May not the Land we Love some lime become, like certain Islands of the Lesser Antilles, unother Samuria of the West ?

Special Correspondence of the Watchman. MT. VERNON, N. C., Oct, 8.-Should there be no more rain in this section till the 12th instant, it will then be just three months since the ground has been thoroughly wetted. Thirst, dust and arid desolation reign. Tongue cannot tell, pencil cannot paint the despairing look of all vegetable life, the prematurely withered woods and fields which Heat has blighted ere Frost, in his world-span-

ning journey, could arrive. Want of rain-a want now protracted over a space of nearly twenty years-has, more than any other cause, placed in one catalogue all of the

Some interesting results have been Virgin Islands, (formerly quite pro- yielded by the investigations concernductive); and, with scarce an excep- ing human growth which have been tion, the cutire northward-lying made by a committee of the British groups of the Lesser Antilles in the Association for the Advancement of West Indies are one scene of desert Science. It is shown that a growth and unproductive aridity. But to is most rapid during the first five what particular adverse influence this years of life, when both sexes grow dearth is ascribable would be diffi- alike, the boys being a little taller cult to decide. By many scientific and heavier than the girls. From

wiseacres, we are told that the in- five to ten the boys grow a little fastculpating cause of drought must have er than than the girls; but from ten been the reckless clearing of the origi- to fifteen the girls grow the faster, nal forest-growth, and the consequent and between the ages of eleven and a the State government there is a candidiminution of humidity and nebular half and fourteen and a half are actuattraction. "A gradual shifting of ally taller than the boys, while from or who refuses to tell the people to the magnetic poles" is another nicely twelve and a half to fifteen and a worded but unproved power to which half they are heavier. The boys then the sad change is attributed-the take the lead, growing at first rapidly "corresponding declination, north or but afterward slower, and complete south, of the tropical rain-belt itself" their growth at about the twenty- it is put directly to him. He is ashambearing its burden of theoretical third year; while girls grow very ed, and feels his degrading situation, blame. Against the "inconstant Gulf slowly after fifteen, and reach their and the old line Republicans are asham-Stream," too, is brought in another full stature at about the twentieth ed of him.-Charlotte Democrat.

"verdict of guilty." Then, with even year. "Poor gray islands," says a recent Onc Egg For Ten Persons. traveller, noble o tlines of mountain

and vale, stately blanks, unfilled by However strange this may seem, it the varied details of prosperity and is nevertheless true. A gentleman, life ! Waist-deep they stand, thirsty named Dwight Whiting, residing in and forlorn, in the midst of the un- the neighborhood of Anahiem, Caliprofitable salt sca-water-, vainly bar- fornia, as we learn from the Gazette ing their parched-up bosoms to pitiless of that place, in entertaining a dinsky; while far overhead the white ner party of ten persons, a short time = clouds, borne along hour after hour ago, after counting the number of his on the strong wings of the trade- guests and finding them to be ten in wind, mock their want with an ever- number, said, "I guess one egg will renewed, ever-unfulfilled promise of be enough for the party," and disaprain, till, day by day, what was once peared from the house. Presently he green pasture land parches up into came back with the egg, and the surbrown, burnt up stubble, gaunt trees prise of the guests was dissipated stretch out their once leafy boughs in when they saw it was an ostrich's the gray nakedness of premature egg he meant. Well the egg was decay, and the valleys that in bygone put on to boil, and after cooking years waved with the golden green of vigorously for one hour, though two the ripening harvest, now stretch hours, the host said, would improve down the hill slopes in pale yellow it, it was brought on the table. The streaks of juiceless cane. A melan- shell was broken, and the three pound cholly sight; let us leave it behind as yolk was laid upon a plate, an obwe pass on southward to better pros- ject of great interest from its great pects and more cheerful isles," size and novelty. Beyond this there In contemplation of such scenes as was nothing peculiar about it ; the

these, how wisely and divinely-in- white portion of the egg, had the spired sounds that portion of Solo- blueish tinge of the duck egg, and mon's prayer at the dedication of the the yolk was the usual color. It also temple which refer to the awful with- tasted like duck, with no peculiar Connects at Warm Springs with E. T. Va. & Ga.R.R. drawal of the showers of heaven :- flavor to itself. But its size may be from Morristown & the West & S.W. Connects at "When heaven is shut up, and there imagined, when it is stated that it and at Salisbury with R. & D. R. R. for all points is no rain, because they have sinned takes 28 hen's eggs to equal its against thee; if they pray toward this weight, and the simple egg was place, and contess thy name, and turn enough for the entire company and from their sin when thou afflicted to spare ; besides it was the unanithem : then hear thou in heaven, and mous opinion that it was good. It is forgive the sin of thy servants, and not probable, however, that ostrich of thy people Israel, that thou teach eggs will become very popular except them the good way in which they where the family is large enough to should walk, and give rain upon thy devour one at a meal, as in the case people for an inheritance." "When of a hen's egg, the yolk will lose its Ol.ver Cromwell set forth a procla- flavor by saving for a second or third mation for a fast throughout the na- meal.

tion for rain, in a very great drought," says George Fox, "it was observed

Said a dapper young college student that as far as truth had spread in the north, there were pleasant showers to Secretary Cobb at the late meeting of and rain enough; yet the south, in the Michigan General Association, many places, was almost spoiled for "Will they allow a man out West to want of risin. At that time I was wear a silk hat?" "Yes, sir; but they moved to write an answer to the will want to know what he's got under Protector's proclamation ; wherein I

told him : 'If he had come to own

and Solicitors.L! God's truth, he should have had rain; and that drought was to them a sign of their barrenness, and want of water of life'."

Neither the beauteous prosperity nor the blighted adversity of natural scenes have much effect upon the heart of the wicked. Only the good can look failures of seasons fairly in the face, and say, "I have done my duty come what may." The promise of "seed-time and harvest"-of the "early and the latter rains" comes to its fulfillment early or late to those who fear and trust the one All-wise, Supreme Ruler. E. P. H.

CALL THE THOUGHTFUL ATTENTION OF FARMERS WE DESIRE TO TO THE SUPERIOR MERITS OF

# ORCHILLA GUANO AS A FERTILIZER FOR WHEAT AND GRASS.

The advantages resulting from its u e are not only an increased yield, but the permanent improvement of the soil from the abundant growth of grass which is sure to follow.

"ORCHILLA" is no new thing. For eighteen years it has been undergoing t ial .- and well has is stood the test. At first, its progress to favor was naturally slow; but merit will, sooner or later, have its reward, and now its sales every year a chargely increased over those of the preceding year, a id the friends of i searly days are i s best friends now.

It has been used extensively in Maryland, Pennsylvania and Virginia, and from its abundant success everywhere, we are justified in recommending it to you as being well ad upte I to your soil. No fertilizer for your use has had such u iva ying success and continue I popularity. Some of the largest and best farmers in these three S ates use it almost exclusively.

It is Successful, because it is N t ure's own provision for her exhausted fields.

It is Low Priced, because we have non-of the expense of manufacturers, and, without regard to its high agricultural value, we base its price solely upon its actu 1 co t to import.

Wer-fer you b-low to som : of the firmers who have used it, and ask you to enquire of them as to its merils.

## ORCHILLA FOR WHEAT.

It is a remarkable fact that the complete analysis of Orchilla Guano shows almost ilentical results with the analysis of the a hest of a bundle of wheat is the stram. This doub less furn sheat the rea or why Orchilla is a good wheat produce ; it contains all the elemen's of wheat growth within itself.

JOHN H. NUNVALLV, E.q. of Ruffin, N. C., June 23d, 1884, savs .- Those who a e i Ore illa last fall speak i i most flattering terms of its result-, in which I concur, as my fitte e purchases will demonstrate. I can see where I us d O chilla this sori g a very perceptible diff ference. It is tone only in the season to report results.

R. B. DOBNON, Esq., of C io, Iredell Co., N. C., July 15, 1894, says:-"I have us d the Orchill's Guano for three years on light sandy land for whet and clover. It hes giv n sa isfaction. My neighbors who used it last fall are well leased W used from one to three hun-dred pounds to the acre. We expect the dee i. again."

Dr. F. CHAMBERS LVIRD, Haw River, Alamance Co., N. C., July 16, 1884, savs .- "I have used Orchi and am well pleased with the re-ult. I expect to use it more largely this Fall. I am convinced it is all you claim for it."

angement of Liver, Bowels and Kidneys.

SYMPTOMS OF A DISEASED LIVER. Bad Breath; Pain in the Side, sometimes the pain is felt under the Shoulder-blade, mistaken for Rheumatism; general loss of appetite; Bowels generally costive, sometimes alternating with lax; the head is troubled with pain, is dull and heavy, derable loss of memory, accompa with a painful sensation of leaving undone something which ought to have been done; a slight, dry cough and flushed face is sometimes at attendant, often mistaken for consumption; the patient complain of weariness and debility : nervous, easily startled, feet cold or burning, sometimes a prickly sensation of the skin exists: spirits are low and despondent, ficial, yet one can hardly summon up fortitude to try it—in fact, distrusts every remedy. Several of the above symptotas attend the discase, but cases have occurred when but few of them existed, yet examination after death has shown the Liver to have been extensively deranged.

#### It should be used by all persons, old and young, whenever any of the above

symptoms appear. Persons Traveling or Living in Un-healthy Localities, by taking a dose occasion-ally to keep the Liver in healthy action, will avoid all Malaria, Bilious attacks, Diziness, Nausea, Drowsiness, Depression of Spirits, etc. It will invigorate like a glass of wine, but is no in-toxicating beverage.

If You have eaten anything hard of n, or feel heavy after meals, or sleep less at night, take a dose and you will be relieved. Leave Salem

HARDWARE.

HARDWARE AT LOW FIGURES Call on the undersigned at NO. 2. Granite Row. Salisbury, N. C., June 8th-tf.

WHEN YOU WANT

Some amusing details are gradually coming to light in regard to the recont revolt of the female convicts in the prison of Alcala, in Spain. They drove out all the guards and took complete possession of the place, which they barricaded and guarded day and night. They had an ample supply of provisions, and when the troopperarrived to capture the prison the women jeered them through the windows and pelted them with bread and vegetables from their abundant all on the undersigned at NO. 2.
