A TALE OF TWO CRUTCHES. A Well Known Citizen of Atlanta Lays Down his Crutches.

I have only a few words to say, which are to state that I have been confined to my bed for two months with what was called Nervous Rheumatism, or Sciatica. I was only enabled to hobble about occasionally by the use of crutches, and in this condition I commenced the use of B. B. NEW YORK, Sept. 12 .- At Tammany running a paper with a view to get-Hall meeting this evening, an address to ting into an office, they are not apt to the Democratic party of the United States set much store by what that paper was reported. After referring to the fact says on political topics, and they are 1 that the Tammany organization in the not to be blamed. His subscriber. times a reduction of taxation municipal, friends have never been able to run self-government, have always been cardinal principles of Tammany Hall. We have at all times opposed centralization of power as to our republican institutions and have not hesitated to condemn the unnecessary, unjust and undemocratic interference of the State legislature and pioned the cause of anti-monopoly in '81, the so-called Liberal party in this arrears, is sent to the publisher. and the ensuing campaign of '82 that re- State quite so long. sulted in the triumphant election of the present Governor of the State.

The address then states that the Tammany organization favored many measures before the late legislature, but which were defeated by the Republicans aniting with recreant Democrats and by the vetoes of Governor Cleveland. It says Salisbury, and surrounding, country, that that other instances might be mentioned she has opened a MILLINERY STORE in to warrant the opposition shown to the Crawford's new building on Main Street, nomination of Cleveland to the Presi-

It then canvasses the events connected with the Tilden and Hancock campaigns, claiming loyalty to the party on the part of Tammany. It refers to the last national Democratic convention and says: will not only give satisfaction but pleasure. While we were celebrating the anniversary of our national independence, our opponents took every occasion to prejuand embroidery, also free hand drawing against us. We presented our arguments dice the minds of the delegates at Chicago for Mottos, Hat bands, Handkerchiefs, &c. to the individual and assembled delegates of the national convention, and were debarred the right to speak except by the consent of the delegates from the receive free, a costly box of goods which will help you to more money right away than the undemocratic unit rule, from casting our ballots for the candidate of our opens before the workers, and is absolutely sure. choice. We failed not in our duty to our constituents who sent us, nor to the party whose representatives we were, and if THEO. BUERBAUM any mistake has been made it is not of our doing, and cannot be charged to us. The candidates of the Democratic party having been nominated in the national convention, following the uniform record of our organization, we acquiesce in the will of the majority of the representatives of the party, although we believe that will to have been unwisely expressed. There is but one alternative-to CROQUET SETS, sever our connection with the Democratic party. This we cannot do, and will not do prejudice to our conscience and judgment. We can't pursue that course for we believe that time will disconnect the great Democratic party from the leadership of the men who have used their power unwisely and detrimentally

to its success. We acquiesce in, although protesting against, the unwise and unjudicious course which they pursued. We say with John Adams that "There is no good government but what is republican, for the republic is an empire of laws and not of men." The mistakes of men cannot blind us to the beauties and immortal principles of the Democratic party, and tor the perpetuation of these principles is the best in town. I receive fresh goods our organization was established.

Under the Democratic party the citi-

zen is protected at home and abroad, and the speedy release of Martin Koszta is an instance to show with what celerity the protection of the United States was thrown around an American citizen under a Democratic administration, and a Secretary of State like William L. Marcy, as compared with the dilatory and halting policy of a Republican Secretary of State, James G. Blaine, during the Presidency of Garfield, in allowing Sweeney and other adopted citizens of the United States, against whom no charges were allged or proven, to linger for months in a British dungeon.

We believe in the Democratic party and its immortal principles. Men make mistakes; its representatives and leaders may be inconsistent, time serving and lack the strength of their convictions, but in it are liberty to be found, freedom of thought, freedom of speech and action and protection to every citizen alike.

For the reasons herein set forth we recommend this organization to support the nominees of the Democratic party for the Presidency and Vice-Presidency, made at Chicago on Friday, July 10th 1884, and submit for its consideration and adoption the following resolution:

Resolved, That we, the Democratic general committee of the city and county of New York, in Tammany Hall assembled. hereby ratify and endorse the nomination made by the national Democratic convention, field in Chicago on July 10th 84, for President, Grover Cleveland, of New York; for Vice President, Thomas A. Hendricks, of Indiana, and hereby pledge ourselves to an earnest and cordial support of the candidates so nominated.

Ex-Senator Grady opposed the address and offered a resolution denouncing Gov. Cleveland and the managers who secured his nomination, and declared himself a follower of Benj. F. Butler.
