BIG POTATOES.—Mr. Julius Earnhart is the successful contestant in the potato race, having left at our office one which weighs seven lbs. six ounces.

Mr. B. F. Fraley is one among Salisbury's oldest inhabitants. It is real interesting to hear him relate things of the old Salisbury of 50 years ago.

Mr. L. L. Lunn, of Winston, formerly of this place, was in town this week looking after the Tobacco interest.—Come back and try your hand again.

A building boom, unprecedented in the history of Salisbury, is predicted by those who generally know what they are talking about, for next spring and summer.

A party from Cincinnati has been prospecting the quarries at Dunn's Mountain, with a view of getting granite for the purpose of paving streets in that city.

Mr. A. Murphy's services in the rail road office here, ceased on the 1st inst. He was employed in the Auditor's department and went out when the new Auditor, Mr. Williams, stepped in.

Some of the members of the Presbyterian congregation, express themselves as heartily in accord with the WATCHMAN'S idea of a new church. The next step must be taken by the congregation.

Jones, McCubbins & Co., merchants here, made an assignment yesterday to creditors.—The object is, the reporter is informed, to gain time in order to meet all their obligations. They expect to pay up all the indebtedness of the concern with the stock on hand.

On last Tuesday evening, while drymen were loading cotton from Gaskill's yard, in rear of his store, fire was discovered on one bale. It quickly spread to those around it. Thirteen bales were more or less damaged, but the whole loss will not exceed a hundred dollars. Messrs. J. D. Gaskill and J. F. Hess were the losers.

The numerous lights about the depot at the switches, and so on, as viewed from the covered bridge on Innis str., reminds one of a Cleveland torch light procession. Don't all go to see it the same night.

Capt. James Low met with a serious accident at the depot last Tuesday evening. His train was moving in on the N. C. road—and he tried to get off before it stopped. He fell and was dragged under a wheel and his face terribly mashed.

The front wall of the "Iron Sides" warehouse would present a better appearance, if extended a few feet above the roof with a square finish. This is merely a suggestion. Any finish given to it will be such an improvement on the late edifice, which so long disgraced Main Street, that it will prove satisfactory.

Mr. Eli Moose, formerly a citizen of Salisbury, was a year or more ago permanently disabled—caused by injuries sustained in a smash up on the Shenandoah Valley Rail Road. He brought suit for damages, and at a recent term of Superior Court, held at Lexington, Va., got judgment for the sum of \$8,000.

Macadamizing or paving the streets should claim the attention of the citizens of Salisbury at once, while an inexhaustible supply of stone can be had for a mere song. An effort is being made by some capitalists to purchase the whole of Dunn's Mountain, and if successful, will hereafter sell rock by the pound.

Mr. and Mrs. T. E. Brown, of Asheville, are visiting friends and relatives here. While they live in the prosperous mountain town, yet their hearts are with the people of Salisbury. What a dear old place it is; and how fondly do those who know it well, love to dwell on the pleasures of Salisbury's social life.

The resignation of Mr. T. J. Sumner imposes upon the magistrates of the county a difficult task. Few of our fellow citizens possess the qualifications to fill successfully the chair made vacant by the retirement of this gentleman. A practical business man of integrity, well informed in regard to county matters, with leisure and inclination to devise plans for the public welfare, is not easily found. Such a man is Mr. Sumner; and to find his equal may be possible, but it is not believed the county can produce his superior.

Golden Wedding. Geo. W. Smith and wife, now of Illinois, celebrated their golden wedding in that State recently. Mr. Smith was born in 1814, and Mrs. Smith, who was before marriage, Matilda A. Walton, was born a year later. They are both natives of this county, and have still many friends in the country here.

Not Too Fast. Some of the good friends of this paper are paying up in advance, and more, they are paying up to 1887. While this is very encouraging and shows unbounded confidence, yet it is not best to pay so far in advance. Agents and canvassers are requested not to take subscriptions for a longer term than one year in advance.

Frost. The first really killing frost occurred Tuesday morning Nov. 3d. The mercury went lower down the scale (to 30) than at any time before this fall, by at least 10 degrees. The autumn has been charming to a degree rarely experienced; favorable to the farmers, and all out-door operations; and up to this time our gardens have been green, flowers blooming, birds happy, and all nature smiling.

Building. Mr. Stephen Shuman, builder, has finished the house on the corner of Church and Fisher streets for Mr. Lewter, and is now engaged in building a dwelling for Mr. W. A. West, near the car shops, on Lee street. He has two more residences to build as soon as he gets the West house completed; one for Mr. Milton Ruffy, on the eastern extension of Fisher street, and one for E. B. Brown, near the car shops.

A Lively Race. On last Friday morning a regular old time scene occurred in the streets of the town. It was a pell mell race after a negro cow thief. He had stolen a cow from Mr. Sam Cozort and was doing tall running to prevent capture. As he ran down the street every body, even dogs of high and low degree, joined in pursuit. The yelling and excitement grew more intense when the officers began to shoot at the fleeing negro. After some nine shots had been fired at him he was caught by officer G. H. Shaver, near the edge of town. He was an extraordinary runner and made the jolliest race that has occurred here since the "Patroll" used to chase the belated darkey.

Court-house and Park. The condition of the Court-house and surroundings certainly deserve the attention of those entrusted with the care of the county's property. There is no disposition to ask for unreasonable or extravagant expenditures of the people's money, yet there are needs that those entrusted with the people's money and property should look carefully into. The original design of the Court-house included a plot of ground to be enclosed with an iron fence, and a general front entrance. The steps of this entrance were placed in position and are to be seen now in front of the building. This work should have been completed long ago. Why it was not is a question. But be that as it may, the finances of the county are now in such condition that the work could be finished without placing any extra tax on the people.

Report of Graded Schools.

Rev. Mr. Murdoch, Secretary of the School Committee, kindly furnishes the following report:

Table with 4 columns: School Year, Enrollment, Av. attendance. Rows for White 2d Month School Year and Colored 1st Month School Year.

The Graded School.

At a meeting of the School Committee on Tuesday afternoon an investigation was made with regard to the boy who was hurt at the Graded School last week. After a full inquiry it was unanimously decided that neither the Principal nor Prof. Overman should be blamed, and that it was by an accident that the boy was hurt.

This is ample vindication of Mr. Overman's course, and from what the reporter has learned since in regard to the facts, it is correct. The information which occasioned the first notice was gathered on the street and from a sight of the boy. The committee should arrange so as to preclude the possibility of another accident of this character.

The Graded Schools are to have a holiday on the 26th—Thanksgiving day.

A Case of Desertion.

It is an old saying: "Marry in haste and repent in leisure," and how often in life is the truth of the saying observed. A Mr. Vernon, something of an itinerant phrenologist,—a traveled Englishman—took up a temporary abode in Davie county, in the "Fork country" and finally persuaded Miss Mary Hendrix, one of the young ladies of the neighborhood, to marry him. Last week they started off together and at Greensboro, Vernon left his wife, as he said, to return to Salisbury to collect some money. When she next heard from him, he was in Goldsboro, and wrote to the effect that "about the best thing she could do was to go back to her father." Her father met her here a few days since and took her home. He, unworthy wretch, is stealing off, probably to entice some other confiding woman to a like fate.

Mr. Hendrix, who is a well-to-do farmer, feels much outraged that such villainy should be practiced on a member of his family. His neighbors are also indignant.

THE COTTON FACTORY.

Mr. J. D. McNeely is still pushing the cotton factory scheme. The farmers seem to take to the idea very well, and the prospect seems fair for success. In order to expedite matters, it is suggested that the following named gentlemen, and any others who may desire, start subscription lists in their respective townships: Mt. Ulla, Jesse W. Miller, J. M. Harrison; Steel, J. R. Davis, W. L. Kistler; Scotch Irish, D. Fleming, Lyster & Bro.; Unity, Rice Bro. & Bailey, W. A. Thomason; Franklin, A. M. Sullivan, Thos. Thomason; Atwell, J. M. Coleman & Co. W. A. Lipe; China Grove, Patterson & Corriher, John Sloop; Locke, T. J. Sumner, J. F. Robinson; Litaker, P. A. Sloop, J. L. Rendleman; Gold Hill, Dr. R. A. Shimpcock, F. A. Mauney; Morgan, Paul M. Shaver, John Buchanan; Providence, J. A. Ludwick, Jas. A. Craigie.

Everybody in Salisbury township is expected to work for it. The gentleman named are requested to urge the importance of this matter on their neighbors. It can be made a profitable business. What do the farmers of Rowan say?

REGENTS. The resignation was accepted by the Board to take effect on the first Monday in December next. The Board collectively and individually expressed great regret in feeling obliged to do so. The general expression was to the effect that Mr. Sumner had made an able, faithful and devoted Commissioner and Chairman, and that it would be difficult to fill his place with so efficient a man.

THE JUSTICES TO MEET. The Justices of the Peace of Rowan county are notified to meet at the Court-house in Salisbury, on Monday December 7th, 1885, for the purpose of electing a County Commissioner to fill the unexpired term of T. J. Sumner, resigned.

Raising Wheat.

The Salisbury Watchman says: Capt. Fagg, of Asheville, (says the Country Homes, of that city) is preparing some land to make a heavy yield of wheat next year, and challenges any farmer in Buncombe county to make more on one acre than he will. Wish the Capt. had extended his challenge as far down the slope as Rowan. There are some farmers in this county who are hard to beat on wheat, notably, J. M. Harrison, S. C. McLaughlin, Capt. J. R. Crawford, Wm. Lipe, J. S. McCubbins, R. Harrison, and several others. We hope some one of them will accept Capt. Fagg's banter and show him that Rowan is a worthy contestant.

We take the liberty of extending the challenge so as to include Rowan and Catawba—both noted for their wheat production. Now for the contest. Three acres to be cultivated.—Asheville Citizen. Do you hear that, farmers of Rowan? Now let us see what we shall see. We hope the gentlemen named above, all of whom are public spirited, ambitious, and business men, will let Buncombe know that Rowan can hold her head with the proudest of her sister counties.

THE YOUNG MEN'S MEETING. The Young Men's Prayer Meeting, convenes at the Presbyterian Session room, every Wednesday evening, at 7 o'clock. A good library of books and papers is open for an hour after services, free to all. All young men are cordially invited. J. D. McNEELY, Pres. A. M. GOODMAN, Sec'y.

CONFEDERATE PENSIONS. I am directed by the State Board to say, as a number of applicants for pension, have failed to furnish the additional testimony required of them through circular letters mailed to each several weeks ago from this department, that unless this testimony is furnished the Board on or before the 15th day of November next, their claims for a pension will not be considered the present fiscal year.

A NEW BUILDING was ordered to be erected for the use of the keeper of the poor. Various plans had been submitted to the Board by several contractors. The house is not to exceed \$500 in cost, and the contract was awarded to R. A. Rainey, whose estimate is for \$495. This new arrangement will allow the house now used by the keeper to be converted into a hospital, for the exclusive use of the sick.

NO POISON IN THEM. A law passed at the last session of the legislature imposes upon the State chemist the duty of examining the contents of the stomachs in cases where the poisoning is suspected. Dr. Dabney has just completed analyses of two stomachs and found no poison in either.—News Observer.

MINING DEPARTMENT.

T. K. BRUNER, EDITOR.

Prof. A. E. Fooks, Mineralogist, of Philadelphia, paid the WATCHMAN a call this week. He is on his way to the New Orleans Exposition.

Big Russell Mine. Reports from Montgomery county say that the Big Russell mine is yielding satisfactory returns. Work is progressing favorably on Riggon Hill.

Emmons Mine. The water in the fork at the old Emmons shaft in Davidson county. The mine was unwatered for the purpose of pushing the work of underground development. Dr. Wilkins is a leading spirit in this work.

Haile Mine. At the Haile mine, in South Carolina, they are putting in the Blake system throughout. It consists of the Blake crushers and rolls, and will displace the other reducing machinery. The Haile has been a regular producer for some time.

The Brewer and West mines are also doing fairly. They are in the same region and are the only mines of any prominence at work in South Carolina at present.

Woodrun Creek. This placer deposit, in Montgomery county, has been yielding some pretty good gold recently. The gold found is much worn by continual washing in the stream, and is very pretty. Some good work has been done there recently.

North Carolina Coal Fields. Thanks are due Hon. Montford McGehee, Commissioner of Agriculture, for a copy of Dr. H. M. Chance's report on the N. C. Coal Fields. Dr. Chance has made a careful and exhaustive report of these important fields. Reference will be made to the Report again as soon as its contents have been carefully gone over.

Fisher Hill Mine. Supt. Wallace Nichols, of the Fisher Hill mines in Guilford county, is encouraged over the result of his development at that place. They have recently cut a very rich vein of brown and sulphide ore, some four feet thick. This vein has been developed for twenty-five feet by a tunnel driven upon it, and it holds well all the way. They are now driving a tunnel from the 100 foot level to cut this new lode at a greater depth.

Coggins Mine. The B. T. Coggins mine in Montgomery county, which was bought by some English gentlemen a short time since, is being very carefully worked. The returns from a chilian mill are quite good, and are of such a reliable nature as to induce the owners to put in a plant of machinery of greater capacity. The mine has not been developed to any great depth, but the indications, based upon the returns, which have been remunerative from the surface, amply justify this step by the owners. The ore is an easy, free milling quartz, in slate formation.

Bird Shooting. The recent popping of breech-loaders in and around my premises, forcibly remind me of some well-timed and truthful remarks made by "Foggy Farmer" in the Watchman of the 23d. "The Code of Sec. 2834 of the Code of N. Carolina makes it a misdemeanor for any one, between the 1st of April and the 15th of October, to kill, shoot, trap or net any partridge, quail, &c., under a penalty of a fine of \$10.00. Again, in Sec. 2836 of the Code, it is made a misdemeanor for any one to take or destroy the eggs of partridges or quail, under a penalty of \$50 fine, or 30 days imprisonment.

Now it is evident that these Statutes were enacted ostensibly for the protection of the birds, and with a view to the increase of game. Then, for what ultimate end were these statutes enacted? Was it that the owners of the lands where their work is done, after their hard summer's abroad, might, over a little pleasant and profitable sport in shooting them? No. Was it that the sons of those farmers, who might have the pleasure of trapping and netting them, having an occasional bird pie for dinner, or perhaps taking Salisbury to sell to the citizens thereof, thereby turning an honest penny? No. It was for none of these things, the owners of the birds were not considered at all.

This, it is always will be, a class of persons in, and around, all our towns and villages, generally drones, who do but little work for a livelihood, or perhaps rich swells and upstarts, or else, it is a set of Northern men,—foreigners, perfect strangers to us. This is the class of persons who claim the exclusive privilege of shooting and "bagging" the entire crop of partridges year after year, and the actual owners get none at all. Now, this is evidently all wrong, for like "Foggy Farmer," I claim that the partridges on my farm, are as exclusively mine, as are my "barn yard fowls." But, what are we to do? How will it be remedied? The lawyers will tell you to "post your land," and prosecute trespassers. Suppose you do post it, these bird shooters are not looking for posters. They never see them. You hear them popping away at one point, one moment; you start for them to warn them off, but they have changed places almost in a moment, they have followed in the wake of the dog who has followed the covey, and ten minutes later, you hear them pop pop, popping half a mile off in quite another quarter. You may run yourself down, and it is rarely you can ever catch up with them so as to either warn them off, or even find out who they are! They are generally experts at the business of "bagging" and one or two raids of this sort, cleans out the entire crop of birds, and the owner gets none. Besides all this, it is during the wheat-sowing season that these strangers invade our farms, and so much shooting frightens the farmers

STEEL SIFTINGS.

BLACKBERY, Oct. 30, 1885.

DEAR WATCHMAN: The click of the drill is heard throughout our land. We are seeding the largest crop of wheat ever sown before. The long continued drought of last fall prevented the farmers from breaking their clover land; but this season it has yielded to the plow and is being put in fine condition for wheat.

The corn crop is turning out well. Corn-shuckings, with pot pie and pumpkin custards, are now in vogue. Can't you send us a few of your shell-bellied townsmen and let us swell 'em out? Our old friends Moses and John Allen will do well to come up.

The cotton crop is good and the yield greater than it has been in several years. But the farmers will get but little clear money when their guano debts and other expenses for raising the crop are taken out. Notwithstanding the present good yield, we have heard a great many farmers say they cannot afford to raise it any longer at the present prices.

SALT RHEUM OR ECZEMA. In April, 1884, there appeared on my feet and legs what the doctors called Salt Rheum, which produced intense suffering. I tried a great many remedies and had the attention of one of our best physicians, but received no permanent relief. The disease continued to grow worse and my limbs were greatly inflamed. I was finally induced to try Swift's Specific, and after taking four bottles relief came. I continued, however, until I had taken seven bottles, and now sound and well, and not a sign of the disease left. My general health has greatly improved, and I most cheerfully recommend S. S. S. as being the best blood purifier that I have ever known.

HELPING CANCER. I have been afflicted a number of years with cancer, and have tried all the remedies suggested for this terrible disease without any benefit. Six bottles of the Swift's Specific has done me more good than all the medicine I had taken. My strength has returned, and I can walk farther and take more exercise than I have been able to do for years. Its effects have been wonderful and the cancer has greatly improved. Griffn, Ga., May 1, 1885.

MERCURIAL POISONING. For 25 years I have suffered from the effects of Mercury and Iodide of Potassium. I was salivated in a most fearful way, and was given up to die. I have had no relief from anything I have taken for it, and I have tried everything under the sun. I have taken a course of Swift's Specific. It has entirely cured me. It also cured me of it also cured me of sciatic rheumatism, from which I have suffered for many long years. I am now well of both, and there is no evidence of mercurial poisoning or rheumatism about me. With Love Scale Co. Albany, N. Y., June 20, 1885.

"I DON'T FEEL LIKE WORK"—It makes no difference what business you are engaged in: whether you are a preacher, a mechanic, a lawyer or a common laborer, you can't do your work well while you are half sick. Thousands try to, but all in vain. How much better to keep your organs in good order by taking Parker's Tonic when you feel a little out of sorts. It would be money in your pocket. One hour of good, rejoicing health is worth half a dozen hours full of languor and pain.

SPLendid FARM FOR SALE.—Terms reasonable—good neighborhood—splendid tobacco lands.—BRUNER & McCUBBINS.

SPLendid WATER POWER for sale. Power enough to run several factories.—BRUNER & McCUBBINS.

VALUABLE MINERAL LAND for sale on easy terms.—BRUNER & McCUBBINS.

MOTHER—ARE YOU—TROUBLED With any disease peculiar to your gentle sex? Write to us, we will bring tidings of comfort and joy. You can BE CURED and restored to perfect health by using Bradfield's Female Regulator!

It is a special remedy for all diseases pertaining to the womb, and an intelligent woman can cure herself by following its directions. It is especially efficacious in cases of suppressed or painful menstruation, in whites and partial proflapsus. It affords immediate relief and permanently restores the menstrual function. As a remedy to be used during the critical period known as "CHANGE OF LIFE," this invaluable preparation has no rival.

Saved Her Life! RIDGE, McIntosh Co., GA. Dr. J. BRADFIELD.—Dear Sir: I have taken several bottles of your Female Regulator for falling of the womb and other diseases combined, of sixteen years standing, and I really believe I am cured entirely, for which please accept my heartfelt thanks and most profound gratitude. I know your medicine saved my life, so you see I cannot speak too highly in its favor. I have recommended it to several of my friends who are suffering as I was. Yours very respectfully, MRS. W. E. STEBBINS.
