of the same profession he presented me with a bottle, which I used, and I must say without any faith, in one week I am able to walk without a cane or any other artificial help. I don't know that the Spavin Cure did it, but this I do know, I will never be without Kendall's Spavin Cure again, as I thoroughly believe it deserves its popularity, and has unquali-fied merit. I write this entirely unsolicited. Yours truly, H. B. SNOW, C. T.

Great Water-Power FOR SALE!

The most extraordinary unimproved Water Power on the Yadkin River is for sale at low figures. It is situate at the head of the Narrows in Stanly county, 8 miles from Albemarle, the county seat; 13 miles from Gold Hill, and about 28 miles from Court House in Salisbury, on Monday the Salisbury. It is one mile from the public highway leading to Salisbury, from which road it is easily accessible down to the water's edge. The peculiar feature of this property is that it is a natural stone dam which makes about a six foot head of available water. The dam runs at an angle of about 20 or 25 deg. up the river nearly all the way across, gradually diminishing in height as it approaches the opposite shore. A race of 400 feet in length will sold from 12 to 14 additional feet of head, making the grand power of 18 or 20. There is any quantity of building stone and slate of excellent quality, on the premises, easily

transported by water. This excellent power may be used for GRIST AND FLOURING MILLS.
