Letter and Note Heads, Bill Heads and Statements, BUSINESS CARDS, PAMPHLETS, CATALOGUES, PRICE LISTS, School and Party Programmes, AND BLANKS OF ALL KINDS. Court and Magisterial.

**BROWN'S IRON BITTERS**  
THE BEST TONIC.

This medicine, combining Iron with pure vegetable tonics, quickly and completely Cures Dyspepsia, Indigestion, Weakness, Impure Blood, Malaria, Chills and Fevers, and Neuritis. It is an invaluable remedy for Diseases of the Lungs and Liver. It is invaluable for Diseases peculiar to Women, and all who lead sedentary lives. It does not injure the teeth, cause headache, or produce constipation—other iron medicines do. It enriches and purifies the blood, promotes the appetite, aids the assimilation of food, relieves heartburn and belching, and strengthens the muscles and nerves. For Interstinal Fevers, Jaundice, Lack of Energy, etc., it has no equal.

**A Crusade Against Christians.**  
London, Feb. 23.—The Times' Pekin correspondent telegraphs that the chief of a wealthy Christian family, at Z. Chuen, provinces of Z. Chuen, China, has been executed despite the remonstrances of the French minister. The situation throughout the province of Z. Chuen and Noi Choo has become critical owing to fanatic preaching and a crusade against the Christians in which they are aided by Mandarins who advise the extermination of Christianity from the Empire.

**The Wonderful Healing Properties in Darby's Prophylatic Fluid in case of Accidents, Burns, Scalds, Cuts, Wounds, etc.**

Its prompt use will invariably relieve and prevent Erysipelas, Gangrene or Proud Flesh. Owing to the cleansing and purifying qualities of the Fluid the most obstinate Ulcers, Boils, Carbuncles, and Eruptions, sores, are rendered pure and healthy, and speedily cured, no other application being necessary.

**The Romance of a Statue.**  
Probably no class of persons suffer more from wintry weather in Paris than poor artists and students. Sad tales are told of some of these poor young fellows. Once a sculor was found dead in his bed from cold, while the beloved statue at which he was working was wrapped round with all the covering he thought he could spare from his bed and person, so that it might not be damaged by the severe frost. This statue, minus the limb which the unfortunate author had not lived to finish, now stands in the courtyard of the Palais des Beaux Arts.—London Globe.

**A Gift for All.**  
In order to give all a chance to test it, and thus be convinced of its wonderful curative powers, Dr. King's New Discovery for Consumption, Coughs and Colds, will be, for a limited time, given away. This offer is not only liberal, but shows unbounded faith in the merits of this great remedy. All who suffer from Coughs, Colds, Consumption, Asthma, Bronchitis, or any affection of Throat, Chest or Lungs, are especially requested to call at Kluttz's Drug Store, and get a Trial Bottle Free, Large Bottles \$1.

**Hunger the Best Sauce.**  
"I seldom talk about the war," said the Union soldier, "but I think about it sometimes. Whenever I look out of the window and see old Kennesaw Mountain I think of the best dinner I ever ate. For months and months we had been living on hardtack and sorrel-balls. About the time we reached Marietta a crowd of us came upon an old, deserted house and found some Irish potatoes and onions. We stewed the potatoes and feasted. Never since have I tasted such a dinner. Ten thousand times I thought of it. I think of it every time I see a restaurant, and every time I see a specially fine spread. For twenty years I have been haunted by the memory of that dinner where Irish potatoes took the place of hardtack and fat meat."—Atlanta Constitution.

**Renews Her Youth.**  
Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own house work. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain."  
Try a bottle, only 50c. at Kluttz's Drug Store.

**A Washington "Sponge."**  
"Do you know, I don't actually spend \$4 a month for food seven months in the year," said a Washingtonian. "Here is my programme! I rise about 11:30 or 12 o'clock (I am not a workingman), and take a cup of coffee and two biscuits which cost nine cents. I start out on my rounds calling, about 2:30 in the afternoon, and strike any one of fifty places, where I take lunch with the family. I work the dinner racket the same way, and late in the evening put on my dress suit and manage to hit a good warm lunch where a reception is in progress."  
"Do many men live in this way?" asked the correspondent.  
"I can name you twenty men right in this town who are playing the same game. Why, what's the use in a fellow putting up good hard boodle when he can live without it."—Brooklyn Citizen.

**Bucklen's Arnica Salve.**  
THE BEST SALVE IN THE WORLD for Cuts, Bruises, Sores, Ulcers, Sore Throat, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positive cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Kluttz & Co.

**Precise.**  
A policeman was being examined as a witness against an Irishman whom he had just brought to the local court. After the officer had told his story the judge asked:  
"What did the man say to you when you arrested him?"  
"I want his precise words, just as he uttered them. He did not use the pronoun he, did he?"  
"O, yes, he did! He said he was drunk; he acknowledged the corn."  
"You can't understand me at all. I want the words just as he uttered them. Did he say I was drunk?"  
"Oh, no, your honor, he didn't say you were drunk. I wouldn't allow any man to charge that upon you in my presence."  
"A fledgling lawyer occupying a seat in court, desired to air his powers, and said:  
"Pshaw! you don't comprehend at all. His honor means, did the prisoner say to you I was drunk?"  
"Well, he might have said you were drunk, but I didn't hear him."  
"What the court desires, said another lawyer, is to have you state the prisoner's own words, preserving the precise form of pronoun he made use of in the reply. Was it in the first person, I; second person, thou or you; or the third person, he, she, or it? Now then, sir, did not the prisoner say, I was drunk?"  
"No, he didn't say you were drunk, neither. Do you suppose the poor fellow charged the whole court with being drunk?"

**Raising Tobacco.**

By Col. Robt. L. Ragland.  
The time of sowing, varies with the latitude, variety and season. Between the parallels of 35 and 40 degrees north latitude, compassing the great tobacco belt, beds may be sown any time between the 1st of January and 20th of March, and the sooner the better for the bright grades, which ought to be planted early to mature, ripen and yellow, preparatory to being cured early in fall, when the most successful curings are usually made. Yellow tobacco ought to be planted out in May, but June plantings usually do best in heavy dark grades. The sower will consult his interest by planting at a proper time to suit the grade he desires to raise.

Plants set out after the 10th of July rarely pay for growing and handling, and if not planted by that time, it will be wise to plant the hills in peas, potatoes, or something else.  
As soon as the plants become "square," i. e. have four leaves, you may begin to force their growth, if necessary. Nothing is better at this stage of their growth than to apply dry stable manure, rubbed fine, and sowed over the bed—apply at the rate of five bushels to every hundred square yards. Be sure to have it dry and fine, and apply when plants are dry. This is a favorable time to apply a good fertilizer, and the best time to apply it is during a shower, or when it is apparent that it is impending.  
If the "fly," as it is called, begins to devour the young plants, apply plaster, in which rags saturated with kerosene oil have lain for a few hours, covering the plants with the plaster, if necessary to keep the little pests from devouring them. Repeat the application after every rain unless the flies have left.

A covering of green cedar brush has driven off the fly when other remedies failed and saved the plants. If the flies are numerous, the planter can save plants only by vigilant and constant attention. Harl burning, early and thick sowing; liberal and frequent applications of manure, are the best safeguards, which rarely fail to reward the planter with an early and full supply of stocky plants, and with some left for his less provident neighbors. Some planters, if such may be so called, always fail—some never. Follow the latter, and you will always be right.  
Canvas covered beds are the surest protection, and seem the best every way.

**Danger in Ice.**  
In an article on "The Number of Bacteria in Ice," in the American Journal of Pharmacy of December, 1886, the author concludes that "the common raw ice, till lately almost exclusively used, on account of the large number of bacteria, capable of development, which it contains, should not be taken with food, in drinks, or for medicinal purposes. It should never be used in treatment of wounds. In these connections, artificial ice, made from distilled water, should be employed. The use of raw ice in contact with food, which is afterwards to be cooked, is permissible, but artificial is to be preferred. Raw ice may be freely used where it does not come into direct contact with food."—N. C. Medical Bulletin.

**MOTHER'S FRIEND**  
MAKES CHILD-BIRTH EASY!  
FOR WOMEN WHO ARE LABORING WITH PAIN AND ANXIOUSLY ANTICIPATING THE DANGERS OF LIFE TO MOTHER AND CHILD.

**Poison in the Ashes**  
What the Mt. Lebanon Shakers Found—Incident in the History of a Quiet Community.  
The Mount Lebanon (New York) Shakers are a quiet community, secluded from the fret and worry of the outside world. They are widely known, however, for their strict honor and probity in business.  
The Shakers believe that nature has a remedy for every disease. A few have been found—the rest are as yet unknown. Many were discovered by accident. Others came to light as the result of patient experiment and research.  
Nervous Dyspepsia is a comparatively new disease, growing out of the conditions of modern life. It is a joint affection of the digestive organs and of the nervous system. These two were formerly treated as separate ailments, and it was left for the clear-sighted Shakers to prove that the basis of this terrible and often fatal complication lies chiefly in the disordered and depraved functions of digestion and nutrition. They reasoned thus:—"If we can induce the stomach to do its work, and stimulate the executive organs to drive out of the body the poisonous waste matters which remain after the life-giving elements of the food have been absorbed, we shall have conquered Nervous Dyspepsia and Nervous Exhaustion. And they were right. Knowing the infallible power of Shaker Extract (Seigel's Syrup) in less complicated though similar diseases, they resolved to test it fully in this. To leave no ground for doubt they prescribed the remedy in hundreds of cases which had been pronounced incurable—with perfect success in every instance where their directions as to living and diet were scrupulously followed. Nervous Dyspepsia and Exhaustion is a peculiarly American disease. To a greater or less extent half the people of this country suffer from it—both sexes and all ages. In no country in the world are there so many insane asylums filled to overflowing, all resulting from this alarming disease. Its leading symptoms are these: Frequent or continual headache; a dull pain at the base of the brain; bad breath; nauseous eructations; the rising of sour and pungent fluids to the throat; a sense of oppression and faintness at the pit of the stomach; flatulence; wakefulness and loss of sleep; disgust with food even when weak from the need of it; sticky or slimy matter on the teeth or in the mouth, especially on rising in the morning; furred and coated tongue; dull eyes; cold hands and feet; constipation; dry or rough skin; inability to fix the mind on any labor calling for continuous attention; and oppressive and sad forebodings and fears.

**Poison in the Ashes**

All this terrible group Shaker Extract (Seigel's Syrup) removes by its positive, powerful, direct yet painless and gentle action upon the functions of digestion and assimilation. Those elements of the food that build up and strengthen the system are sent upon their mission, while all waste matters (the ashes of life's fire) which unremoved, poison and kill, are expelled from the body through the bowels, kidneys and skin. The weak and prostrated nerves are quieted, toned and fed by the purified blood. As the result, health, with its enjoyments, blessings and power, returns to the sufferer who had, perhaps, abandoned all hope of ever seeing another well day.

**That excellent lady, Mrs. Mary C. Dalton, of Houstonville, this county, who knows almost everything, sends us a receipt which she asserted is a sure cure for the itch. She has used it for forty years and has never known it to fail. The receipt is as follows and it will be welcomed by many in these scratching times: One measure of fresh unslacked lime; two measures of flour of sulphur; ten measures of boiling water. Put all together in an earthen vessel or porcelain kettle, place over a fire of coals, stir until the ingredients are mixed, then pour into a vessel that can be well corked and it is ready for use. Wash the patient with warm water, then with the fluid. In 15 minutes or half an hour wash off, put on clean clothing, having a clean bed and you are cured. When the itch has run in sores, and it makes one suffer, grease the sores with tallow.—Statesville Landmark.**

In Holland, an unmarried lady always takes the right arm of her escort, while the married one selects the left side of her husband. So deeply has the custom entered into the life of Hollanders that at a church wedding the bride enters the edifice on the right side of a groom, the young wife returning on the left side of her husband when the ceremony has been performed. No unmarried lady in that country can dream of going to church, concert or any other place of public assemblage without the escort of parents or male members of the family. She cannot take a walk, pay a visit or go shopping, unaccompanied by her mother or some married lady friend.
