MINING DEPARTMENT.

T. K. BRUNER, EDITOR.

Mining Outlook.

Just now there is but little of general interest in the mining districts of the State. There are a number of prospec pectors abroad, but they are slow in reporting results. There is no dimunition in the normal operations of the active mines; the work is generally progressing satisfactorily, yet devoid of incident. The producing mines are keeping up their records to the average.

Yancy County.

At Paint Gap, in Yancy county, mining operations, for gold, have been commen ced by two gentlemen of experience there recently. This is saying a great They have gone to work in an entirely new territory, but have done so after a deliberate survey of the ground. Their

Goid Hill.

It is the intention of the present management of the Gold Hill mines to sink the main. Randolph, shaft several hundred feet deeper in order to prove the ground at greater depth. It will be remembered that this shaft is now 750 feet deep, and it is probable that it will reach a thousand feet under the direction of ized for this work will not rest until a thorough knowledge of the situation is had. The company is composed of London and Swansea (Wales) gentlemen, the latter being interested in the famous Swansea reduction works.

Mike Holtshouser Mine.

At the Holtshouser mine, in this county, Superintendent Tiernan, has erected a hoist, and is preparing to set up other machinery. It is reported that the machinery once used at the now idle Bullion mine has been purchased and will be set up at the Holtshouser. The machinery consists of a ten stamp mill, pump &c., The magistrates of a county, the au- and some of the buildings. The work thority which protects society from all now being done at the Holtshouser is in kinds of evil doers, should be men of in- the main shaft. It had to be enlarged to tegrity, fair minded and humane. They twice its former proportions-it was home from the meeting on the first of mines. The McMackin Mine. The McMackin mine lies just over the Rowan border in Cabarrus county, and belongs to the Gold Hill group. Work the old work shaft, which was sunk some which will no doubt bring on a crisis. 40 years ago. When the shaft was first sunk some of the ore taken from it was worked at the Gold Hill mill and yielded from 75 cents to one dollar a bushel. The shaft has been cleared and they have struck the vein where former work was abandoned. There are 256 acres in the mal. In this condition he drove some property, which is supposed to have all the veins of the Gold Hill and Union mines on it, as it lies on the southeastern extension of those yeins. The present work is being prosecuted on the extreme western portion of the property. No work has as yet been done on the other gold, silver and copper veins. It is reported that Mr. Townsend has bought Geo. Counter's interest in the Mike Isenhour place, and that he has also bought the machinery formerly used at that mine, and that it will be taken to the McMackin at an early day.

For the Watenman. From the Banner Township.

Messrs. Editors:-At present we propose to confine our remarks mainly to
