THE BLAIR BILL.—The Republican operators of this State, from Dr. York down, are constantly charging that the democrats are opposed to education, schools, &c.

They know it is a lie—they know that the Democratic party has done all that has ever been done in this State, to build up schools and promote education.

The Republicans while in power squandered the educational fund and shut up the school houses. And yet they harp on the Blair bill as if there was something in it.

Ask them who objected to taking up and passing the bill. Ask them who is Mr. Hiseock, of New York, and if he is not the Republican who defeated the Blair bill.

The Radical Mahonette Governor of Virginia, a fair sample of the "Tyrical school of politicians, actually appointed negro directors, (or committeemen) over a white school.

York and the Republican party of North Carolina have planted themselves squarely on the National Republican platform recently adopted at Chicago, and on every stump declare that they endorse it, civil rights and all.

Now then, if the voters of North Carolina place the State under the control of the Radicals, what assurance have we that when they have elected Radical county commissioners they will not appoint negro committeemen over white schools? What assurance have we that they will not elect a negro County Supt. of Public Instruction? White voters of our land, think of these things when you go to cast your ballot on the 4th of November.

The Democratic State Executive Committee of Ohio have issued a circular appealing to all in their State, who love their country and want an honest administration of the national government, to again rally.

THE TRAITOR platform declares in favor of "eliminating from American politics, once and forever, all sectional strife and party hatred." They profess one thing and do another. They have done more to rekindle sectional strife than all others. And their party is essentially a party of hatred and revenge.

A railroad train breaking through a bridge and falling fifty feet into a river is a frightful subject to contemplate. Down goes the engine, followed by the tender, the baggage car and the passenger coaches, one on top of the other.

"HURRAH FOR OHIO! REPUBLICAN BY 20,000! WEST VIRGINIA BY 10,000! Line and Goes Republican by 1000! The Solid South Busted!"

The above is according to our backwoods friend, Mr. Goslen, of the Winston Republican, which is too previous by right smart. His paper was issued two days after the election in Ohio and West Virginia, and before it was definitely ascertained how the elections had gone.

New York, Oct. 17.—From the returns, official and otherwise, considered reliable, received at the Democratic headquarters in this city, the Republican majority in Ohio may be set down at between 10,000 and 11,000, while in West Virginia, the Democratic majority will be over 10,000.

LATER reports reduce the Republican majority in Ohio to about 5,000; and gives West Virginia to the Democrats by a majority of 6,900.

The New Orleans Exposition will open on the 1st of December. This is to be the greatest show ever exhibited in this country. It will exceed the Centennial at Philadelphia in 1876, because it will comprise exhibits from Countries not seen there.

"A Single Fact is Worth a Ship-Load of Argument." Mr. W. B. Lathrop, of South Easton, Mass., under date of Jan. 7, 1884, says: "My father had for years an eating cancer on his under lip, which had been gradually growing worse until it had eaten away his lip down to the gums, and was feeding itself on the inside of his cheek, and the surgeons said a horrible death was soon to come.

White men, how would you like to be arrested by a negro constable and tried by a negro magistrate? This is what will happen to your fellow citizens in Eastern Carolina if the present system of county government is destroyed, and it will be destroyed if the Traitors and Radicals carry the State. The white men of the East beg you to spare them this degradation: can you refuse their prayer?

The Republicans are circulating another campaign lie. This time it is an attack upon Gen. Scales. It charges that he was in fault for not insisting on his committee's reporting favorably a bill to raise the wages of the public printers in Washington. The General has refuted the attempted slander in Raleigh Observer of the 19th instant, which we regret is too lengthy to copy in this paper.

An ex-Judge and a distinguished lawyer, appearing in a case of some importance, on opposite sides, in the Louisville, Ky., court on the 18th inst., fell out and pitched into each other like two mad cats. Their brother lawyers parted them before much damage was done.

On the stump Dr. York has openly declared that "every Confederate soldier was a traitor." In his speech in Granville he said he was in favor of "placing both white and colored insane in the same asylum," and at divers times and places he has said he was in favor of civil rights.

There is strife between science and superstition in the cholera districts of Italy, the people repelling the physicians and putting their trust in processions and mummeries. It is no new thing for science to have a hard time in Catholic countries.

In view of all the circumstances, we believe Cleveland's chances to carry Ohio are as good if not better than Blair's. Practically it makes little difference which way this State goes; for Cleveland will be triumphantly elected whether Ohio votes at all or not.

The State Exposition at Raleigh, is still attracting large crowds. Numbers left this depot night before last destined for the Fair. All who have seen it declare that it far exceeds their expectations, and that it is worthy of the study and attention of every man who desires to know the value of our State's resources.

Give Tar Heels muskets and they will fight their full duty. But a grand fight is before them with only ballots for weapons. Remember that they are silent but effective. They have the power of purifying your government and blessing the country with peace and prosperity.

Columbus discovered America, and Edison invented the phonograph, but it has remained for Dr. York to produce the greatest political wonder of the ages: "A mule in politics"—a politician without a party.

Blaine attributes whatever success he has attained in life to his wife. Don't believe it. Don't believe that anybody but the ——— could have made such a perfect political villain.

A steam cotton gin and bucket factory at Mt. Pleasant, Cabarrus county, was destroyed by fire last week. No insurance.

The business portion of Edgefield, S. C., was burned on the 18th instant. Loss estimated at \$75,000.

Every honest man who loves his country, detests corruption and abhors traitors will register and then vote right.

GEN. SCALES will speak at Statesville on the 30th instant.

The Democrats don't have to defend the official character of Cleveland; while Blaine is on the defensive at every point.

The Old North State expects her every son to do his full duty.

The Vote in Ohio. Columbus, Oct. 19.—Returns by counties complete do not change the pluralities heretofore given. Unexpectedly the "Prohibition and Greenback" Butler vote increase proportionately with those of the Democrats and Republicans.

"A Single Fact is Worth a Ship-Load of Argument." Mr. W. B. Lathrop, of South Easton, Mass., under date of Jan. 7, 1884, says: "My father had for years an eating cancer on his under lip, which had been gradually growing worse until it had eaten away his lip down to the gums, and was feeding itself on the inside of his cheek, and the surgeons said a horrible death was soon to come.

Twisted Bones. Mr. J. E. Stewart of Macon, Ga., a well known and trustworthy gentleman, makes the following statement: "My son, who was between three and four years old, was all drawn up with rheumatism. His bones were twisted, and he was all doubled out of shape.

Didn't Do Any Such Thing

The following paragraph is from the Statesville American (or rather the Raleigh American, as it is now published in Raleigh): "Keep it before the people that a Democratic House refused to pass the bill to give seven millions of dollars to educate the children of North Carolina although a Republican Senate passed the House with their prayers. Talk it."

When it came from the Senate to the House a motion was made to suspend the rules, take it from the regular order and put it before the House for consideration. Objection was made by Mr. Hiseock, Republican from New York, and his objection made it impossible to take the bill up for immediate consideration.

In reply to the charge that the Democratic party of North Carolina is opposed to popular education, the following figures, showing the amount appropriated and expended for school purposes in the years designated, give an emphatic denial.

In 1877 \$289,213 In 1878 324,287 In 1880 352,882 In 1881 409,656 In 1882 509,736 In 1883 725,000

In contrast with these figures, in 1870, the last year the Republicans had control of the Legislature, they expended \$42,862, the year before that nothing. And yet in the face of these facts and figures, Dr. York, who knows better, and the Radical stumbers and writers, who know better or should know better, persists in falsely representing the Democratic party as opposed to popular education, with a view to cheating honest but unsuspecting and uninformed people out of their votes.

Dr. Grissom's Opinion of York. As a North Carolina I cannot look at the facts before me without perceiving that all the material interests of the State, her financial condition, her charitable and educational institutions, her progress at home and reputation in the eyes of the country will be jeopardized by the election of a man of Dr. York's antecedents.

LONDON, Oct. 20.—It is reported that a great exodus of Chinese from Shanghai is taking place, caused by the fear that the French are going to bombard the city. The Chinese Embassy at Berlin received a dispatch from its home government confirming the report. The Chinese forces under Lien Ming Schuan defeated 800 French troops at Tamsui on the 15th of October. The French operations at that point were frustrated by means of torpedoes.

Cancer For Five Years. The interests of humanity seem to demand the publication of the following facts: Two months ago my attention was called to the case of a poor woman who was said to be afflicted with a cancer. I found her with an ulcer on her shoulder at least five inches in circumference, angry, painful, and giving the patient no rest day or night for six months.
