North Carolina Conference.
Conducted from Charlotte Dec. 10-15.
The 49th annual session of the N. C. Conference of the Methodist Episcopal Church, South, assembled in this city on Wednesday of last week, the 25th of November, and adjourned at noon on Wednesday, December 2d, after a session of seven days, excluding Sunday. Bishop Keener presided.
The four days' session of last week were devoted to routine business, reading reports, speaking on church matters, &c.
On Monday morning of this week the matter of dividing the Conference was taken up, and occupied the whole day.
There were two reports from the Committee that had had the matter under consideration. The Majority Report was in favor of a line dividing the Conference into two separate bodies, and therefore it resolved that no petition be sent to the General Conference in favor of division. The Minority Report favored memorializing the General Conference in favor of division, suggesting several reasons therefor, &c. The discussion of these reports commenced at 10 o'clock Monday morning, and closed about 5 o'clock in the afternoon. The speeches against division were made by Rev. Dr. N. H. Wilson and Rev. L. L. Nash—Dr. Wilson occupying most of the time on that side. In favor of division, Revs. J. E. Mann, L. S. Burkhead, R. O. Burton, and W. M. Robey spoke at length—Mr. Robey making the main speech on that side of the question.
After the above mentioned speeches the previous question was called by Rev. E. A. Yates and sustained, and the Conference proceeded to vote.
The question was on the adoption of the Minority Report, in favor of division, and the vote stood as follows: Ayes, clerical, 78; lay, 14; total 92. Nays, clerical, 87; lay, 29; total 116.
The question then returned on the adoption of the Majority Report, and it was adopted.
APPOINTMENTS.
The following are the appointments of the preachers for 1886:
RALEIGH DISTRICT—N. H. D. Wilson, P. E. Raleigh, Edenton Street, W. C. Norman; Person Street, W. L. Cunningham; Brooklyn, Macedonia mission to be supplied by J. F. Butt, Cary, J. B. Martin; Rolesville, Philip Greening; Smithfield, Solomon Pool; Clayton, A. E. Wiley; Tar River, J. R. Jenn; Youngsville, B. C. Allred; Louisburg, Alpheus McCullen; Oxford station, J. B. Boone; Oxford circuit, N. E. Coltrane; Henderson, J. D. Arnold; Buckhorn, J. E. Thompson and I. W. Avenet; Eapshoro mission, D. A. Watkins; Newton Grove mission, E. Pope and one to be supplied; Raleigh Christian Advocate, P. L. Reid.

Civil Service Examinations.
Boston Post, Dem.
When the new civil service law was passed, it received the support of a considerable portion of the Republican party, which saw in it a clever device for maintaining by indirection a hold upon power which was gradually slipping from it through popular disfavor. The Republicans valued it only as they thought that, inasmuch as they had the offices, the new law would help them to stay there. That theory of interpretation was made manifest in every construction of the statute and in every formulation of rules under it. The Republicans had 20 years of opportunity to improve the civil service of the country if they had been so disposed, but made no use of it. On the contrary that service was growing so rapidly worse that they saw themselves about to be driven from their pleasant and profitable holdings unless they could effect a diversion. In the bill to reform the civil service they saw the chance to strengthen themselves under the pharisaical guise of political virtue.
After the passage of the law the Republican leaders urged the young men of the party to be examined and placed on the list, so that in the event of Democratic success they could still hold the offices. These exhortations were readily complied with, while Democrats, who had fallen out of the habit of putting themselves in the line of political preferment, if they had ever had it, took little notice of the opportunities that were nominally theirs equally with the members of the opposing party. Certainly very few Democrats were appointed to any positions under the Arthur administration, and its construction of the civil service law and rules was so flexible that only a small number could have been appointed, no matter if they did present themselves and no matter if they did prove perfectly competent.
The Boston Crisis.
Boston Post.
If the execution of Louis Riel shall precipitate a change in the administration of public affairs in the Canadian Dominion, the people of the colony may find a political evil producing a public good. When the change is brought about it can scarcely be too radical. The natural outgrowth of the peculiar political system of the country has been a one-man power. An iron heel has been pressed hard down upon the necks of all opponents in the endeavor to stifle the voice of any man who did not promise an absolute abnegation of the right to use his own judgment.
Sir John A. Macdonald represents in Canada as bad tendencies as James G. Blaine represents in the United States, and had not the people of this country risen above the alluring, but debasing influences by which Blaine sought to reach the chief magistracy, we might now sympathize more deeply with the honest Canadian minority. The platform of the Conservative party is Macdonaldism, and Macdonaldism means railroad frauds, contract jobs, gerrymander acts, landgrabbing, bribery and corruption in the high and low places of the government. Appointments are not made on the principle that public office is a public trust, and the chances for success amongst office-seekers depend entirely upon the utter devotion of the applicant to the wishes of Sir John A. Macdonald.
This servility is a reproach to the Canadian people. Macdonald has lowered the morality of his countrymen so far that a hearty political lie does not exist.
A Vicious Book Suppressed.
[Wilmington Star.]
Here is something more about the savage attack on Senator Vance by Col. John A. Sloan. A Special Washington dispatch to the *Boston Herald* says:
"As described by himself, it is a terribly vicious and scandalous attack upon Senator Vance, of North Carolina. Those who profess to know its contents say that it is filled with scandals which are calculated to tear North Carolina social circles as if a cyclone had struck them. Only one copy has as yet been seen. That was sent to Greensboro, N. C., and a private circulation until it fell into the hands of relatives of Col. Sloan, who were astonished and shocked by its contents. Without hesitation they destroyed the copy, and implored Col. Sloan to suppress the book. In the meantime, Col. Sloan was soliciting means to pay the printer, who held the edition until it was paid for. Dr. Boykin, an influential merchant of Baltimore, and a warm friend of the attacked Senator, it is said, warned the printer not to let a copy go out of his hands, and it is understood that the money due on it has been paid."
According to the *London Lancet*, the recent visit to America of Dr. Keith, who came to perform a surgical operation, is the first instance since the signing of the Declaration of Independence of an American having summoned medical aid from the old country.

Yadkin Academy.
Prof. C. F. Remy resigned his position in the Southern Normal last week to take charge of Yadkin Mineral Springs Academy, at Palmersville, Stanly county. A committee of the trustees of the academy came to Lexington to secure a principal; and being referred to Prof. Remy they offered him the situation, which he decided to accept. He went to Palmersville on Friday to enter at once upon the discharge of his duties as principal. The academy, we understand, is a large and flourishing school; and up to this time has been in charge of Prof. Martin, who under the belief that he had a divine call to preach the Gospel, resigned his principalship; hence the vacancy which has been so happily filled.—*Davidson Dispatch.*
Rev. Sam Jones' Plain Talk.
St. Louis, Dec. 1.—Last night the Rev. Sam Jones before an immense congregation, saw fit to refer to Gov. Marmaduke as "an old swillbub," and today there is considerable indignation manifested in certain quarters over the epithet applied to the first citizen of this State. Indeed some persons are in favor of holding an indignation meeting for the purpose of handling the Rev. Sam without gloves. His exact language last night was: "How can you reform any State in God Almighty's world with an old swillbub for Governor, and two or three mashtubs for Supreme Court Judges? [Great applause.] A man who is privately corrupt can never be politically pure, [great applause.] and the first thing we did when we wanted to reform Georgia was to put God-fearing men and good men in authority, and by the grace of God we have the best State in the United States of America. You run a freight train through Georgia on Sunday and the conductor and the brakemen, and the whole crew employed on the train will sleep in jail that night, [cries of 'good' and applause.] and you open a barroom in our State on Sunday and you will sleep in jail that night, [applause.] We have a God and Sunday in Georgia, and they are as precious to us as our wives and children."
Divers at Work.
Mr. Hodges and Mr. Miller, experienced divers, of Norfolk, Va., reached Warm Springs Wednesday, to assist in the work of reclaiming the body of the unfortunate Whitley, and to raise the engine from the bed of the river. They spent most of yesterday in the water, but failed to find any trace of the unfortunate young man. The engine, they report, is at the bottom of the channel, and is almost literally covered with stone, some of them very heavy. The current at this point is very strong, and they work with difficulty and some danger, though they do not seem to mind it at all. Mr. Hodges says it is the roughest water to work in he ever experienced. They will be down under the water all day to day, fastening ropes and chains to the engine, with which it is hoped it can be raised, and the body found. A great many people visit "the place, and look with wonder upon the divers and their peculiar paraphernalia, and with more wonder at their remaining in the water for hours at a time. A number will go down to day to see the work. The authorities have a most difficult job in raising the engine, with the best facilities that can be used at that spot, but they are determined to accomplish it.—*Ashville Citizen.*

"SHAKY."
THE ZIG-ZAG METHODS EMPLOYED BY MERCENARY MEN.
It is a notable fact that the people of Atlanta and elsewhere are beginning to be thoroughly convinced that worthless compounds become "shaky" at all new innovations, while an honest preparation never fears opposition. We do not propose to "wipe out" others, as the field for operation is large, and we accord to one and all the same privileges we enjoy. We are not so far lost to business principles as to denounce any other remedy as a fraud, or imitation, or as containing a vegetable poison, the effects of which are horrible to contemplate. The alarm need not be sounded, for there is ample room for all declining anti-potash, pine-top slop water compounds.
If one bottle of B. B. B. is more valuable in effects than half a dozen of any other preparation, we won't get mad about it. If ten bottles of B. B. B. cures a case of blood poison which others could not cure at all, it only proves that B. B. B. is far the best medicine.
20,000 Bottles
of B. B. B. have been sold to parties living inside the corporation of Atlanta since it was started two years ago!
Why this wonderful sale of a new remedy in so short a time with so little advertising?
It must be confessed that it is because B. B. B. has proven itself to possess merit in the cure of blood, skin and kidney diseases. Hundreds of home certificates attest the fact of our claim that in Atlanta and many other points B. B. B. is "on top," and will stay there. Many persons desire to know how the B. B. B. acts on the system. By entering the circulation, it modifies the vitiated blood globules, increases the red corpuscles, antagonizes all poison, vitalizes and regenerates the flagging forces, furnishes the pabulum for rich, new blood, eliminates all poison through the secretions, and increases the appetite, while, by its wonderful action upon the pores of the skin, the kidneys, liver and glandular system, all effete and impure matter is speedily conducted from the body, leaving the blood pure, fresh and healthy.
By its magical alterative powers, B. B. B. unloads the blood of all impurities, unlocks the liver, arouses all secretions, restores nature to its normal condition, unclogs the troubled brain, clears and beautifies the complexion, cheers the despondent, strengthens the feeble, calms the disturbed nerves, and induces quiet and peaceful slumbers. It has been in use over twenty-five years as a private prescription in the south.
It is no far-fetched, foreign-found or dream-discovered subterranean wonder, but is a scientific and happy combination of recognized vegetable blood-purifiers effected after many years of constant use and experiment in the treatment of thousands of some of the most appalling cases of scrofulous, syphilitic and cutaneous blood poisons ever known in the State, resulting in complete and unparalleled cures of pronounced incurable cases.
Send to Blood Balm Co., Atlanta, Ga., for a copy of their Book of Wonders, free, filled with information about Blood and Skin Diseases, Kidney Complaints, &c. Sold by all Druggists. 5c. m.

C. A. KRAUS,
HOUSE, STAIN AND
ORNAMENTAL PAINTER.

A MILLION of worms gnawing day and night is quite enough, we think, to the child into spasms. Shriver's Indian Vermifuge will destroy and expel them and restore the child.

THE GREAT EXTERNAL REMEDY!
KLUTTZ'S
TOBACCO LINIMENT
FOR
RHEUMATISM, GOUT, NEURALGIA, SPRAINS, BRUISES, PAINS, ACHEs, &c.
Combining the wonderful curative virtues of Tobacco, with other approved rubefacients, making a marvelous compound for the relief of human suffering.
ITS ACTION IS WONDERFUL.
Suffer no longer. He humbugged with quack cures no longer. Tobacco is Nature's Great Remedy. It has been used in a crude way from the days of Sir Walter Raleigh down, and has worked many a marvelous cure, and saved many a valuable life. In the "Tobacco Liniment" its virtues are scientifically extracted, combined with other valuable medicinal agents, and confidently offered to the public, not as a cure-all, but as a safe, powerful and effective External Remedy, applicable wherever local pain can be relieved.
In large bottles at only 25 cents. For sale by all Druggists. Ask for it, and insist upon having it. Don't be put off with worthless substitutes. Try it and you will be thankful for having had it brought to your attention.
THEO. F. KLUTTZ & CO.,
Wholesale Druggists, Proprietors,
