T. K. Bruner's Appointment.

From the Char. Observer. I see by the proceedings of the last meeting of the Agricultural Bureau, that T. K. Bruner, associate editor of the old Salisbury Watchman, has been elected secretary. Hope it will be made permanent, as it is "the right man in the right place."

I congratulate the State on securing the services of so efficient, well posted and useful an officer. I will now say long life to the institution.

From the Char. Chronicle.

I see in this morning's Observer, a short communication commending the board for electing T. K. Bruner to the secretaryship of the Agricultural Bureau. Mr. Bruner is one of the best informed men in the State on her mineral and arboreal resources, and his election is an earnest that the department is about to address itself to their practical development.

Secretary Manning's Supplementary Report.

WASHINGTON, Dec. 13.—Secretary Manning has submitted to Congress a supplementary report setting forth the necessity of an entire re-visit of all our custom laws. But this, he says, should not be done until Congress has settled upon an amount and method of tariff taxation.

A Curious Association.

PITTSBURG, Pa., Dec. 13.—President Morrow, of the National Association of Spring and Axle Workers, has called a national convention of that craft held in this city on January 4th next.

"Combination" is the word of work of manufacturers and merchants throughout the country—"Combination" for mutual protection and for digging deep into the uncombined part of the world—the farmers and simple artisans scattered over the country.

What are Taxes. SANDY RIDGE, Dec. 7, 1886. Mr. Editor.—The result of the election on the 21st inst will in all probability be determined by the view voters take of the question of taxes.

Now what is a tax? It is defined as vote tribute, &c. Do the farmers know how much tax they pay today as compared with other sections that have better facilities for reaching market?

Is it not true that freights from Minnesota to Richmond on a certain class of goods is 70 cents while from Richmond to Salisbury, one third only of the distance, the freight is \$1.20?

Suppose a farmer buys a tract of land for \$1,000 and gives his note for that amount, but at the same time, takes a deed in fee simple for the land. Now while it is true that he owes the debt, he has its equivalent in real estate. So it is in regard to the proposed Railroad, for as soon as we turn over to the company \$50,000 in bonds, we immediately receive their equivalent in that amount of stock in the road.

Yet the time was when wheat and oats were threshed by hand, and corn was beaten in a mortar with a pestle. The farmer don't complain, because when he pays to have this work done he thinks is a profitable investment, and so it is another tax gatherer that comes along annually to complain.

Morever we pay a great deal of money for enjoyment that last but a day or an hour, and then are forgotten, while some other gilded bait is held out to draw us in.

Then let us put our shoulder to the wheel and do our duty to ourselves and our children. "Lives of great men all remind us" We may make our lives sublime, And departing leave behind us, "Footprints on the sands of time."
