The Radical Programme.

The Greensboro North State, the leading Republican paper in the State, under the caption of "Bright Political Skies," in its issue of Thursday has the following editorial:

Two things in politics are well settled: First, The National Republican party will elect the next President of the United States. Second, The State of North Carolina will be re-elected on the terms of the bourgeois and the bosses.

This last good will be accomplished in spite of frauds, appeals to race prejudice or the senseless hue and cry of "Nigger." It will be accomplished by a patriotic and united opposition. The lines will be formed, those who favor an honest ballot, the right of the people to govern themselves, cheap popular education, the encouragement of American labor and industry, and the perpetuity and glory of our country will be on one. Radicals and liberal Republicans and independents will form on the other side.

One convention, one ticket, one victory—this is the political trinity under which we fight and win. There will be one political convention composed of a united opposition. Any man, no matter by what past political name he has been known, so that he is opposed to Democracy, National and State, will be cordially invited to a seat in that convention and will have a voice in the formation of its platform and ticket.

While the North State is somewhat previous in claiming victory so far in advance, it is well to note the programme outlined, which is a general solidification, as far as it can be effected, of all the elements, black, white, streaked and striped, that can be mustered into some conglomerate, homogeneous mass, so to speak, against the Democracy.

KENDALL'S SPAVIN CURE. The most successful Remedy ever discovered as to its effects and does not blister. Read Proof Below. KENDALL'S SPAVIN CURE. DENVER, Colorado, April 22nd, 1882. DR. B. J. KENDALL & Co., Gents.—Four years ago while in the employ of A. P. Perry & Co., Danvers, Mass., we had a horse that became spavined during the first year of my stay with them, and remained so for four years, though we used every remedy we knew or could hear of but no avail. Some time during the fifth year, (for I was in their employ between five and six years), we were recommended to try Kendall's Spavin Cure, and after using it two months the horse was cured, the enlargement having been entirely removed, and thus believing it to be a valuable medicine I fully recommended it to all who have occasion to use it. Respectfully, P. H. LYONS.
