Cancer For Five Years. The interests of humanity seem to demand the publication of the following facts: Two months ago my attention was called to the case of a poor woman who was said to be affected with a cancer. I found her with an ulcer on her shoulder at least five inches in circumfrence, angry, painful, and giving the patient no rest day or night for six months. I obtained a supply of Swift's Specific, which I persuaded her to try. She has taken five bottles, the result of which is that the ulcer is entirely healed up, nothing remaining but a small scab not larger than one's fingernail, and her general health is better than for five years past. She seems to be perfectly cared. I consider its effects wonderful-almost miraculous. REV. JESSE H. CAMPBELL, Columbus, Ga.
