

LOCAL.

THURSDAY, SEPT. 20, 1883.

Subscription Rates: The subscription rates of the Carolina Watchman are as follows: 1 year, paid in advance, \$1.50...

John Beall, son of Capt. T. B. Beall of this city, is said to be the youngest student on the college roll at Chapel Hill...

There will be services in the Catholic church on Sunday next, at half-past 10 o'clock in the morning and at half-past 7 in the evening...

An amateur company of this place, styling themselves the "Carolina Minstrels," gave an entertainment at Meroney's Hall, Tuesday night...

"OUR LAWS."—Two darkies met under a window, Monday, when the following conversation took place: "How's times," said one.

"Answer."—Pretty good, only now and then a country negro comes along and knocks down our prices, (for work), but we're going to pass a new law to prevent that."

So it appears that the negroes have attempted some concerted action among themselves for the regulation of prices for labor. There is no such action among white people for their protection, and we suppose there will be none.

Enochville Items.

The plasterers have been doing up Mr. H. M. Leazer's house, and he can now boast the best residence in the village, and if reports are true, he intends to add to the number of inmates, a partner for life.

At a meeting of Fulton Lodge, No. 99, A. F. and A. M. held Sept. 19th, 1883, the following preamble and resolutions were unanimously adopted as a tribute of respect to brother J. C. Crosscut.

Resolved, That these resolutions be spread upon the records of the Lodge, and a copy thereof be transmitted to the family of our deceased brother, and to both of the newspapers of the town.

IN MEMORIAM.

At a meeting of Fulton Lodge, No. 99, A. F. and A. M. held Sept. 19th, 1883, the following preamble and resolutions were unanimously adopted as a tribute of respect to brother J. C. Crosscut.

Resolved, That these resolutions be spread upon the records of the Lodge, and a copy thereof be transmitted to the family of our deceased brother, and to both of the newspapers of the town.

Resolved, That the heartfelt sympathy of this Lodge be extended to his family in their affliction.

Resolved, That these resolutions be spread upon the records of the Lodge, and a copy thereof be transmitted to the family of our deceased brother, and to both of the newspapers of the town.

Death of Parish Furman.

The sudden End of the Brilliant Career of the Famous "Intensive" Farmer of Georgia.

COLUMBIA, Sept. 15.—Parish C. Furman died at his residence, near Milledgeville, Ga., last night, after three weeks' illness. He was the son of Dr. John H. Furman, of Sumpter county, in this State...

FLORIDA SHIP CANAL.—New York, Sept. 15.—At a meeting of the stockholders of the Florida Ship Canal and Transit Company yesterday, the board of directors was authorized to make a contract for the construction of the canal.

WASHINGTON, Sept. 17.—Dispatches received at the marine hospital to day from Pensacola states that an inspector from home to house is not needed. There are three physicians ready for duty.

was taken ill with fever, from which disease he died last night. Young, well-minded, highly gifted, physically and mentally full of energy and enthusiasm, he gave promise of the greatest usefulness in the field where the South most needs expansion.

The suicide of Judge Mayo is not without a lesson. His sons, were Readers and he was prevailed on to take a judicial office with the expectation that he might retain his integrity and not mix his politics with the discharge of his duties.

Malone rose as a mephitic vapor, and his star burning with singular brilliancy, has exhausted all the substance that gave it support. The people will repudiate him and his methods at the next election in a way that will not be misunderstood.

The Cotton Tax.

Justice Field's letter to Mr. Royall, detailing his opinions, many of which are dear to the Southern people, has opened up fresh interest in the tax, a monstrous robbery that ought to be repaired.

Table with 2 columns: State and Amount. Alabama, \$10,388,072; Arkansas, 2,555,638; California, 490; Connecticut, 193; Florida, 918,444; Georgia, 11,897,004; Illinois, 379,144; Indiana, 92,737; Iowa, 27; Kansas, 286; Kentucky, 553,327; Louisiana, 10,098,501; Maryland, 50,340; Massachusetts, 65,679; Mississippi, 8,742,065; Missouri, 592,088; New Jersey, 3,656; New York, 867,742; North Carolina, 1,050,704; Ohio, 447,129; Pennsylvania, 75,535; Rhode Island, 24,424; South Carolina, 4,172,420; Tennessee, 7,873,400; Texas, 5,502,401; Utah, 1,375.

The largest amount, it will be seen, was stolen from Georgia. If returned it would more than wipe out our public debt, leave a large surplus in the treasury, and permit the State to have and hold an excess of property estimated at about \$8,000,000.

It is the people of the East and West are disposed to be just and generous, here is a chance. They will be simply returning stolen property and put the South on her feet with her own money. We do not see why, in the face of enormous monuments of their fraudulent, the East and West should object to the South having what belongs to her, and what common honesty would dictate restoration as the best policy.

WASHINGTON, Sept. 17.—Secretary Folger said this afternoon that he was making estimates prepared with a view to making another call for bonds this month. It is probable that action will be taken not later than Wednesday of this week when the figures will be ready and the amount of the call can be determined.

FLORIDA SHIP CANAL.—New York, Sept. 15.—At a meeting of the stockholders of the Florida Ship Canal and Transit Company yesterday, the board of directors was authorized to make a contract for the construction of the canal.

WASHINGTON, Sept. 17.—Dispatches received at the marine hospital to day from Pensacola states that an inspector from home to house is not needed. There are three physicians ready for duty.

MINING.

T. K. BRUNER, MANAGER.

Institute Fair Building.

Boston, Sept. 15, 1883. The fair may now be considered well under way, with crowds of people attending, yet the work of placing exhibits in many of the displays is still going on.

Coming into the building from Huntington Avenue, the first objects that meet the visitor, are grocers' and druggists' goods in great profusion, oil and other stoves, canned goods, soda-water and beer stands; pop-corn, muffin and griddle cake men, serving their goods hot; perfumes, soaps, &c., &c. Passing these and walking to the steps leading to the main exhibition floor, an active, pleasing scene presents itself.

On our right flank is the fine show of the Union Pacific Railway. Surmounting a large pyramidal square, the base of which is of minerals, and the crest graining in the straw, is an evergreen tree, from which well preserved heads of deer and buffalo protrude. The corners are decorated with stuffed fowls of large size and various forms, making altogether, a picturesque and attractive display.

Next beyond this, on the same flank, is the Texas exhibit. They are just now placing it and the work will require ten days to complete. On our left flank is a handsome office of North Carolina natural woods, the headquarters of the Seaboard Air Line Railway of our State.

Since my last our exhibition has been visited by the foreign and American guests of the commonwealth of Massachusetts in a body. Lord Chief Justice Coleridge is quite an imposing looking old gentleman, plainly dressed. Gov. Benj. F. Butler looks just like his picture, only a little more so. There is no occasion to express what passed through the writer's mind as he and Gov. Jarvis stood side by side.

In showing the Governor through the State exhibit it was gratifying to hear his approval so heartily expressed. The Hon. Commissioner of Agriculture, who will probably remain with us, is as much pleased as his Excellency, and they both say it is the largest exhibit they ever saw of any State's resources.

When it is made known that this whole exhibit, requiring some twenty or more cars to bring it here, was gathered from the field, by only nine men, and that the time required for the work embraced only from June 10th to August 15th, the people open their eyes in wonder.

It has been the duty and pleasure of the writer to entertain and carry through our exhibit some of the city and country editors of this section. (Experience alone teaches how tiresome and inquisitive editors are.) They have, as before stated, been very partial to North Carolina, and have viewed our "outlay" with admiring eyes.

Moles.

The language of moles: A mole spot on the arm-pit really promises wealth and honor. On the ankle it bespeaks modesty in men, but courage in women. When a mole spot is found on the right breast it is a sure sign of honesty, if on the left it forebodes poverty; on the chin it promises wealth, on the right ear respect, on the left ear dishonor. If it is seen in the center of the forehead it speaks treachery, sullenness and untidiness. If it is on the right temple it forebodes the great; on the left temple it forebodes distress; on the right foot it bespeaks wisdom, on the left rashness. When it is on the right side of the heart it denotes virtue; when on the left side wickedness. When it is on the knee of a man it denotes that he will have a rich wife. When it is on the left knee of a woman she may expect a large family. A mole on the lip is a sign of glibness and talkativeness; on the neck it promises wealth. A mole on the nose indicates that a man will be a great traveler; on the thigh it forebodes poverty and sorrow and on the wrist ingenuity.

The California Oil Wells.

Character of the Petroleum Found in the New Districts.

A well known Pennsylvania oil operator, who has recently returned from a visit to the petroleum districts of the Pacific coast, gives some interesting information in relation to them. The districts are known as the San Fernando, Comulos, Little Seeps and Santa Barbara.

The oil territory extends from Newhall to Santa Barbara, a distance of two hundred miles. It is from a mile to 50 miles wide judging from the surface indications. These indications are springs from which petroleum may be collected, as it was in the early days on Oil creek. This surface oil is black and heavy. Experiments have proved that oil bearing rock on the Pacific coast is of different qualities according to the depth the drill is dropped. Thus shallow wells produce an oil which is an excellent lubricator, but unfit for illuminating purposes.

On our right flank is the fine show of the Union Pacific Railway. Surmounting a large pyramidal square, the base of which is of minerals, and the crest graining in the straw, is an evergreen tree, from which well preserved heads of deer and buffalo protrude. The corners are decorated with stuffed fowls of large size and various forms, making altogether, a picturesque and attractive display.

Next beyond this, on the same flank, is the Texas exhibit. They are just now placing it and the work will require ten days to complete. On our left flank is a handsome office of North Carolina natural woods, the headquarters of the Seaboard Air Line Railway of our State.

Since my last our exhibition has been visited by the foreign and American guests of the commonwealth of Massachusetts in a body. Lord Chief Justice Coleridge is quite an imposing looking old gentleman, plainly dressed. Gov. Benj. F. Butler looks just like his picture, only a little more so. There is no occasion to express what passed through the writer's mind as he and Gov. Jarvis stood side by side.

In showing the Governor through the State exhibit it was gratifying to hear his approval so heartily expressed. The Hon. Commissioner of Agriculture, who will probably remain with us, is as much pleased as his Excellency, and they both say it is the largest exhibit they ever saw of any State's resources.

When it is made known that this whole exhibit, requiring some twenty or more cars to bring it here, was gathered from the field, by only nine men, and that the time required for the work embraced only from June 10th to August 15th, the people open their eyes in wonder.

It has been the duty and pleasure of the writer to entertain and carry through our exhibit some of the city and country editors of this section. When it is on the left knee of a woman she may expect a large family. A mole on the lip is a sign of glibness and talkativeness; on the neck it promises wealth. A mole on the nose indicates that a man will be a great traveler; on the thigh it forebodes poverty and sorrow and on the wrist ingenuity.

Hon. E. R. Towle, from Vermont, called on us a few days since and we enjoyed a pleasant interview with him.

Why His Crop was Gassy.—"Your crop seems to be considerably in the grass," said a passer-by to a negro who sat on a fence. "Yes, sah; Gen. Green's dum got it." "Did you overplant yourself?" "No, sah; planted 'bout 'nuff." "Why didn't you plow it?" "Wife tuck sick. She does de plowin' fur dis place." "What do you do?" "I preaches; dat's what I does. Ef Providence comes along and makes de 'oman sick, 's kaint' he'p it. I's been called, I has."

A VIGOROUS PROTEST.—The most striking thing about the Washington conference of "Southern Independents" was the conspicuous absence of any colored man of prominence. Can the Mahone-Chalmers combination succeed without our cooperation? If we are to do the voting and take all the trade, we must commence protesting now.

WASHINGTON, Sept. 18.—During the month of August past, 38,388 immigrants arrived in this country, against 43,074 in August 1882. Germany furnished 13,368 England and Wales 6,310, Ireland 8,855, Norway 1,353, and Sweden 1,771.

PITTSBURG, Pa., Sept. 15.—The family of Richard Brown, a marble cutter, were poisoned last night by eating raw canned beef. Wesley Brown, one of the children, died. Dick Brown will probably die and two other children are ill.

Economy is wealth. A Lowell man spent two hours removing an uncancelled postage stamp from an envelope, so he could use it again.

According to the Italian papers, there were at least seven millionaires killed in the earthquake at Ischia. Among them was the actor, Signor Benadico, and his wife who have left a fortune of five millions lire.

At Pittsburg Thursday a balloon in which Prof. G. A. Warner has been making experiments collapsed when 5,000 feet above the earth. Mr. Warner held to the ropes, and the balloon came down so slowly as to land him on the ground uninjured.

The Kansas Sugar Refining Company at Hatcher, Kansas, has turned out its first batch of sugars. The result, it is claimed, settles all controversy about the possibility of making sugar from the sorghum cane. The run was of a bright grade, and crystallized perfectly without a sorghum taste.

John Wannamaker has added one more to his many benefactions to the Young Men's Christian Association by giving the Philadelphia Association \$50,000 to pay off its floating debt—\$200,000—was made up by other subscribers.

MECKLENBURG IRON WORKS JOHN WILKES, PROPRIETOR. CHARLOTTE, N. C. Mining Machinery a Specialty. We invite the investigation of Mine owners and Mill-Men seeking MACHINERY. We can furnish on board at our Works, or set up at the mines anywhere in the southern gold region, on short notice.— STEAM PUMPS, STAMP MILLS, (for wet or dry crushing), REVERBERATORY FURNACES, CONCENTRATING MACHINERY, ROLLS, CRUSHERS, CONVEYORS AND ELEVATORS, HOISTING ENGINES, BELT AND FRICTION HOISTERS, WIRE ROPE, RETORTS, BULLION AND INGOT MOULDS, & C., & C. Estimates furnished and prices quoted on application. 25-6m

MAKING A CALICO CAMPAIGN.—The Calico Leader says a Worcester county (Md) candidate went on an electioneering tour with a roll of calico under his arm and nearly every wife in the district was soon sporting a new apron. The candidate thought he was making plenty of capital, but the husbands, became jealous, and we suppose the shooting was placed in a convenient corner and kept in readiness for that calico candidate when he appears in that district again.

NOT SAFE TO SPECULATE IN CORN.—Recent frosts have undoubtedly injured the corn crop in the extreme northern localities in which it is planted, but before any one sells his property or mortgages his salary to get money with which to "produce" in corn through brokers in the Produce Exchange, he should try to realize that the greater part of the corn in the Union is below the limits of the late frost.

The Richmond States says: Our advisers from the Southwest are to the effect that there is a perfect stampede there among the Democrats from the Mahone camp, now that his Republicanism has been fully exposed. The stalwart Virginians of that part of the State will never submit to being Republicanized; and since the clout foot has been shown, their true Democratic impulses have reasserted themselves.

MARRIED. At Lawyer Gray's office, in Salisbury on Saturday Sept. 15th, '83, at 3 o'clock, p.m. by David L. Bringle Esq., Mr. Feilding Josey to Mrs. Froyce C. Beaver, daughter of Solomon Ketchey, all of Litcher Township. In this county, Sept. 5th, by Rev. Geo. B. Wetmore, Robert F. Cook, Esq., to Miss Lunda, daughter of the late Lee Baue, Esq.

Salisbury Market. Corrected weekly by J. M. Knox & Co. SALISBURY, Sept. 20, 1883. Bacon 10 to 11; Chickens 12 1/2 to 20; Eggs 12 1/2; Cotton 70 to 75; Flour 2.20 to 2.25; Fat 40 to 50; Hay 25 to 30; Meal 70 to 75; Oats 35 to 40; Wheat 85 to 100; Wool 35.

Salisbury Tobacco Market. CORRECTED WEEKLY BY JNO. SHEPPARD. Lugs, common to med. 5.00 to 6.25; Lugs, med. to good. 6.25 to 7.50; Lugs, fine to fancy. 7.50 to 12.50; Leaf, common to med. 6.50 to 8.00; Leaf, med. to good. 8.00 to 11.50; Leaf, good to fine. 11.50 to 15.50; Wrappers, com. to med. 12.50 to 15.00; Wrappers, good to fine. 15.00 to 27.50; Wrappers, fine. 27.50 to 40.00; Wrappers, fancy, none offered. The breaks for the past week have been good and prices have ruled high for all grades. All tobaccos have found ready sale at the above quotations.
