

The Carolina Watchman.

VOL. XIV.—THIRD SERIES

SALISBURY, N. C., SEPTEMBER 6, 1883.

NO. 47

The Carolina Watchman,
ESTABLISHED IN THE YEAR 1852.
PRICE, \$1.50 IN ADVANCE.

CHOLERA!

PROF. DARBY'S
PROPHYLACTIC FLUID.

The most powerful Antiseptic known.
WILL PREVENT THE CHOLERA.

It Destroys the germ of Disease. It is a fact established by scientific men that cholera is caused by a germ which enters the system through the mouth or the pores of the skin. This germ is destroyed by Prof. Darby's Prophylactic Fluid, which is a powerful antiseptic and disinfectant. It is used in the most successful manner in all cases of cholera, and is the only remedy that will prevent the disease.

It Purifies the Atmosphere. It is used in all cases of cholera, and is the only remedy that will prevent the disease.

Beyond the Mountains.

Beyond the mountains—ah! beyond how fair in fancy gleams the valley with its spreading fields, the glint of winding streams! Beyond the purple mountains height stray all our happy dreams.

There's always a river to cross, Always an effort to make, If there's anything good to win, Any rich prize to take; Yonder the fruit we crave, Yonder the charming scene; But deep and wide, with a troubled tide, Is the river that lies between.

For the treasures of precious worth We must patiently dig and dive; For the place we long to fill We must push, and struggle and drive; And always and everywhere We'll find it in our onward course, Through the mud and mire, and trials to meet, And a difficult river to cross.

The rougher the way that we take, The stouter the heart and the nerve; The sterner in our path we break, Nor e'er from our impulse swerve; For the glory we hope to win, Our labors we count no loss; 'Tis folly to pause and murmur because Of the river we have to cross.

So, ready to do and to dare, Should we in our places stand, Fulfilling the Master's will, For though at the mountains high The billows may rear and toss, They'll not overwhelm if the Lord's at the helm— One more river to cross.

—Josephine Pollard.

The Poor Boys.

Don't be discouraged because you are poor. Learn something valuable every day. Heap up knowledge of all good and useful things. Be active in the performance of duties, faithful and true in all you do; and places, and business, wealth and influence will be your lot in the world. The Youth's Companion says:

We owe more to poor children than we think. Columbus was a poor boy, often needing more food than he could get. Luther sang ballads in the street to get the funds for an education. Franklin used to buy a role for a penny and eat it alone. Dr. Livingstone learned Latin from his loom while at work. Emily C. Judson used to rise at two in the morning and do the washing for the family. Gambetta was poor and slept in an attic. Lucy Larcom was a factory girl. Dr. Holland was poor and a school teacher. Capt. Exels was bear-foot and penniless at nine years old. None of these people have been idle, or while away their time on street corners, or in games of cards or billiards. They were too busy.

Bost's Boss Corn in Boston.

Capt. R. A. Bost, of Newton, says the Hickory Carolinian, is no worse a farmer than a Hotelier. He knows as well how to raise good corn as to provide good eatments.

He has gathered from his farm and sent to the Boston Exposition a box containing 163 ears of corn which weighed 160 lbs.—nearly three bushels. But for filling the box he could have sent a dozen or so less and had all to average one pound each. It is the Best Improved Mammoth White, and beats any corn we have seen carried about and sent through the mail at fabulous premium prices.

Hurra for Bob. We have always thought there was a large deal of good in him, and now we begin to see it.

Hard to Kill.

Mr. David A. Coon, of this county who is familiarly known as "Honest David," is about as hard to kill as a man generally gets to be. At the battle of Gettysburg he was wounded nine times in less than nine minutes. He was shot through the right foot, through the right leg just above the ankle, through the right thigh twice, in the left leg, twice through the left thigh, in the left side and in the head, and was captured. He then lay in a grove, near the field, eleven days, with only an awning stretched above him, and then lay three weeks in a tent before being taken to a hospital. Yet he lives and is physically equal to almost any man in North Carolina, notwithstanding he carries around in his anatomy enough lead to start a shot factory.—Lincoln Press.

Pittsburg Telegraph: "A good professional base ball player gets \$1200 a year, and earns most of it with his legs. A good preacher has to worry along on \$900, but then he uses his brains. Brain power is at a discount these degenerated days." The Telegram might have added that a slugger like Sullivan can give an exhibition of his knock-down qualifications and take in more money in half an hour than the average clergyman can in half a life time.

A Noble Habit.

There are persons whom you can always believe, because you know they have the habit of telling the truth. They do not "color" a story or enlarge a bit of news in order to make it sound fine or remarkable. There are others whom you hardly know whether to believe or not because they "stretch" things so. A trifling incident grows in size, but not in quality, by passing through their mouths. They take a small fact or slender bit of news and pad it with added words, and paint it with high colored adjectives, until it is largely unreal and gives a false impression. And one does not like to listen to folks when so much must be "allowed for shrinkage."

Cultivate this habit of telling the truth in little things as well as in great ones. Pick your words wisely, and use only such as rightly mean what you wish to say. Never stretch a story or fact to make it seem bigger or funnier. Do this, and people will learn to trust you and respect you. This will be better than having a name for telling wonderful stories or making foolishly or falsely "funny" remarks.

There are enough true funny things happening in the world, and they are most entertaining when told just exactly as they come to pass. One has well said: "Never deceive for the sake of foolish jest to excite the laughter of a few companions at the expense of a friend."

Be Social.

A young man comes to your church; he is a perfect stranger to the majority of those he meets; his home is far away; his church he has left behind. He listens attentively to the service, and is pleased and profited by what he hears. The service over he goes out. Although many know him to be a stranger, yet no one extends the friendly hand or in any manner notices him. He is somewhat discouraged, a little homesickness steals over him, but he resolves to go there once more. He goes, with the same result. Discouraged, he seeks another sanctuary where the warm grasp of the hand, information about the evening meeting, invitation to the Sunday-school, and the interest taken by the members of the church in his welfare, at once decides his course. The result is a zealous worker is gained by one church and lost by the other, and simply because the young men were social.

Young men and young women of our churches, never let a stranger go away without a notice; never let that chilling feeling of loneliness come over any person in the house of God. It should be your pleasure to make every stranger at home. Try it, and your reward will be speedy.—Zion's Watchman.

An Interesting Bible Puzzle.

Add to the age of Abraham when he died the number of foxes Samson sent into the Philistines' corn; subtract the age of Joshua when he died; multiply the amount by the number of cords that the men of Judah bound Samson with, and add the number of men in Gideon's army who lapped water like a dog; divide the product by the number of kings that went to suite Gideon; add the number of years that David reigned; divide the total by the number of leaves that Elisha satisfied 100 men with at Gilgal; add the number of days Christ was tempted; divide the total by the age of Christ when he went to the Temple with His mother; add the number of years Solomon took to build the Temple; subtract the number of years Solomon took to build his own house; subtract the number of days Lazarus had been dead when raised to life, and add the number of loaves Christ fed the 5,000 people with. The answer will be the value of a coin in cents.

The Nashville American wants to know "how it would do to elect postmasters by ballot in each community?" The immediate occasion for the question is the immense patronage wielded by the Post Office Department at Washington, and the impossibility of any one, who does not belong to the dominant party, getting a position in any post office. It will probably be admitted that as a rule the post offices of the country are supplied with good postmasters, and that the post office business is conducted systematically and satisfactorily. It is extremely doubtful if the American plan would be an improvement. Local politics do not bring the most competent men to the surface.

Even if Ohio should elect the Republican candidates this fall, that circumstance would not determine the political situation. That State is indispensable to the Republican party, but it is not necessary to the Democrats.

The Suspender Girl.

Men who never wore suspenders are buying them at the Southern Exposition. And they tell their friends about it, and they buy another pair, and its all on account of the way they are sold. "Here they are, sir," she said, with a sisterly (some other fellow's sister) welcome in her pretty face, "any and all kinds of suspenders. Of course you'll take a pair. They'll fit you snugly, and if you've been out o' nights they'll brace you up. Wear them three years, and if they rip, tear or stretch, come back—and buy another pair. Hard study is making you round shouldered. Take a dose of these suspenders daily, and you'll walk the waters like a thing of life. Suppose you perspire—but you're too nice to think of such a dreadful thing—this suspender will not be affected by it. There is a general wail for these gold plated silk ones. You won't buy suspenders? Then it must be garters you want. Closed, so the garter stops circulation, induces lameness, shortens your days and makes the undertaker blossom as the rose. But with this patent encircular the step quickens, the eye brightens and a general joy takes possession of the community. And this patent, but pardon me a moment—

"And you are back again," she beamed on an old gentleman from out of town, "how many pretty things you've bought. Let me tie them up for you. There now you have them."

Charity Among Birds.

In this city notice was recently made of a robin that went to a house to feed one of its young that some boys had carried off and placed in a cage that was allowed to hang out of doors. Thus, Prince, who resides on Carson River, above Dayton, tells of a circumstance still more singular. He says a pair of robins had their nest on a fence near his house, while in a bush near by a pair of catbirds had built their nest. The two pair of birds hatched out their young about the same time and all went well for several days. Then the catbirds were seen no more, probably having been shot by some of the beekeepers of Dayton.

The young catbirds were evidently starving. When the robins came with a worm or other insect for their young they always alighted on the top rail of the fence before hopping down to their nest. Every time when a robin saw the catbirds opened their mouths, thrust up their heads and made a great outcry. They were begging to the best of their ability for food.

The robins appeared to understand the appeal, and began feeding the hungry little catbirds. They did not do what they had undertaken by halves. Each evening the female robin sat on her own nest and warmed with her body her own young, while the male robin took to the nest of the catbirds.

In this way both broods were reared, the little orphans growing up as strong and lively as though they had been cared for all through by their own parents. Both broods are now able to fly, and the young robins and catbirds all still flock together, but presently the latter will probably leave and take up with their own kind.—Virginia City Enterprise.

During a recent lecture in London before an assembly of army officers, inventors of small arms and other experts, Col. Fosbery astonished his audience by suddenly drawing from under the table a weapon which he had just brought from Liege and which he called a "baby electric gun." It could not be discharged until brought in connection with the source of electric force, but that done it could be worked with amazing rapidity, its inventor, Mr. Piepor, of Liege, having a few days before fired 104 rounds in two minutes. Col. Fosbery exhibited its mode of operation by means of a small electric accumulator secreted under his vest, and minute cartridges containing only powder and a wad. Various speakers afterward expressed the opinion that electricity would again revolutionize the manufacture of small arms.

Nearly all the Java coffee consumed in this country is produced in the island of Sumatra by the natives, under the supervision of the Dutch Government, which buys the product at a low, fixed price, and sells it at auction either in Batavia, Padang or Amsterdam. Some of the plantations are very large, one of these comprising over 20,000 acres, upon which, at various elevations, are grown rice, coffee, tea, cloves and nutmegs.

The Mayor Imposing Heavy Fines.

Our readers will probably remember the lively times in Charlotte on the 20th of last May. Among the rows of the occasion was one raised by Jim and George King, two countrymen, who created a disturbance and then assaulted Policeman, Mike Healy. They got away from the city, but the police entered their names on the blue book. Yesterday the two Kings came into the city, and were promptly arrested by the police and carried before the mayor to be tried for the old offense. The testimony was reviewed, and Mayor Maxwell put a fine of \$40 and cost each upon the two men. From this decision of the mayor they took an appeal. In imposing these heavy fines for resisting the officers Mayor Maxwell gains for himself the applause of our people, and from future offenders a more wholesome respect for the majesty of the law. The mayor is determined to sustain the law, and it appears to be his intention to come down on all of 'em like a bag of shot from a third story window.

Charles Jetton and Tom Savage, for an affray, were fined \$5 each.—Journal-Observer.

ALL SORTS.

Gresham being the "green" man of the Cabinet, the others have contrived to tuck off on him the job of staying in Washington and being a government.

When you fret and fume at the petty ills of life, remember that the wheels which go around without creaking last longest.

A man who puts aside his religion because he is going into society resembles a person taking off his shoes because he is about to walk upon thorns.

A Maine girl didn't want her lover to name a boat after her, because she didn't desire to read in the papers that "Matildy Slocum is up for repairs, Matildy Slocum is in the dock to be scraped," etc.

The Chief of the Northern Chelyennes and Arapahoes is named Wild Hog. The belle of the tribe is his daughter, and she is known as Miss Hog. This is entirely wrong. Her name should be Miss Pig.

The greatest heat of the air in the sun probably never exceeds 145 degrees, nor the greatest cold 65 degrees below zero. About 130 degrees above and 40 degrees below zero are the extremes for the United States and very unusual.

A young city fellow, dressed in a faultless suit and a pair of shoes that tapered into a point in a most modern style, was visiting in a rural district. A bright little boy looked him all over, until his eyes rested on those shoes. He looked at his own chubby feet and then at his visitor's, and then looking up, said, "Mister, is all your toes cutted off but one?"

WASHINGTON, August 30.—Ex-Chief Justice Moore, of Texas, died suddenly in this city to day of apoplexy.

NEW ORLEANS, Aug. 30.—The grand jury in their report suggest as a sanitary measure that a crematory be established under the direction of the officers of Charity hospital for the purpose of burning the bodies of persons who die of contagious disease.

BOSTON, August 30.—The Boston house of Geo. W. Hallow & Co., acknowledged the correctness of the firm's liabilities are between \$1,500,000 and \$2,000,000 instead of \$750,000 as first reported.

SCRANTON, Pa., August 30.—The conductor of an excursion train from Scranton to Mountain Park to-day, put John Kerrigan, aged 19 years, who had no ticket, off the cars while the train was going at the rate of thirty miles an hour. He fell under the wheels and was instantly killed.

WASHINGTON, August 30.—The Consul General of the United States at Rome has furnished the State Department with an account of a series of contests in Italy between combined reaping and binding machines manufactured in several countries in which those from the United States were successful. The trials were severe. The ground being in many places marshy or stony, but the result clearly showed the superiority of the American machines. There were but two prizes offered and both were won by Americans.

1,000,000 POUNDS OF DRIED FRUIT AND BERRIES AT

KLUTTZ & RENDLEMAN'S!

They have just received a new supply of SUMMER GOODS, which they offer very cheap, with a full assortment of

Dry Goods, Notions, Clothing, Furnishing Goods, SHOES AND HATS.

Their Stock of Family Groceries is large and complete. They still have the best Flour, Oat Meal, Meats, Sugars, Teas, Coffees, Rice, Meal, Bran, Shorts, New Orleans Molasses, Syrups, Pure Lard, &c.

A full assortment of Family Medicines. FRUIT JARS cheap and all kinds. Table and Glassware, A Good Stock. Agents for Coats' Spool Cotton. Still have a plenty of Five Cents Tinware. Come and see us before you buy or sell, for we will do you good. W. W. TAYLOR, D. J. BOSTIAN, Salesmen.

J. R. KEEN, Salisbury, N. C. Agent for PHOENIX IRON WORKS, Engines, Boilers, Saw Mills, AND TURBINE WHEELS Also, Contractor and Builder. Ja 25, '83.—17

BOOK STORE.

School Books—Full Stock, lowest prices. Writing Paper, Pens and Pencils. Envelops, Visiting Cards. Seaside Novels and Monroe's Library. Blank Books, Gold Pens. Autograph and Photograph Albums. Wall Paper, Toilet Articles, Perfumery. Fine Toilet Soap, Combs and Brushes. Bathing Gloves and Towels.

SILVER Plated Ware

FINE CIGARS, FRENCH CANDIES A SPECIALTY. TROPICAL FRUITS IN SEASON, PICTURES & PICTURE FRAMES, TOYS, DOLLS, VASES AND ACCORDEONS AND BANJOS, VIOLINS, GUITARS AND BANJO STRINGS. THEO. SUBERBAUM, SALISBURY, N. C.

A Great Water-Power FOR SALE!

The most extraordinary unimproved Water Power on the Yadkin River is for sale at low figures. It is situated at the head of the Narrows in Stanly county, 8 miles from Albemarle, the county seat; 13 miles from Gold Hill, and about 28 miles from Salisbury. It is one mile from the public highway leading to Salisbury, from which road it is easily accessible down to the water's edge. The peculiar feature of this property is that it is a natural stone dam which makes about a six foot head of available water. The dam runs at an angle of about 20 or 25 deg. up the river nearly all the way across, gradually diminishing in height as it approaches the opposite shore. A race of 400 feet in length will add 12 to 14 additional feet of head, making the grand power of 18 or 20. There is any quantity of building stone and slate of excellent quality, on the premises, easily transported by water.

This excellent power may be used for GRIST AND FLOURING MILLS. COTTON & WOOLEN FACTORIES. REDUCTION MILL FOR SULPHUR-RETED ORES.

It is conveniently near the mines of Montgomery, Stanly, parts of Cabarrus, Rowan and Davidson Counties to make it a custom mill, for the reduction of ores, with the great advantage of being in the centre of the mining districts named above. The area within easy reach could not be worked out in a century. This water power with 10 acres attached is offered at \$2,500, with the option of 100 acres at \$3,500. The lands are valuable for farming purposes; the situation healthy, the society good, and church and school advantages very good. Persons wishing further information may address "Watchman," Salisbury, or Mr. J. R. Littleton, Albemarle, N. C. [Map of place furnished on application.] 33:1.

THANKS, THEY COME!

Our Stock Constantly Replenished. UNDER THE FIRM NAME OF PLUMMER & MORGAN. Wm. J. PLUMMER, long known as the best Harness and Saddle Maker who ever did business in Salisbury, presents his compliments to old friends and patrons with an invitation to call and see his present stock of new Harness, Saddles, Collars, &c. He warrants satisfaction to every purchaser of N. W. Stock, and also his repair work. Rates as low as a good article will admit of. Call and see. PLUMMER & MORGAN.

Hostetter's Bitters. Hostetter's Bitters, by increasing vital power, and rendering the physical functions regular and active, keeps the system in good working order, and protects it against disease. For constipation, dyspepsia and liver complaint, nervousness, listless and rheumatic ailments, it is invaluable, and it affords a sure defence against malarial fevers, besides removing all traces of such disease from the system. For sale by all Druggists and Dealers generally.

J. D. GASKILL only. Salisbury, N. C.

ADMINISTRATOR'S SALE OF LAND!

In pursuance of a judgment of the Superior Court of Rowan county, in the special proceeding of James P. Trexler and C. W. Stewart, administrators of D. A. Miller, vs. Nancy Miller and others, heirs-at-law of the said D. A. Miller, we will sell at public outcry to the highest bidder, at the Court-house door in Salisbury, On Monday, the 10th of September, 1883, the following described tract of land, situated in Franklin township in Rowan county, being lot No. 4, in the division of the lands of John Foster, Sr., and being the lot assigned to Laura C. Foster, and by her conveyed to D. A. Miller, by deed dated 4th day of January, 1883, and duly registered in Book 62, page 373 P. R. office of Rowan county, containing One Hundred and Forty-three acres, more or less. TERMS of Sale: One-third cash, one third in six months, and the balance in twelve months. The retained until the purchase money is paid, and interest charged upon deferred payments at the rate of eight per cent per annum. JAS. P. TREXLER & C. W. STEWART, Administrators of D. A. Miller—Commissioners. Dated Aug 9th, 1883.—43:4

FOR RENT! The Mother-would log-house, with an excellent garden, corner Lee and Hiram streets. Apply to W. H. NEAVE, corner of Church and Fisher Streets. 42:1
