### SECURED TIME NOTES.

This Drill stands at the very font and is unsurpassed by any other in America. It sows wheat oats together with fertilizers most admirably.

changed in an instant-by a single motion of the hand.

Read what people who have used it say about it.

Mr. VERNON, ROWAN Co, N. C. Sept. 15th, 1886.

I have used the Victor-Kellers patent-Grain Drill for several years and I consider its perfect machine. One can set it in an instant, to sow any quantity of wheat or oats per acre, from one peck to four bush-els. It sows bearded oats as well as it does wheat or clover seed and fertizers to perfection. I know it to be strictly A No. 1. Drill and combines great strength, with its other good qualities.

SALISBURY, N. C. Sept. 15th, 1886.

Fraley's Victor (Kellers patent) Grain Drill and put in my oats with it. It sowed hearded and non-bearded oats to perfection. I believe it to be the best Grain Drill I ever saw. It sows wheat or oats and clover seed and fertilizer all O. K., and I have bought one for this fall's seeding of, the Agent, John A. Boyden.

RICHARD H. COWAN.

SALISBURY, N. C. Sept. 17th, 1886.

Thave used the Victor-Kellers patent-Grain Drill for the past ten years and consider it by far the best Drill made. I have also used the Bechford & Huffman Drill, but greatly prefer the Victor, because it is much the most convenient and I believe one Victor will last as long as two Beckford & Huffman Drills. The Victor sows all kinds of grain satisfactorily. FRANK BREATHED.

It has been all that the growers of the weed could do in this vicinity to prevent them from eating it entirely up, and despite of all our efforts they have got the largest share. The tobacco crop will fall short of last year in quantity, quality, color and body in our humble judgment. The close observer will notice that there is an unusual number of worms of every description this year. The orchards and woods are webbed up with catipillars.
