Greatly Excited.

Not a few of the citizens of Salisbury have recently become greatly excited over the astonishing facts, that several of their friends who had been pronounced by their physicians as incurable and beyond all hope -suffering with that dreadful monster consumption have been completely cured by Dr. King's New Discovery for Consumption, the only remedy that does positively cure all throat and lung diseases, Coughs, Cold, Asthma and Bronchitis," Trial bottle free at Kluttz & Co.'s Brug Store, large bottles \$1.

INFLUENCE OF FOOD-SUPPLY.

A veritable plague of Brazil, according to Von Ihering, results from the singular increase of burrowing mice of the genus Hesperomys, which, are ordinarily very rare, become alarmingly abundant at irregular periods coincident with the flowering seasons of the herbaceous plant which furnishes their chief food. This plant, a Cresciuma, reaches maturity and flowers only at regular intervals varying from six to thirty years. In May and June, 1876, the It isn't the man who makes the most mice appeared in prodigious numbers money who saves the most, as was at Lourenco, where in a few days they shown in the case of the Boston sales- totally demolished the fields of corn. man who once received a salary of \$18,000 per year and was recently sent to and destroyed everything not too hard Carolina. ## **POISON IN THE ASHES**

What the Mt. Lebanon Shakers Found-Incident in the History of a Quiet Community.

The Mount Lebanon (New York) Shakers are a quiet community, secluded from the fret and worry of the outside world. They are widely known, however, for their strict honor and probity in business.

The Shakers believe that nature has a remedy for every disease. A few have been foundthe rest are as yet unknown. Many were discovered by accident. Others came to light as the result of patient experiment and research.

Nervous Dyspepsia is a comparatively new disease, growing out of the conditions of modern life. It is a joint affection of the digestive organs and of the nervous system. These two were formerly treated as separate ailments, and it was left for the clear-sighted Shakers to prove that the basis of this terrible and often fatal complication lies chiefly in the disordered and depraved functions of digestion and nutrition. They reasoned thus:-"If we can induce the stomach to do its work, and stimulate the excretive organs to drive out of the body the poisonous waste matters which remain after the lifegiving elements of the food have been absorbed, we shall have conquered Nervous Dyspepsia and Nervous Exhaustion. And they were right. Knowing the infallible power of Shaker Extract (Seigel's Syrup) in less complicated though similar diseases, they resolved to test it fully in this. To leave no ground for doubt they prescribed the remedy in hundreds of cases which had been pronounced incurable—with perfect success in every instance where their directions as to living and diet were scrupulously followed. Nervous Dyspepsia and Exhaustion is a peculiarly American disease. To a greater or less extent half the people of this country suffer from itboth sexes and all ages. In no country in the world are there so many insane asylums filled to overflowing, all resulting from this alarming disease. Its leading symptoms are these: Frequent or continual headache; a dull pain at the base of the brain; bad breath; nau-

seous eructations; the rising of sour and pungent fluids to the throat; a sense of oppression and faintness at the pit of the stomach; flatulence; wakefulness and loss of sleep; disgust with food even when weak from the need of it; sticky or slimy matter on the teeth or in the mouth, especially on rising in the morning; furred and coated tongue; dull eyes; cold hands and feet; constipation; dry or rough skin; inability to fix the mind on any labor call-

and oppressive and sad forebodings and fears. All this terrible group Shaker Extract (Seigel's Syrup) removes by its positive, powerful, direct yet painless and gentle action upon the functions of digestion and assimilation. Those elements of the food that build up and strengthen the system are sent upon their mission, while all waste matters (the ashes of life's fire) which unremoved, poison and kill, are expelled from the body through the bowels, kidneys and skin. The weak and prostrated nerves are quieted, toned and fed by the purified blood. As the result, health, with its enjoyments, blessings

ing for continuous attention;

The Country Boy.

simple ways and homely virtues, and who learns what a dollar is worth by actually earning it, under the laws of imperative necessity, has a tremendous advantage over the town boy. The country schools are far inferior to the town or city school, but this is counterbalanced by the fact that the country boy is trained to work from the time he can pick up corn-cobs to run the kitchen stove until he goes out to his own home. The country boy has a ORGANIZED 1859 mile or so to walk to and from school. which gives him vigorous appetite and health. The country boy or girl is face to face with practical realities. He sees how slowly money is made on the farm; he is taught from youth up, the need of economy; he has the nature of saving first explained to him every day in the week; he is not exposed to the temptation of the saloon or the ball room; he is not tempted so much to be a lady's man before he has an cecasion to use a razor on his downy cheeks. He may be a trifle rude, he may not feel easy in company, but in the long. contested race of life it is the chap that trudges to school barefooted in summer and in stogas in winter, whose mother cuts his hair with the sheepshears, that leads the chap that goes to the city school with the starched shirt front and fancy slippers, and whose head is shaved with a lawn-mower in the barber-shops. Such has been our observation, and we think we know what we are talking about. Speaking from experience, we never read any books with such avidity as those we devoured while the horses were resting at the end of the plow land. The boys we envied forty years ago, because they wore cassimere and laughed at our race that we have almost forgotten money at college, and the city bred litigation. fellows, have not been, as a rule heard from much since; while the country boys, who wore plain clothes and kept close to their books in the old college, are leading the thought of the day.

An English inventor claims that bells made by soldering together pieces of bent metal give a much greater volume of sound than cast bells.

TONICS, quickly and completely CLEANSES and ENRICHES THE BLOOD. Quickens the action of the Liver and Lidneys. Clears the complexion, makes the skin smooth. It does not injure the teeth, cause headache, or produce constipation -ALL OTHER IRON MEDICINES DO. Physicians and Druggists everywhere recommend it.

DR. N. S. RUGGLES, of Marion, Mass., says: "I recommend Brown's Iron Bitters as a valuable tonic for enriching the blood, and removing all dyspeptic symptoms. It does not hurt the teath." DR. R. M. DELZELL, Reynolds, Ind., says: "I have prescribed Brown's Iron Bitters in cases of snæmia and blood diseases, also when a tonic was needed, and it has proved thoroughly satisfactory." Mn. WM. Byens, 26 St. Mary St., New Orieans, La., says: "Brown's Iron Bitters relieved me in a case of blood poisoning, and I heartily commend it to those needing a blood purifier.

Mn. W. W. Monahan, Tuscumbia, Ala., says: "I have been troubled from childhood with Impure Blood and eruption on my face—two bottles of Brown's Iron Bitters effected a perfect cure. I cannot speak too highly of this valuable medicine." Genuine has above Trade Mark and crossed red lines on wrapper. Take no other. Made only by BROWN CHEMICAL CO., BALTIMORE, MB.
