Now there are some facts that I think that the white men of Rowan county ought to know, and I make no other apology for trying to publish them than that I know them; and because no other man is a member of all the 'three committees, mentioned above, I assume that I know them as throughly as any

In the town of Salisbury, during the school lately closed, a tax of 16% cents on the hundred dollars, was collected for the suffering with scarlet fever. It is hoped Graded Schools. The net amount realizshe may be well enough in a few days to ed by this tax, and paid to the Committee, was \$2,032.48. This amount was divided as the law directs, between the two races, giving the whites what was collected from their race, i. c. \$1,958.48; and to the colored people what was collected from their race, i. e. \$74.

There was collected by the State during the same year, a tax of 121 cents, knows it has as much lead in it as any and by our county, a tax of 71 cents, for lead pencil, because it makes as big a school purposes, and the net amount distributed to the Public schools of Rowan county was about \$10,500, of which the Colored schools got \$3,240.

Now, I think it fair to assume, that if the colored people of Salisbury pay less than 31 per cent of the school taxes collected in the town, the colored people of Rowan do not pay more than 31 per cent. of the school taxes collected in the counthe Presbyterian church in this place, ty. That is to say, that out of the \$3,-240 given to the Colored Public Schools
