

Carolina Watchman.

THURSDAY, AUGUST 26, 1886.

DEMOCRATIC NOMINEES.

For Congress—7th District, JOHN S. BENDERSON, of Rowan.
For Judge—8th District, W. J. MONTGOMERY, of Cabarrus.
For Solicitor—8th District, B. F. LONG, of Iredell.

ROWAN'S TICKET.

For State Senator, HON. F. K. SHOBER.
For the Legislature, LEE S. OVERMAN.
For Sheriff, C. C. KRIDER.
For Register of Deeds, H. N. WOODSON.
For Superior Court Clerk, JOHN M. BORAII.
For County Treasurer, J. S. McCUBBINS, Jr.
For Coroner, D. A. ATWELL.
For County Surveyor, R. C. ARRY.

State Convention.

The State Convention held in Raleigh on yesterday, renominated the present members of the Supreme Court Bench; Smith, Merriman and Ashe. The convention was harmonious and brief. L. S. Overman, Esq., represented Rowan.

The work done by the convention will be entirely satisfactory in this section of the State. There is no matter the next Legislature should not fail to do, and that is increase the strength of the Bench numerically. There should be five members of the Supreme Court. Three cannot keep up with the work.

Terminus of the Western N. C. Railroad.

"The fact has been published that the terminus of the Western North Carolina Railroad is to be changed from Salisbury to Charlotte. This is done because the latter is regarded as one of the most thriving and progressive of Southern cities, and has extensive railroad connections. The people of Salisbury naturally regret the change—are greatly disturbed, in fact, over it. The tendency, of course, is to build up Charlotte at the expense of the other city; but it is said here that Salisbury will probably bestir herself to obtain lines of railroads in different directions, and that she will not feel the loss of the W. N. C. terminus, as she thinks now that she will."

The above is from the Washington correspondence of the *Charlotte Observer*. It is a strange announcement to our people. It does not look like a wise move from our standpoint. Why passengers and freight for Asheville and points west, and passengers and freight from the west to the east and north should be hauled over the two long sides of a triangle instead of the one short side looks a little strange from a business standpoint. That is for the managers of the road to determine. If it pays them to do that, then it is wise as a business move. But our people who have done so much and paid so much for this road, feel that it is an ungrateful and unjust discrimination against them. When we consider that Salisbury money and Salisbury brains were the chief factors in initiating the scheme and in pushing it on from the start, it does look hard that the benefits derived are to be transferred to another place. This is not said in a spirit of envy or with a desire to impede the progress of any town, or any part of the State; for progress anywhere in North Carolina is gratifying to us, yet the memory of Col. Fisher, who was the life of the enterprise in its infancy, and who gave thousands from his private purse; of many other individuals who gave largely from their private means; of the thousands given by the people of Rowan, in other ways—we repeat, the memory of these stagger us when the change of the terminus is contemplated. The people of Salisbury and of Rowan gave largely and liberally and they did it that Salisbury and Rowan might reap the benefits accruing from such an enterprise. It does seem that these things would have softened the iron grip of the monopolists, but it has not. They propose to violate the old charter by making another point the eastern terminus, and leave Salisbury a "shoo fly" train to connect at Statesville.

What are our people to do about it? There is perhaps no law to prevent the violation of the charter, by injunction, or otherwise, and there being no law to prevent it, nothing can be done, except to submit as gracefully as our outraged sense of right will permit. There is one thing however, that is to throw off the seductive lethargy which has enthralled the town for so many years, and enter with new life and zeal into the railroad schemes now before us. The South Atlantic and North Western railroad, represented by David Risley, Esq., is a scheme which, if carried out, will give us relief, and more, a positive advantage in the matter of freights. The line pro-

posed is from Smithville N. C. on the Atlantic coast, below Wilmington, to Rockingham, Albemarle, Salisbury and west through Cook's Gap to Bristol, Tenn. This line, which was the subject of an editorial in last week's *WATCHMAN*, if built, would make Salisbury, and it will enable us to dictate terms to the Richmond and Danville system; it will give us competing lines north and south, east and west; it will give us a decided advantage in the matter of incoming freights; it will enable us to place our northern and eastern bound freights on the Seaboard in better condition and at smaller outlay. These are only a few of the advantages offered by the trunk line from Smithville to Bristol.

The Stockholders of the Yadkin Railroad are now in earnest and mean to set to work with a determination to accomplish something, either in connection with the South Atlantic and Northwestern, or with Dr. Emmens, or to build it themselves. This last proposition has a business ring, and affords the gentlemen in charge of the affairs of the Yadkin road begin the work, the people along the line, will, without doubt, come to their assistance with open-handed generosity.

One thing is certain, and can be seen by the "fogiest" of the fogies, and all the rest of mankind, and that is that the time has come for Salisbury to act, or she will be left. Shall we keep up with the procession and in it, or shall we lapse into an easy state of indolence. We must move! It will not do to be sidetracked in this manner.

Should Convicts be Employed.

We are strongly in favor of each county having charge of its convicts to work on the county roads. Let it be one of the issues this fall, to change the law so as to allow the judges to give judgment upon the jury's verdict of guilty, for so many months hard labor on the public roads in the county where the offense was committed, under the control of the county commissioners. For the higher grade of crimes let the convict go to the penitentiary. But it would be better still to say in all cases where the punishment is less than three years, that the court shall have the right to order the convict to work on the county roads, unless the county commissioners shall notify the judge at each court that they don't want the convict. In that case let them go up higher. But this way judges have of confirming convicts in the county jail 4, 6, or 12 months to be fed by the county is all wrong and ought to be changed at once. Work the convicts on the roads, bridges, and if enough time is left let them, clean out all the swamps in the county, the owners paying the county half price, therefore, let this be done by all men.

The above is from the Scotland Neck Democrat, and it is food for reflection. The greatest rebuke to our civilization is the utter want of respectability in our public highways. A change in the laws that would enable the counties to employ criminals would have a good effect. First, on the criminals themselves, in giving them good open air exercise and thus preserving their health, and secondly, it would be a much needed relief to the honest, industrious farmer, who in addition to his farm labors and annual taxes, is required to work the roads. The counties are obliged to keep the roads up, and also to feed and care for criminals. In any sense, it seems just and right that the county should command the service of such criminals to do such public work as does not conflict with the trades of law abiding people, and especially so, when such service will undoubtedly tend to the comfort and convenience of the whole people. In Rowan there are many miles of road to be built,—macadamized with our native granite—and many miles of creek to be cleared of brush, deepened and straightened. This work would interfere with no one, and would be of lasting benefit to the people, adding to their comfort in traveling to and from town, and in hurrying the stagnant waters from the lowlands, thus improving farm lands and reducing the possibility of miasma. If the law can be so amended as to enable the county to employ her criminals in such a service, then let it be done. There can be but little doubt but that the prospect of joining such a band of workers would have a wholesome effect on the lawless elements all over the State.

A fiend in Goldsboro cut a horse's throat during a rain storm, one day recently. The horse was hitched and standing on the street. Some one cut the tongue out of the mouth of a fine horse, the property of Richmond Pearson, in Asheville, the other day. Such outrages are horrible and the perpetrators should be severely whipped—fine and imprisonment is too easy—nothing short of corporal punishment will touch such brutes.

Thos. D. Johnson was renominated at Asheville on the 23d inst. It was done by acclamation. Majah Malone, independent in that (the 9th) district, will have a merry time, over the wrong shoulder in the campaign.

Cutting has been released—no war this time.

They are having a great time up at Happy Home, just a pleasant little walk from Connelly Springs, where they are holding a Tabernacle meeting. The whole country is filled with wagons, buggies, tents, &c.; in other words, "the woods are full of 'em" and they are having a good old fashioned time, where hospitality of the open handed sort is unbounded. Mine Host Meroney is crowded to the full extent of his new hotel.

Is it not paradoxical that Democrats who support aid, having taken it as a democratic paper, should continue to feed its coffers that independentism and disorganizing sentiments may be disseminated among the people? Do not the people owe it to themselves to give their support to papers which are loyal to the party and serve it from principle rather than for gain? It would seem so.

The Raleigh papers report that Gov. Seales has had applications to grant permission to organize military companies to fight in the Mexican war; also requests for commissions as officers, &c. Now who would have thought that North Carolinians would think of going to war with anybody for anything. The memory of nearly a hundred thousand gallant dead, resting under Virginia's sacred sod should be enough for our people for the next century.

The attention of those interested is called to the change in the boundary line between the Eastern and Western White Insane Asylums. The change was made by the joint action of the boards governing these institutions, and is designed to better serve the needs of the State. See notice on this subject on the first page, which should have been credited to the *Home Democrat*, but was accidentally omitted.

As may be seen in this paper, Dr. Woodrow was sustained in the trial before the Augusta Presbytery for his opinions in connection with the theory of evolution. Dr. Adams who was the prosecutor, took an appeal to the synod which meets at Sparta, in October, when the final hearing will be made.

Flirting is dangerous. A young woman, native of West Virginia, could not restrain her inclinations in this direction. She flirted with two spirited young men. They fell out and fought in her presence with pistols. Being good shots they killed each other. She is said to be nearly crazed from remorse, bereavement and loneliness.

Rev. J. Y. Fair has been called to the pastorate of the Second Presbyterian church in Charlotte.

Dr. J. G. Ramsay will be one of the speakers at a grand Masonic picnic to be given at Troutman's, in Iredell on the 25th inst.

The *Central Express* is the name of a newsy paper just started at Sanford N. C. Success to it.

The *Twin-City Daily* appears in an improved dress after a little summer rest.

The Anarchists to Hang.

The trial of the Chicago Anarchists has at last closed with a verdict of guilty against Spies, Lingg, Engel, Parsons, Filden, Schwab and Fischer. Nube was found guilty of man-slaughter, and given 15 years in the Penitentiary. Chicago has done a good work—the effects must be for good all over the country. The *New York Star*, in speaking of the verdict says:

The guilty Chicago anarchists are to be hanged. They entered into a conspiracy to kill, and they find that the law holds that this is murder if killing is the consequence of the conspiracy. There is something pathetic in the suddenness of the discovery by these plotters against law and order that their crime is punishable on the gallows. They evidently did not know the terrible character of their offense. They met together and concocted schemes for the destruction of society, and these schemes involved the murder of men. Perhaps they even imagined their plottings would never come to anything, and it is likely enough that some among the leaders—some who were yesterday sentenced to be hanged—were unconscious of the danger that their incendiary words, meant to be mere words, might fall upon tinder minds and a conflagration burst forth. Many anarchists are lazy money getters, who live and thrive by kindling passions the force of which they do not begin to appreciate. This is a democratic country, and the average opinion must govern, not the select opinion of the few who are on top, nor the select opinion of the few who are on the bottom. The anarchists are as despotic in attempting to force their views upon the country through murder as any crowned tyrant who ever snatched his scepter from the loosening grasp of a slaughtered democracy and waded to his throne through a sea of blood. Both the many-headed and the individual tyrants laid violent hands on the sacred majesty of law, and in this instance the law has resented the insolence with fatal power.

This is a democratic country, and the average opinion must govern, not the select opinion of the few who are on top, nor the select opinion of the few who are on the bottom. The anarchists are as despotic in attempting to force their views upon the country through murder as any crowned tyrant who ever snatched his scepter from the loosening grasp of a slaughtered democracy and waded to his throne through a sea of blood. Both the many-headed and the individual tyrants laid violent hands on the sacred majesty of law, and in this instance the law has resented the insolence with fatal power.

The poet who asked: "Oh where can rest be found?" had never visited the store of a merchant who never advertises. If he could once see one of these merchant-like clerks he would not ask such a child-like question.—*Lynn Union*

Touching up Mr. Merriman.

The Asheville *Citizen* took occasion a short time since to comment on the slow work and poor quality of the Inferior Court of its county, whereupon the presiding Justice, one Shuford, arraigned the editors of that spunky journal and fined them \$100 each for contempt, from which judgment they very properly appealed to the Superior Court. And now we are informed that Mr. Jas. H. Merriman has volunteered his valuable services to prosecute the said editors in the Court of Appeal. Mr. Merriman is the nominee of the Democratic party for Judge in his district. We suppose Mr. Merriman knows why he volunteered his services in this case—this effort of a Buncombe county Justice of an Inferior Court to bulldoze and muzzle the press. But Mr. Merriman should be required to give those reasons to the public, that the press may know what he has done. We will give Mr. Merriman—*Goldsboro Argus*.

It looks like the press of the State intended to resent Mr. Merriman's gratuity. He might resign his interest in the Asheville *Citizen's* case, but even that would leave an unpleasant memory of him among the "brethren."

The People are Helpless.

The adulterators of food products should get together and pass a vote of censure upon the municipal Court in Boston for his recent decision in the case against Howard W. Spurr & Co. Spurr & Company were accused of adulterating molasses with a poisonous substance—muriate of tin. It was shown that it is a common practice with some dealers to mix this salt of tin with cheap molasses, to give it the appearance of higher grades and thereby deceive the buyer as to its value. It was proven that Spurr & Company were guilty of the act, but the judge decided that it was not an criminal offense. It was admitted that muriate of tin is a poisonous substance, but, when united with the coloring matter of the molasses, it forms a new compound, which has not yet been shown to be poisonous. This was the ground of acquittal. This judge would be a good subject for the Massachusetts people to try the effect of tin molasses upon, in order to definitely determine whether the new compound is poisonous or otherwise.—*Bangor (Me.) Journal*.

Disease Germs in Milk.

It is a well recognized fact that the mother who is nursing her child is obliged to be very careful about her diet, for whatever she eats or drinks has its effect upon her milk, and consequently upon the child. In fact, the most delicate and sensitive of the human system is produced by dietary indiscretion. But it is less appreciated that similarly alarming results may be produced in both children and adults by the use of milk taken from improperly fed cattle. There have recently been a number of mysterious poisonings cases, that after a careful deal of random speculation have finally been traced to diseased milk. In spite, however, of these warnings, the subject has not yet received the sanitary attention to which it is entitled. Particularly is the danger of such contamination great in the neighborhood of large cities, where the absence of wholesome pasturage is a temptation to the less scrupulous to substitute all grades of organic refuse, the most of which should properly be consigned to the garbage receptacle. In addition to this danger, however, it is discovered that even in the presence of abundant and suitable food, cattle are not discriminating in their selection, but exhibit frequently the most depraved tastes. In the neighborhood of large distilleries, it has been observed that the cattle become utterly demoralized, and feeding on the refuse from the stills. In time they come to have the dull, stupid appearance characteristic of an opium eater. It is hardly possible that the milk produced by animals permitted to feed on such abominable refuse be either wholesome or agreeable.

In other places the case is even worse, for the cattle have been observed to feed with evident relish upon unadulterated animal excreta and other highly poisonous materials. In the distilleries which the practice exists of burning off the actual and grave danger. When it is remembered that the fatal plague at Plymouth, Pa., was directly traceable to the careless disposal of the excreta of a single typhoid fever patient, it can readily be seen that milk may become in this manner a vehicle for the distribution of the most malignant disease germs.

So large are the possibilities for evil which may result from the use of milk taken from animals improperly fed, either through design or carelessness, that the public should be warned that all dairy farms should be placed under sanitary supervision, and that the food and quarters of all cattle whose milk is offered for sale should be regularly inspected by officials appointed for the purpose.—*Scientific American*.

Too Polite to Say It.

It is said that Chis. R. has attributed to Gen. Ransom the saying that he "no longer panders to the will of the people." Certainly Gen. Ransom never said anything on that line at all. Now that Charles R., who seems to have dropped his old names, he has dropped his old party, has soured on the democrats, people ought not to attach any importance to his flings at our democratic officers.—*News and Observer*.

Gladstone Will Struggle On.

LONDON, Aug. 23.—Mr. Gladstone, in an address delivered at Chiswell to-day, said he would continue to struggle for the restoration of happiness to Ireland, British progress against Ireland, he declared, was rapidly disappearing. "All authorities agree," he continued, "that the relations of the two countries are miserable, and that the English don't take an immediate settlement of the Irish question."

No Room for the Deaf.

So many people have gone to Paris this year, that the number of deaf people in that city are now placed in most perplexing dilemma. There is no more ground available for burial purposes. Pere la Chaise is full to overflowing. Two large crematoriums have been built, but the hope of disposing of the dead in that way, but the French don't take kindly to cremation. It looks as though the republic had no other alternative than to live forever.—*N. Y. Star*.

Bobby came into the house sobbing and told his mother that Tommy White had kicked him. "Well, Tommy White is a very bad boy," said Bobby's mother, "giving him a large piece of cake." "You didn't kick him back, did you?" "No," replied Bobby, between bites, "I kicked him first."—*Pack*.

The municipality of Lincolnton has never been able to get along amicably with the Chester and Lenoir Railroad. Once or twice the officers of trains have been arrested for approaching the station at a too rapid rate. On last Saturday week Conductor Williams and Engineer Martin were arrested on this charge and refusing to give bail, were put in jail. Subsequently they were released upon paying a fine of \$10 each. As the train carried the U. S. mail it is possible that trouble may ensue to the town officers.—*Lenoir Topic*.

Dr. A. A. Serogus tells us that, one morning, about 7 o'clock of week before last—he does not remember the exact date—he felt an earthquake pass over this section from a South-westerly to a North-easterly direction. Other persons speak of hearing a strange noise about that time.—*Lenoir Topic*.

"So, Uncle Jack, you don't much believe in the idea that men are called to preach?" "Well, sah, the Lawd moult call some nigger to preach, but it sorter peers to me dat what de Lawd calls an old man, loozins calls ez dozen. Nix nigger preachers outen tin is de laizes pusses in de world." "How do you know, Uncle Jack?" "Case I see a preacher meself, sah."—*Arkansas Traveler*.

"'out of sorts' with headache, stomach disorder, torpid liver, pain in back or side, constipation, etc., neglect may be fatal. One dose of BROWN'S IRON BITTERS will give relief. A few doses restore to new health and vigor.

A QUESTION ABOUT BROWN'S IRON BITTERS ANSWERED.

The question has probably been asked thousands of times: "How can Brown's Iron Bitters cure blood poisoning? How can it cure the various diseases which result from a diseased blood?" The answer is: "Brown's Iron Bitters cures blood poisoning by restoring the blood to its normal condition. It does this by purifying the blood and supplying it with iron. The iron in the Bitters is in a form which is easily absorbed by the system. The Bitters also acts as a powerful tonic, and restores the strength and vitality of the system. It is a most valuable remedy for all diseases of the blood, and for all cases of general debility and weakness. It is a most valuable remedy for all cases of indigestion, biliousness, and nervousness. It is a most valuable remedy for all cases of female weakness and irregularity of the menstrual system. It is a most valuable remedy for all cases of neuralgia, headache, and dizziness. It is a most valuable remedy for all cases of rheumatism, gout, and sciatica. It is a most valuable remedy for all cases of epilepsy, hysteria, and melancholia. It is a most valuable remedy for all cases of insanity and general debility. It is a most valuable remedy for all cases of chronic disease. It is a most valuable remedy for all cases of acute disease. It is a most valuable remedy for all cases of disease of the heart, lungs, and kidneys. It is a most valuable remedy for all cases of disease of the stomach, bowels, and bladder. It is a most valuable remedy for all cases of disease of the throat, nose, and ears. It is a most valuable remedy for all cases of disease of the skin, hair, and nails. It is a most valuable remedy for all cases of disease of the eyes. It is a most valuable remedy for all cases of disease of the ears. It is a most valuable remedy for all cases of disease of the nose. It is a most valuable remedy for all cases of disease of the throat. It is a most valuable remedy for all cases of disease of the mouth. It is a most valuable remedy for all cases of disease of the tongue. It is a most valuable remedy for all cases of disease of the lips. It is a most valuable remedy for all cases of disease of the teeth. It is a most valuable remedy for all cases of disease of the gums. It is a most valuable remedy for all cases of disease of the palate. It is a most valuable remedy for all cases of disease of the pharynx. It is a most valuable remedy for all cases of disease of the larynx. It is a most valuable remedy for all cases of disease of the trachea. It is a most valuable remedy for all cases of disease of the bronchi. It is a most valuable remedy for all cases of disease of the lungs. It is a most valuable remedy for all cases of disease of the pleura. It is a most valuable remedy for all cases of disease of the peritoneum. It is a most valuable remedy for all cases of disease of the intestines. It is a most valuable remedy for all cases of disease of the stomach. It is a most valuable remedy for all cases of disease of the bladder. It is a most valuable remedy for all cases of disease of the ureters. It is a most valuable remedy for all cases of disease of the kidneys. It is a most valuable remedy for all cases of disease of the urethra. It is a most valuable remedy for all cases of disease of the prostate. It is a most valuable remedy for all cases of disease of the testicles. It is a most valuable remedy for all cases of disease of the ovaries. It is a most valuable remedy for all cases of disease of the uterus. It is a most valuable remedy for all cases of disease of the vagina. It is a most valuable remedy for all cases of disease of the vulva. It is a most valuable remedy for all cases of disease of the clitoris. It is a most valuable remedy for all cases of disease of the penis. It is a most valuable remedy for all cases of disease of the scrotum. It is a most valuable remedy for all cases of disease of the foreskin. It is a most valuable remedy for all cases of disease of the glans. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most valuable remedy for all cases of disease of the urethral connective tissue. It is a most valuable remedy for all cases of disease of the urethral cartilage. It is a most valuable remedy for all cases of disease of the urethral bone. It is a most valuable remedy for all cases of disease of the urethral joint. It is a most valuable remedy for all cases of disease of the urethral ligament. It is a most valuable remedy for all cases of disease of the urethral tendon. It is a most valuable remedy for all cases of disease of the urethral muscle. It is a most valuable remedy for all cases of disease of the urethral nerve. It is a most valuable remedy for all cases of disease of the urethral artery. It is a most valuable remedy for all cases of disease of the urethral vein. It is a most valuable remedy for all cases of disease of the urethral lymphatics. It is a most valuable remedy for all cases of disease of the urethral glands. It is a most valuable remedy for all cases of disease of the urethral epithelium. It is a most
