MINING DEPARTMENT.

T. K. BRUNER, EDITOR.

There is but little being done in Guilford county, just now, in mining circles. The Lindsay and Deep River mines are idle, though both are good properties.

There is a now property being opened near Pleasant Garden, with flattering prove of the mortgage system. Though prospects of becoming a successful mine. we think we have men more suitable for There is also a new property being developed, which is some fifteen miles from Greensboro on the line of the N. C. divis-Greensboro on the line of the N. C. division of the R. & D. railroad. The ore is a brown quartz ore, and is reported to be very good. The extent of the ore, body very good. The extent of the ore, body has not yet been defined, though all indi-

At the Point mine in Mecklenburg, a new shaft house is going up, and the ground is being cleared for a mill house, though it is not known that a contract has been let for building it.

At the Todd mine they are drifting on was to be paid in the future. Mr. Arey the cross vein, lately discovered, and it reported to be two and a half feet

> There is no change worthy of mention at the St. Catherine. The mine is producing a uniform grade of ore which is shipped to the Yadkin Chlorination Works at Salisbury for treatment.

The Rudisil mine is being rapidly unvatered, and in fact, the greater part of the mine is now open. Ore extractions have already been commenced from the ger and he was captured on Sunday lower levels. Vigorous work is being done on the "Bush Hill" end of the vein, the result of which has not yet been

All the concentrating machinery and tools have lately been shipped from the Designolle Works, near Charlotte, which indicates the final abandonment of that plant. It was built several years ago. tive, and experts are often fooled by it, and was expected to supplant other thinking it genuine branch gold and nug- modes of treatment, but for some reason gets, while bright. It is thought that the not given to the public, it has so far failfine gold is made by dropping in water ed in its mission. tively active in other respects, she has public improvements, while Asheville, real and personal property, and \$1.85 on Winston, Charlotte and Durham have chinery for the treatment of

been steadily gaining ground.

There must be some cause for this and it behooves the citizens of Salisbury to seriously consider whether something can't be done to improve the exisiting condition. It is not that we are lacking in natural advantages, for it is conceded that ours is one of the most beautifully located towns to be found anywhere. For healthfulness our record will comits size in the State.

We have beautiful broad streets, fine

shades, and the town lies well for natural drainage. We must therefore conclude that our lack of public spirit is not due to favorable surroundings. If we look at the opportunities for getting railroads, cotton factories and other manufacturing interests we have allowed to slip away from us by a want of enterprise on the part of our leading citizens, we will probably find one of the causes of our not keeping abreast of the times. Each one of the towns named here voted to issue bonds for large amounts to grade and pave the streets erect water warks, elecric lights, etc. Asheville voting as much as one hundred and forty thousand dollars and Durham nearly as much: What have we done in this way to make investments safe from the ravages of fire and improve and beautify our town? Three see that the old Board was re-elected. years ago a feeble effort was made to cows grazing on the streets. This is in not be economy to do such work in a This should be, and doubtless is, highly have bonds issued to grade our streets, interested, and whom we looked for advice and encouragement held aloof and amounts to saying-well done good and frowned upon it, "For Bonds" received process twenty-eight votes. Now there is a disposition on the part of the town authoriward to conscientious and carnest la- ues to supply the need for water works cations furnished for Metallur- Craige & Clement good as far as it goes and would no doubt afford greatly increased protection from gical Works. fire, but why not have a complete system of water works, by which the houses Manufacturers of the celebrated can be supplied with good pure water, as well as protection. The streets need some solid, permanent work and we need a system of sewerage.

These improvements can all be had and our taxes kept within such bounds as will

BLACKMER, N. C., June 8, '86.

Mr. Eliter:-In your last issue I saw that the big guns were firing for the nominations of Messrs, Kluttz and Mc-Kenzie. As for Mr. Kluttz he would make a good representative, and we hope he will find favor. Mr. McKenzie is a worthy young man of some prominence and no doubt could make better laws than a half dozen who uphold and apthe place. We want a man of more experience, a farmer, one who knows better now to look to the interest of the people. Greensboro on the line of the N. C. division of the R. & D. railroad. The ore is a the laws are made are farmers, I think own vocation. The farmers should begin front, so we must be careful to get a good to work in that direction at once. The cations point to a lode of sufficient size to farmer's clubs should take hold of the question, nominate their man and all cling together. When this is done something will be accomplished. The day was when the tiller of the soil made the laws and the day must come again.

Hoping to hear from a more experience ed pen, we are yours,

Heilig's Mill's Letter.

ED. SALISBURY WATCHMAN: The farmers of this vicinity have been busy fighting gen. green for the last week of ten days, but have about came out victorious. Harvest is on hand, wheat is only tol-

erably good. Oats is thin on the ground but good in the head. The voters in this vicinity all respond hearty hurrah for Kluttz for solicitor. We will not say that we cannot go for McKenzie for representative in the legis-lature, but would suggest the name of J.

L. Sifford, Esq., as the man we think May 1880, it was 1.15 inches; in May would carry the county like hot cakes. 1882, it was 3.22 inches; in May 1883 it We have known Mr. McKenzie from boy- was 4.84 inches, and in May 1885, it was man in the field, so if Mr. Overman will temperature was 47 degrees. The highest not run we would say go for Sifford.
AN OLD VOTER.

Heilig's Mills, N. C., June 6th, 1886. Pensions.

Would it not be best to repeal all pension laws at once, and pass a new pen-sion law, covering only the disabled from fair days, 7 cloudy days and 9 days on manual labor while in the service and which rain fell.—Char. Observer, their immediate dependents? This would be a clear saving to the people of over fifty million dollars yearly for the next forty years. Have you ever thought of it, that the seventy millions now paid annually as pensions comparatively speak-ing, every dollar goes to Northernmen, while the South does not receive one dollar, but pays her share of the seventy

North Carolina now pays over one million dollars yearly to the Federal soldiers for the luxury of being whipped. active in revenue legislation and will yet And if the Senate Bill becomes law, she do much effective service in this branch will have to pay over two millions. We can't see but one way out of these troubles 2,460 79 and wrongs. We believe the way would be 20,000 00 clear, if Congress could be induced to re-13,760 ss peal all pension laws, and pass a new law 6,150 83 covering such cases only as justice de-1,632 42 manded at the hands of the people. And 1,371 29 if that can't be done the next best thing to be done, is for the people all over the country to hold meetings of indignation, 8,805 00 and denounce the extravagant tendencies people of the State will owe these, the of the present Congress and declare in 20 87 favor of a radical change and that as speedily as possibly in the personel of their Law-makers. One half at least of 7,000 00 all the democrats ought to be elected to stay at home and nine-tenths of the republicans, and good and true men who believe in the Jeffersonian idea of government, and who are honest enough to ut that idea in practice, ought to be ected to take the place of the retired magogues. When men cease to make

The Weather in May.

Mr. James A. Barry, the signal service officer in this city, has made up his report of the weather in May, and from it we quote some interesting facts. The month was truly a wet month, the total amount of rainfall during the 31 days, being 11.04 inches. Of this amount 8 inches fell during the 10st the 1 ing the 10th, 11th, and 12th, the days of the great rain storm. To give an idea of the real amount of the May rain, a comparative statement will serve the purpose well. In May, 1886, the rainfall was 11.04; in May 1879, it was 3.97 inches; in

The mean temperature of the past month was 68.03 degrees; highest temperature 92 on the 13th and the lowest was 45 on the 1st. The monthly range of barometer was 30,254 on the 17th, and the lowest was 29.578 on the 7th. The monthly mean barometer was 29.951. Prevailing direction of the wind was southwest and the total movement was 4,007 miles; highest velocity 25 miles on

Hon. Thos. D. Johnston.

The Washington correspondent of the Raleigh News Observer of a recent date, in speaking of the return of Mr. Johnston to Congress this year, well says: Well, the district could not send a better, a more persistent or a more more competent man, or one who would make a better record during his first term than has Mr. Johnston. He has been especially active in revenue legislation and will yet of legislation.

Messrs. Henderson, Cowles, Reid and Johnston, who have worked so laboriously and long to secure a modification of the "internal revenue laws," hope to have more good news for the people of North Carolina in a few days. The headway-and it is considerable-already made was published in these letters, contained in your issue of April 29. The four new members of our delegation, a lasting debt of gratitude if they accomplish even half of what they hope to per-
