DEATH—Has had a harvest time in one town and vicinity this year. One after another in unusual quick succession have we lost those who either by their age or their prominence in society were highly esteemed or well known.

Tuesday morning about 6 o'clock, Mr. JOHN LEWIS, after a protracted and painful illness, departed this life at his home in East Ward.

THE DEMOCRATIC TICKET For municipal officers was put in nomination by a fair vote of Democratic citizens, and should therefore receive the cordial and zealous support of every member of the party.

ED. B. NEAVE. If this gentleman should be elected Mayor of Salisbury next month, it will be a decided compliment to the young Democracy of the town, of which he is fairly a representative.

MINING DEPARTMENT.

At the Radial mine Mr. Thos. C. Dunn, of Boston, Mass., is operating the Wiswell Electric ore pulverizer and amalgamator and demonstrating the long known fact that it is impossible to extract the gold from sulphurets by amalgamation with mercury.

At the Bates mine in Stanly, they are working on a 18 inch quartz vein and milling the ore at Ivy and Crowl's 5 stamp mill. This vein is within 200 feet of where the 4 pound nugget was found some years ago and may develop rich at any time.

At the St. Catherine they are working the ore on a 10 stamp mill and True Vanners. Shipping the concentrates to Newark, N. J., for reduction. Every thing about the mine looks prosperous.

Capps Hill has a large quantity of heavy auriferous sulphurets which they treat by stamp mill and copper plates, saving the tailings, which are piled up to await some cheap mode of treatment here in the State, as they will not warrant shipment to Newark.

Rowan County Board of Health. For the last two years there has been no meeting of the County Board of Health, and hence no Superintendent has been elected. Dr. Sumnerell has continued to discharge the duties of the office, only because there has been no one chosen authoritatively in his place.

Therefore as the Chairman of the Board of Commissioners for Rowan county, and also a member of the county board of health, I bring this subject to the attention of the Board of Health, and urge an early meeting to reorganize and appoint the first Monday in May, in the Courtroom at Salisbury, 12 o'clock M. as the time and place, to commence this important work and endeavor to carry out the beneficent intentions of the General Assembly.

I hope that the Physicians of the county who are qualified to act as members of the Board of Health, will come to the meeting with the determination that this matter shall be neglected no longer.

"AN ACT RELATING TO THE BOARD OF HEALTH." The county Boards of Health shall be composed of the physicians who shall have complied with the laws of the State in regard to the practice of medicine and surgery, or have a diploma from a regular Medical College, the Mayor of the county town, Chairman of the Board of County Commissioners, and the County Surveyor.

DEAR "WATCHMAN"—It has been some time since I wrote you on this point. This has been described as an unusual winter everywhere, but the New Orleans folk insist that it has been unprecedented for its climate.

I have been afflicted with a disease termed Dry Tetter, and have applied various remedies, but to no permanent good. I saw an advertisement announcing that Swift's Specific had cured Mr. James Dunning, of Louisville, Ky., of this terrible disease.

ELECTION NOTICE! The notice required by section 3789 of the Code is hereby given to qualified voters of the Town of Salisbury, N. C., that on Monday the 4th day of May, 1885, an election will be held in the various polling places of the Town, to wit:

In the first or North Ward, the ballot boxes will be at the Court House, in the window of the Sheriff's Office, next the street.

In the 2d or South Ward the ballot boxes will be in the window next the street of Wm. A. Barker's Trimming Room at his carriage shop.

In the 3rd or East Ward, the ballot boxes will be in the window next the street of the Mayor's Office.

er of waters," abate in the noon-day splendor; and further westward over snow-capped mountains to the shell-covered beach where the lingering rays of the dying sun fade from the bosom of the Pacific; from the glaciers heaving the waters of the great North lakes, to the verdant shores of the Florida's lovely peninsula, where perpetual spring and summer reign.

Summer has ponced down upon us here with a vengeance. Already the linen duster and straw hat have been drawn from winter quarters, and so with lawns and linen and muslin. Those who have not appeared in summer guise, show all the anxiety to do so, if a perfect disregard of appearances may be considered as testimony for many men carry their coats, shawls, and their vests open, and their trousers tucked up to the knees.

Frightful Catarrh.

Pieces of Bone. For four years I have been afflicted with a very troublesome catarrh of the head. Since his nature been like that when I have my nose small pieces of bone would frequently come out of my mouth and nose. The discharge was copious, and at times exceedingly offensive. My blood became so impure that my general health was greatly impaired, with poor appetite and worse digestion.

Numerous medicines were used without relief, until I began the use of B. B. B. and three bottles acted almost like magic. Since their use not a symptom has returned, and I feel in every way quite restored to health. I am an old citizen of Atlanta, and refer to almost any one living on Butler street, and more particularly to Dr. L. M. Gilliam, who knows my case.

Mrs. ELIZABETH KNOTT. Mr. Z. A. Clark, of Atlanta, Ga., in speaking of \$4800 in gold, desires to say to the readers of this paper, that the whole of the above amount was spent in a fruitless effort in finding relief from a terrible Blood Poison affecting his body, limbs and nose—presenting ugly running ulcers. He is now sound and well, having been cured by the most speedy and wonderful remedy ever before known, and any interested party who may need a Blood Purifier will learn from him that three bottles of B. B. B. restored his appetite, healed all ulcers, relieved his kidneys, and added twenty-one pounds to his weight in thirty days.

Two Druggists. We have been handling B. B. B. only a few months, and take pleasure in saying it is succeeding all other Blood Remedies. It sells well, gives our customers entire satisfaction, and we cheerfully recommend it in preference to any other Blood Purifier.

MOTHER Dress Making!

—ARE YOU— TROUBLED With any disease peculiar to your sex? If so, you are bringing tidings of comfort and joy. You can be CURED and restored to perfect health by using Bradfield's Female Regulator!

It is a special remedy for all diseases pertaining to the womb, and any intelligent woman can cure herself by following the directions. It is especially effective in cases of womb, and is especially effective in cases of womb, and is especially effective in cases of womb.

Saved Her Life! RIDGE, McINTOSH Co., Ga. DR. J. BRADFIELD—Dear Sir: I have taken several bottles of your Female Regulator for falling of the womb and other diseases combined, of sixteen years standing, and I really believe I am cured entirely. I would be glad to accept my life and thank and most profound gratitude. I know your medicine saved my life, so you see I cannot speak too highly in its favor. I have recommended it to several of my friends who are suffering as I was. Yours very respectfully, Mrs. W. E. STEBBINS.

CANCER CURED. Mrs. Oliver Hardman, an old resident of Walton county, and a lady of culture and prominence, has this to say of the treatment of cancer with Swift's Specific: Over fifteen years ago a cancer made its appearance on my face. It was treated with plasters, and the core came out. The place healed up after some time, and seemingly my face was well. However, in a few years it returned again with more violence than ever. It gave me a great deal of pain. The former remedy seemed to do it no good. Knowing the disease to run in the family, having had one sister die with cancer, I became seriously apprehensive of my condition. It continued to increase in size and virulence. I almost gave up all hope of being cured. The physicians advised the use of the knife and cautery. This was more than I could bear, and refused to have it operated upon in that way. All other remedies were used, but the cancer continued to grow worse. The pain was excruciating, and my life was a burden. In this extremity my son, Dr. Hardman, recommended me to try Swift's Specific. It was the last resort, but I was so prejudiced against the use of patent medicines, and especially this one, that I hesitated some time. At last I gave my consent, not believing there was any virtue in it. The first bottle only increased the size of the sore and the discharge from it, and hence did not inspire me with any hope. On taking the second bottle there were signs of improvement, and my faith strengthened just in proportion to that improvement. The spot on my face began to decrease, as well as discharge, and hope sprang up in my heart. Could it be, I asked myself, that I was at last to be relieved of this disease? It has given me so many dark hours in the past that the idea of being well again almost overpowered me. There was a contest between hope and fear for a long time. It was a long night of weeping, but joy came to me with the morning. There is nothing left to mark the place but a small scar, and I feel that it is impossible for me to express my gratitude for this great deliverance. It is a wonderful medicine.

THE BEAUTY OF YOUTH.—No matter how handsome or stalwart a young man may be otherwise, nothing can make up for a particularly bald head. Shining talents are of little avail, but a shining scalp is not. The hair, being the shining part of the body, is the first thing to be noticed. If it is thinning or falling out, it is a sign of weakness and decay. Parker's Hair Balm will stop the loss of the hair and start a new growth of glossy and soft hair so quickly as to surprise you—restoring the original color at the same time. Not a dye, not only delicate, but permanent. Only standard 50c. dressing.

WASHED-OUT HAIR.—There is a sort of pallid, chalky complexion which the novelist call a "washed out complexion." It is ghastly enough, and no mistake. Washed out, faded, discolored, or part colored hair is almost as repulsive and melancholy. Parker's Hair Balsam will restore your hair to its original color, whether it was brown, Auburn or black. Why wear moss on your head, when you may easily have lively, shining hair.
