tant or scattered mills. It will require England, where they are compelled to year 1880, and at once tried to carry out no prophet to predict that machinery of used and coin silver, although practically my convictions by working up an interthis year which will greatly enhance with such overwhelming odds on the mass of the people were depending on the these figures. Rowan will have large side of consumption. The difficulties in State and county to furnish the school accessions of pulverizing machinery, and a thousand during 84.

A Warning to the Owners of Forests and Lands.

For several years parties have been going through this State buying standing trees in the forests of our land owners, paying them so much cash, and letting the trees stand for an indefinite time, and binding the owner to protect said frees, and to give free access to teams and labor to remove them at will. This plan gives the land owner a small amount of ready cash, a thing few people people care to let slip, but the result is disastrous in the end. It leaves the owner with a forest robbed of its commercial woods, which he has dis- in his saddle-bags, looking as sedate and posed of at nominal figures. It leaves and can obtain situations to suit him with his taxes just as high, and his American debt. Imagine our feelings as each year. New Englanders are coming to best timber owned by another who is we think over that old adage, that "but 3d. We will employ only first-class arolina and North Carolinians paying no tax. And more, it has hurt two things are certain-death and taxes." teachers. than the sum received for the trees. dulgent than the latter, and has not, as part by taking in pay scholars. little thought on this subject cannot but valuable hard woods. Few can hope to live long enough to see the forests replenished, or the evil effects of the wholesale tree robbery remedied. This business Commissioners have been too stingy to Western Carolina, and if there is no abatement in the practice, it will not our forests to one-fourth their present value, and force legitimate settlers and buyers to seek elsewhere for lands and and decide with caution.

> Question of Supply, GOLD AND SILVER.

One of the most important considera- long that the girls have been hinting that tions in any line or plan of operations is it would be a gone case with us should Some but Fifteen Years Old-Sandstone that of supply. It matters not in what the old woman take a journey to the betdirection human enterprise may desire to seek expression, this question stands should our taxes make another jump or upon the threshold and first demands two and we don't see the reason, and the consideration. In the question which now agitates the financial world in regard to the use or non use of metallic currency, no important policy should be adopted or measure taken without a most careful

Every rustle of the leaves, Another curiosity of the mails is a com-I couldn't think of anything but robbers and desperadoes, and shuddered as I remembered a man, who, years ago, had been found in the woods murdered in cold blood. Every feature of the ghastly face came up, and I turned sick when the gaping wound in his threat came up with startling verisimilitude.

> While I thus reflected, a short turn the lonely road, winding around a thickly wooded hill, brought me almost face to face with two men who seemed to be standing for me. Their horses were hitched to a neighboring grape vine, and the suggestive manner in which they looked at the animal I was riding sent a thrill like a streak of ice-water up my back. I saw at once that they were desperate men, and felt that they would not hesitate to kill me. Flight was out of the question, for any such move on my part would, I was convinced, prove certain death. For the first time in my life resolved to play the bully, and, assum ing what I fancied was an unconcerned expression, I said, "Good morning." "How are you? they replied, "Going
