weeks past, but very few turnip seed have been sown, and farmers have failed from," and of course, compare it with the wheat as they desired.

A good plan will be to prepare well, what little land they did get turned, fertilize it well, and sow wheat only on the winter and seeded to oats and clover

in the Spring. On Saturday evening, the 18th, we had a nice shower of rain, which revived

things considerably. Upon the whole, Franklin has produced a pretty fair crop of tobacco, which is The worms have been unusually bad this year and a good many crops look pretty ragged from their depradations. next to impossible to keep them down. completed a splendid new tobacco barn on his father's place on Statesville road.

For the last year or two, the prices of tobacco have ruled so ruinously low, that farmers have no encouragement to raise soon, many persons will be forced to abandon its cultivation altogether. It is the most troublesome crop, and requires

most care and solicitude. We are aware that the prices of al products are governed largely, by supply and demand, and yet it cannot be so in

In the town of Salisbury alone, there are no less than three warehouses, and four manufactories of plug tobacco, whilst On Tuesday the negroes turned out at Winston, Durham, and other places, seem, that with all these facilties for the up to one dollar or more for the fancy brands. This is evidently all wrong, and shows a screw loose somewhere.

The truth is that merchant manufact

they please. Whilst in the case of the farmer, there are none of these rings and combinations, but everyone for himself, and the manufacturers and traders against us all, andwe must sell for just such prices as they please to give us, and thus it will system for their mutual protection, they nopolists, whilst the latter will continue o amass colossal fortunes, and live in ings of the farmer.

Cotton is now opening pretty freely, and will soon require the attention of the pickers. A. L. Hall's fine gin is in perfect order, and ready to gin any quantity that may be delivered there.

There has been a very singular phenomen connected with one of Esq. W. R Fraley's carp pouds. He has two ponds strong dirt dam. Under each dam, there is a wooden trunk for drawing off the water. Up to the time of the late earthquake, these two ponds kept about equaly full of water. Some days subsequent to the earthquake, it was noticed that the than a foot, whilst the lower pond is unusually flush and full, and running

There is no visible cause for this, and it the dam, produced by the violent shaking of the earth On the morning after the earthquake this pond was discovered

to be very muddy.

A. L. Hall Esq. has recently met with horses. He had driven him down to "Now look't dat nigger! wher yer where his daughter lives, ten miles below Salisbury, on last Thursday, returning home the same evening. After passing "I'se gwine ter de baptis'n chile, come through Salisbury, he discovered that somthing was wrong, but kept on slowly, until he got within half a mile of home. Here the horse gave out, and could take the vehicle no further. He managed with help, to get him home, however,

and next morning he was dead. On cutting him open, it was found that he died from eating unground, red rust proof oats, as his maw was stuck full of holes, and grains of oats protruding.

This should be a warning to all horse owners, not to feed oats of that kind, without grinding it. The horse was a noble animal and

two hundred dollars. THE MAN ABOUT THE COUNTRY.

DIED.

Katie Mamie, infant daughter of Robt. and Mrs. Maggie V. Shaver, was born Aug. 19th, 1885, and died Sept. 17th, 1886. Age 1 year and 29 days. She was a great sufferer, and lingered for nearly four months, but now the little one is at rest, Jesus has taken her to himself, and the fond parents are comforted in their bereavement, because "it is well with the

NOTICE TO DRUGGISTS AND STORE KEEPERS.

I guarantee Shriner's Indian Vermifuge to destroy and expel worms from the human body, where they exist, if used according to directions. You are authorized to sell it upon the above conditions,

The Reynolds Again.

A visit to the Reynolds mine in Mont gomery county would impress the student fresh from some "school of mines" very unfavorably. He would see an old fashioned, one-horse, single runner Chillian mill, turning with deliberate slowness, in fact, making four evolutions in this was very excellent and sustains Capt each minute. He would probably laugh Fagg's reputation as a successful farmer The weather has been very dry for some outright, and "wonder where it came to get as much stubble land turned for mills of the gods, which are said to grind slowly. But this granite wheel as it turns in its bed, not only pulverizes the of Buncombe last year, and had the seaore, but with a twisting motion brightens that, and they will probably make as the faces on the particles of gold and much as if a larger crop was sown. The makes the affinity with the mercury, sure and easy matter. There is no violent agitation of the pulverized mass, but be glad to know what the returns are a constant even motion, which is favorable to amalgamation. This mill goes farmer friends give us the figures? only eight hours per day and the miller has ample time to mount a cart and haul cutting and curing it as rapidly as possible. the ore from the mine to the mill, and to clean up in the evening. This shows the economy of the plan. With this outfit, the output last week of the Reynolds Enpassant Thomas B. Fraley has just mine was 185 pennyweights. That is profitable mining on a small scale. There is ore enough in the vein to supply ten chillian mills, and could ten mills be run with the economy which now characterizes the management, it would not take long to acquire a fortune.

GOLD HILL MINES. The London Mining Journal announces that the Gold Hill Mining Company has made new arrangements for the management of their property at Gold Hill. They have dispensed with the services of Capt. W. Nance and have appointed Mr. George Crampton, Jr. I. M. E., F. C. S., regard to the present shameful prices as general manager and superintendent work. Mr. Crampton combines many acble experience in both gold and iron Manufacturer's of Mining Mamining. He will reach the Gold Hill property this week and will begin at once to push the work. They are just now in good chinery for the treatment of well to listen to the old miners, and not rebuff them as has often been done. Some of the men who have been "raised in the mine" so to speak, can give much valuable information, which has been generalurers and traders, all have their rings ly despised by "men of science" fresh

MADISON'S BARYTA MILL. Daugherty Bros. of Conn., have, near Warm Springs, in Madison county, a plant of machinery for reducing baryta and preparing it for market. They have power in that section and use a turbine wheel to supply the power for crushing the material. The process of reduction is very simple; the material is quarried is reduced to sand and gravel size; then luxury and splendor, on the hard earn- it is treated to a sulphuric bath which clears it of all impurities, it is then given a water bath which prepares it for the burr stones. It is reduced in the mills to an impalpable powder and is then ready process for shipment.

Baryta is largely used in giving body to various preparations of paints, and to adulterate white lead. Its specific gravity is 4.3 to 4.7 and it consists of baryta gical Works. 65.7, sulphuric acid 34.3. It is abundant

in the Western part of North Carolina. Mr. White, the President of the present Crowell Mining Co., has gone down to the mine. A new prospect shaft is being

Work has been begun on the Union property under the direction of Dr. Emmens. The property, which consists is evidently caused by a seam or crack in of more than three hundred acres, is to be thoroughly prospected.

> The WATCHMAN cabinet has been augmented by the addition of twenty-five cut gems from North Carolina gem stones.
