Sleigh-riding by moonlight, as well as in day time, was a favorite amusement with our young people last week. A better condition of roads for it is rarely seen in this section. No one can ever know the heart aches or the secret joys to which the season gave birth. Some will doubtless date from it an epoch in their lives.

THANKLESS TRAMP .- All tramps are that, but the one who visited Mr. Haden of Davidson county was one of the worst. He was peculiarly pitable in his appeal for food, and was taken in and treated kindly, and so much impressed Mr. Haden as to induce him to hitch his buggy and send him half way to Lexington. That night, there came a rapping at his door at an unseasonable hour. Suspecting things not altogether right, he took with him a large hickory cane as he went to open the door. As the door swung open the muzzle of a pistol and "your money or your life" was the greeting. The first blow from the cane caused the pistol to-fall. and the second blow caused the man to and hext morning the Tramp, for it was he, displayed a large roll of money and ried to buy his freedom, but Mr. Haden very properly delivered him to the offiers and he now rests in jail. MINING.

T. K. BRUNER, MANAGER.

Prof. Geo. B. Hanna, bullion assayer at the Charlotte Mint, reports \$114,649.95 The subscription rates of the Carolina as the amount of bullion assayed in that mint for 1883. This sum would be greatly increased if all the gold found in N. C. were assayed here. Philadelphia does a good deal of the assaying for this State.

Prof. R. B. Allen, M. & C. E. of Philadelphia is here looking after the interests of his company, which has been recently organized. He proposes to put up one of his new reduction plants in this county. From practical test runs his process seems an assured success. He could select no more central locality for erally mild, but there are still remaining the purpose than can be found here.

The N. C. State Exposition.

There is a strong movement in the direction of making a thorough exposition of the natural resources, crops, and of the manufactured goods produced in the State, at the city of Raleigh, during the fall of this year. The organization meeting will be yeld at Raleigh on the 30th inst. A committee of active, energetic men have the matter in charge, and it is proposed to do the thing in a thorough and systematic manner.

"Our Women in the War."

The News and Courier, Charleston, S.C., desires to obtain fifty or more sketches of the experiences, grave or gay, lively or severe, of the Southern women during the war. Little has been published hitherto concerning their sufferings, anxieties or privations, and the News and Courier wishes to make the record of the war complete, by giving the American public a just idea of what the Southern women endured during the struggle for the Lost Cause. There was comedy as well as tragedy in their daily life, and the object

is to obtain descriptions of every side and phase of a Southern woman's trials and triumphs, at home or as a refugee, during the Confederate struggle. The sketches in question will be published in the Weekly News, Charleston, S. C., under the general title of "Our Women in the War." The conditions are as follows:

1. The sketches must be written by Southern women who were in the South during the war, and shall be contined to a description of events and circumstances of which the writers have personal knowledge, and with which they or their families were connected.

2. Each sketch shall fill not less than fifteen or more than thirty pages of foolscap, written on one side.

3. The sketches shall be sent, with the real name of the writer, to the News and Courier, Charleston, S. C., not later than March 1st, 1884.

be promptly paid for, and any Southern woman who desires to do so can send in two or more sketches,

The object in view is certainly an excellent one, and it is hoped that Southern women everywhere will do their part in making the undertaking successful, "in order," as the News and Courier says, "that tardy justice may be rendered to "the women who encouraged the soldiers "by their patient fortitude and solaced "them with words of cheer, and who, "through all manner of hardship, of an-"guish, of misery, were faithful and true "to the very end- and after!"
