Relieve Debility and Nervousness.

ALLCOCK'S PLASTERS worn on the region of the kidneys warms the spinal marrow which is a continuation of the brain, imparting new vitality and power to the spine they stregthen that mighty organ and fill it full of foreign electricity or nervous fluid. Thus they will restore to the busy active brain of man or woman, the energy and ability which has been lost by disease, wor ry or overwork. They restore vitality where there has been debility and nervousness, and prevent loss of memory and paralysis. Physicians highly recommend them for nervous debility, whether arising from dissipation or overwork. They are now known to be the great regenerators of the nervous system and are invaluable in all cases of hysteria.
