There is perhaps no other town in the State with as much valuable property as almost entirely without protection against fire as this.

There has been some prospect work going on at the Union mine. It is reported that they have struck at 25 feet in the shaft a small 12 inch vein that will yield \$40 per ton in free gold.

Near the Union mine and on the same property they have opened a 15 foot belt of slate carrying Galena, Gold, Silver and a trace of copper.

It is reported that Supt. Freshville, of the Hoover Hill Mine, will take charge of Gold Hill when operations are resumed at that mine.

Corundum has for quite a number of years been regularly mined, or as in many instances, hunted for and collected by farmers and others, from the surface in many localities in Western North Carolina.

This and kindred subjects appeal with greater emphasis to the present population doing business in Salisbury than to the few relics of a former generation.

The large handed estate of Wm. Harrison, Esq., of Baltimore, Md., (10,000 acres), has passed into the hands of Mr. Frank Brown as lessee for a term of three years.

The Rev. F. J. Murdoch officiated at an accident Sunday afternoon which prevented services at his church Sunday night.

Persons who have paid their taxes for 1884, may do so calling at my office between the 5th and 15th of this month.

YOUNG LADIES COLUMN.

Address their communications to "Young Ladies' Column," Watchman, Salisbury, N. C.

"Dear Watchman," I am delighted to see that you think so highly of the "Young Ladies," as to give them a column in your valuable paper, and I sincerely hope it may prove a benefit to all who may contribute to it.

Mr. Editor: I am very glad you have given us a chance to display some of our "mother wit," and wisdom, too, through the columns of the Watchman, and as a kind of introductory I will speak a word or two of what I believe to be a question of vital importance to the young of my sex.

THE LEGISLATURE. As we approach the end of the session many important bills that have reached certain stages in their passage are brought forward and disposed of with celerity.

MALARIAL POISON. The drouth in Southwest Georgia last spring dried up the wells, and we were compelled to use water from the creek on the plantation. The result was that all were troubled with chills and fever.

A CRIPPLE RESTORED. Some two years ago I received a boy (Lona White) into the Orphans Home, near Macon, from Columbus. He was one of the poorest creatures I have ever seen—nothing but skin and bone—crippled and deformed by scrofula, which had attended him from his birth.

SCROFULA. I have had hereditary scrofula broken out on me for eight years. Had I taken care of it with it, and I, supposing that I would go as other members of the family had, had despaired of life.

ECZEMA. I was affected for nearly four years with eczema. The doctors called it at first erysipelas. I was treated by physicians. I was cured by Swift's Specific. I used about thirty bottles and have had no more of it since.

THE BEAUTY OF YOUTH.—No matter how handsome or stalwart a young man may be otherwise, nothing can make up for a partially bald head. Shining talents are attractive, but a shining poll is not.

OUR NEIGHBOR'S CHILDREN look so rosy and healthy and are never sick. Our children are so delicate and have such shallow complexions. Your neighbor keeps up with the times and gives Shriver's Indian Vermifuge to his children twice a year.

THE ARM OF JUSTICE.—Philadelphia, March 7.—The arm of the marble figure of justice on the new city hall, which was extended and held a pair of scales fell off to-day.

DELICATE WOMEN. I have been using for a month or two in my household Swift's Specific, the greater portion of it having been consumed by the female portion of my family, and with the happiest results.

GENERAL DEBILITY. For several years past my wife's health has been exceedingly feeble—a general break down of the nervous system. She was greatly reduced in flesh, and seemed to do her any good. In the spring of 1883 I induced her to try Swift's Specific.

Indian Springs, Ga., Nov. 8, 1884. The Swift Specific Co., Drawer 3 Atlanta, Ga.

ATTENTION FARMERS! My stock of Chemicals, Acid Phosphates, Kainit, &c., is more complete and cheaper than ever before, and of the very highest grades.

Cancers Conquered. The Swift Specific Company have the most enviable evidence in the cure of Cancer by their famous medicine, S.S.S. Among others, John S. Morrow, an old and highly esteemed citizen of Florence, Ala., makes the following statement as to the merits of this remedy:

SCROFULA CURED. My six year old son has had a terrible sloughing Scrofulous Ulcer of the neck for three years, attended with blindness, protrusion of the eye, and various blood diseases were resorted to without benefit.

NOTICE.—If hereby given that application will be made to the next General Assembly of the State for an amendment to the charter of the town of Salisbury.

Public Sale of Land! On Saturday the 14th day of March next at the Court House door in Salisbury I will sell a tract of nine acres of land, more or less, being the place with the buildings thereon, where W. A. Sibley lived and recently died, being about seven miles from Salisbury on the Statesville road, adjoining the lands of Red Wrayt, J. E. Briggs, John Goutley. Terms of sale one half cash and a credit of six months for the other half, with interest at eight per cent.

ROYAL BAKING POWDER

WASHED-OUT HAIR.—There is a sort of pallid, chalky complexion which the host-ess call a "washed out complexion." It is ghastly enough, and no mistake. Washed out, faded, discolored, or part colored hair is almost as repulsive and melancholy.
