Washington Society Paralyzed.

tier and Made to Earn their Salaries Like the Rest.

WASHINGTON, March, 30 .- Consternation has invaded swell society. An awful rumor goes abroad that the officers of the The general wheeled around in his army and navy who for years have been shams off the pillows and whirled the pockets and in a calm voice, slightly influence are to be sent to their commands pillows around and then took down a trembling on the bosom of a struggle, and made to do their share of duty like the rest. Not only is Washington included in this fell swoop, but all the other soft billets throughout the country. will be hung with society crape when this rude edict goes into effect, but with special and particular force will it 'The general at one time was much fall upon Washington. Here for years cers, dapper young men with exceptional talent for germans, young men who have cultivated the light fantastic until they are worthless for any other avoca-

No party is complete without them, lunches cry for them, matrons have learn ed to depend upon them, debutants and veterans alike find them a refuge and a joy. They are beautiful in their generation. They have acquired the art of "fetch and earry," and they fill a place that nobody else could. But this callous Democratic administration has decided that all government salaries must be earned; that those who wear the Federal livery and eat the Federal ration must make a show of them. This un feeling President and his equally coarse grained Cabinet have decided that officers of regiments must join their com mands, and that the Treasury cannot pay a corps of jeunesse doree, to hang around

Washington and decorate ball rooms, So the edict has gone forth, and worse than that, it is said to apply to all of the barracks and city headquarters in the country. There is to be a general turning over. Those who for years have been retained in soft sinecures through cour influence are to join their commands and earn their salaries in New Mexico, Idaho, Arizona or Alaska, as the case may be, and all necessary yacancies in desirable places East will be filled by officers for these long and weary years have been

doing service. The news has paralyzed society. This and whose talents have run exclusively to Terpsichore, are filled with sadness and dismay. The paroxysm has spread to New York, Boston, Chicago, Cincinnati, and every place where military dandies prevail, and sackcloth and ashes

To Prevent Stock Gambling.

Two bills are pending in the Pennsylvania Legislature which are intended to materially change the business of brokers. One of the measures is "An act to prohibit speculation in the stock of corpora-Milk Yield of Full Herds.

Considerable excitement is occasionyou want an office, really, you might obtaining the very highest possible dress to the President. Then wait and Such experiments are well enough for those who are willing to risk their anthe yearly product as entire herds kept in a way that is deemed best and safest for both cow and owner. Mr. Henry E. Alvord, who manages Houghton farm. has given to the Breeders' Gazette the record of milk yield of Mr. Valentine' entire herd during the past year, which shows an average of 2,7181 quarts each for a herd of fifteen animals, two of them fourteen years old or over, and three heifers with their first calves. The breed is Jersey. The annual butter yield, found on six trials and calculations of the amount of butter made from 100 pounds of milk, showed that if all the milk had been made into butter, and the product had equalled that from the lots actually churned, there would have been from the entire herd an average of 377 pounds per cow for the fiteen animals. From the ten cows left after cropping out the heifers and old cows, there should have been 398 pounds and ten ounces to each animal as the butter product for a year -a remarkably good showing for a business herd.—Country Gentlemen.

Wonderful Butter Yield.

The celebrated Jersey cow, Princess 2d, belonging to the Burnside Park Herd of Mrs. S. M. Shoemaker, has been given another test of her butter producing qualities, under the supervision of Mr. Henry Laste, of Cincinnati, a member of the Jersey Cattle Club, appointed for the purpose. In seven days she produced forty-six pounds twelve and one-half ounces of salted butter. In the week preceding the official test, Mr. Ricklefsen had made a private test which gave over forty-one pounds of butter for the seven days, thus making a total for two weeks of eighty-eight pounds of butter, a result unparalleled

This leaves Princess 2d at the head of the list of heavy yielders, and perpetuates the honors which have been gathered by the Burnside Park Herd. We are glad our State contains an animal of such remarkable chievements .-American Farmer.

Black Birch for Inside Finish.

Black birch for doors, wainscoting and other interior work is being introduced to a considerable extent in new buildings, and it is certainly one of the handsomest of the many varieties of woods that are being introduced into new houses, while the cost is the Sick should use it freely. Scarlet Fever has Black birch is a close grained wood,

and is as easy to work as walnut, and Feveredand Sick Peris much cheaper than either walnut or cherry. There is great difference in the quality and color of birch, that growing upon high and dry land being hard and susceptible of good polish while the growth on swampy land is weeks, and weeks, and soft, and therefore not well suited for the purposes the upland product so Soft White Complex- INSON, Philadelphia. admirably fills. The writer in constructing a new house last year had To purify the Breath, Cleanse the Teeth, But for every groan of anguish among birch foiding doors introduced against the displaced favorites there is a sigh of the protest of his architect, who had never heard of birch-wood being used for that or any analogous purpose. The result is most satisfactory to all parties, and to none of us more than An Antidote for Animal the architect, who preferred the use and his (the builder's) superior knowl-Of course there has been a passionate edge; but, however that may be, the resemble satin wood, and in color

purgative, alterative and tonic of never be out of place. The remery is harmles and does not interfere with business of And has all the power and efficacy of Calone & Quinine, without any of the injurious after cleak

A Governor's Testimony.

"The only Thing that never falls to Relieve."-I have used many remedies for Dys pepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent immons Liver Regulator has . I sent from Minnesota to Georgia for it, and would send further fir ilarly affected to give it a trial as it seems the only thing that never fails to relieve.
