SECURED TIME NOTES.

This Drill stands at the very front and is unsurpassed by any other in America. It sows wheat and clover seed and bearded oats together with fertilizers most admirably.

The quantity per acre can be changed in an instant-by single motion of the hand.

Read what people who have used it say about it.

> MT. VERNON, ROWAN CO, N. C. Sept. 15th, 1886.

I have used the Victor-Kellers patent-Grain Drill for several years and I consider it a perfect machine. One can set it in an instant, to sow any quantity of wheat or bats per acre, from one peck to four bushels. It sows bearded oats as well as it does wheat or clover seed and fertizers to perfection. I know it to be strictly A No. 1. Drill and combines great strength, with its other good qualities.

The South.

Among the most spirited and admired verses from General Vance's facile and prolific pen were the following, written at Fort Delaware, near Philadelphia, in April, 1864:

My sunny South! my sunny South, Thou land of joy to me, The blissful clime where sinless youth Was spent in blissful glee; To-night from bars and prison walls, On pinions light and free, My spirit breaks its many thralls

And widely seeks for thee. On hill and brake and rushing tide, And city's loftly spire, And silver stream and valley wide-The home of son and sire-With tireless wing and swelling heart, Which naught around may stay, I'll burst these cords and chain apart,

And seek thee far away.

The eye may droop, the form may bend,
The hair be touched the gray;
Nor night, nor morn, blessed peace may send To cheer the captive's way But sentry's tread, nor musket bright, Nor all the dread array Which Northmen use to show their might

I'll seek thy fields and woodlands wild, Thy own savannahs fair: And be again the happy child That lived and sported there; And when in sleep I view thy streams, Which flow forever free, My gladdest, brightest, sweetest dreams Shall be of home and thee.

Gentlemen—It is due you to say that I think I am entirely well of eczema after having taken Swift's Specific. I have been troubled with it very little in my face since last spring. At the beginning of cold weather last fall it made a slight appearance, but went away and has never returned. S. S. S. no doubt broke it up; at least it put my system in good condition and I got well. It also benefited my wife greatly in case of sick headache, and made a perfect cure of a breaking out on my little three year old daughter last summer.
