SECURED TIME NOTES.

front and is unsurpassed by any other in America. It sows wheat to save anything and the shivering and clover seed and bearded poorly clad ones, who had escaped oats together with fertilizers most admirably.

The quantity per acre can be changed in an instant-by single motion of the hand.

used it say about it.

MT. VERNON, ROWAN Co, N. C. Sept. 15th, 1886.

I have used the Victor-Kellers patent-Grain Drill for several years and I consider it a perfect machine. One can set it in an instant, to sow any quantity of wheat or oats per acre, from one peck to four bushels. It sows hearded oats as well as it does wheat or clover seed and fertizers to perfection. I know it to be strictly A No. 1. Brill and combines great strength, with its other good qualities. W. A. LUCKEY.

SALISBURY, N. C. Sept. 15th, 1886.

Last Spring I borrowed Mr. White them firmly in, and the flames drove Praley's Victor (Kellers patent) Grain Drill and put in my oats with it. It sowed bearded and non-bearded oats to perfection. I believe it to be the best Grain Drill I up to her hair. There were shrieks ever saw. It sows wheat or oats and clover and groans for perhaps seven minutes and fertilizer all O. K., and I have and then all ceased. "They were literbought one for this fall's seeding of, the ally roasted to death before our eyes, Agent, John A. Boyden. RICHARD H. COWAN.

SALISBURY, N. C. Sept. 17th, 1886. I have used the Victor-Kellers patent-Grain Drill for the past ten years and consider it by far the best Drill made. I have also used the Bechford & Huffman Drill, but greatly prefer the Victor, because it is much the most convenient and I believe Jackson with Waightstill Avery at all kinds of grain satisfactorily.

Terrible Railroad Disaster.

TRAIN WEECKED-PASSENGERS BURN-ED ALIVE.

ST. PAUL, Minn., Oct. 29 .- It was nearly 6:30 o'clock last evening when the Chicago limited arrived direct from the wreck at Rio, Wis., bringing most of the passengers who were saved. The first person to appear from the train, was the venerable Bishop Whipple, accompanied by his wife. They were very much worn out, but beyond that, suffered but little from the accident The Bishop described the scene as one of the most terrible he had ever witnessed. He said he had witnessed This Drill stands at the very the burning of the cars and had done all in his power to save the sufferers, but without avail. There was no time were compelled to stand in the cold and watch their fellow passengers burn to death. The air was filled with the groans and cries for help of the burning, mingled with stifled curses and vain pleadings for succor. These with the snap and crack of the flames, the horrible odor of burning flesh, and the Read what people who have hissing of steam as it escaped from the disabled locomotive, all combined to make the horrors those of an inferno. The heroism of Bishop Whipple and Mr. McGinnis, of Morris, was something wonderful, working as they did to save not only the children, but others. McGinnis was only in his stocking feet, but his bravery was an example. When he got out of the sleeper he found Mrs. Scherer, her mother-in-law and her two children at one of the windows of the burning
