Mr. VERNON, ROWAN Co, N. C. Sept. 15th, 1886.

I have used the Victor-Kellers patent-Grain Drill for several years and I consider it a perfect machine. One can set it in an instant, to sow any quantity of wheat or oats per acre, from one peck to four bushels. It sows bearded oats as well as it does wheat or clover seed and fertizers to perfection. I know it to be strictly A No. 1. Drill and combines, great strength, with its other good qualities.

SALISBURY, N. C. Sept. 15th, 1886.

Last Spring I borrowed Mr. White Fraley's Victor (Kellers patent) Grain the tenure of Office laws. Drill and put in my oats with it. It sowed bearded and non-bearded oats to perfection. I believe it to be the best Grain Drill I ever saw. It sows wheat or oats and clover seed and fertilizer all O. K., and I have bought one for this fall's seeding of, the Agent, John A. Boyden.
