In April, 1884, there appearaed on my cet and legs what the doctors called Salt Rheum, which produced intense suffering. tried a great many remedies, and had the attention of one of our best physicians, but received no permanent relief. The disease continued to grow worse and my limbs were greatly inflamed. I was finally induced to try Swift's Specific, and after taking four bottles relief came. I continued, however, until I had taken seven bottles, and am now sound and well, and not a sign of the disease left. My general health has greatly improved, and I most cheerfully recommend S. S. S. as being the best blood purifier that I have ever known. Mrs. M. S. Highsmith,
