Volcanoes burnt out in the mountains and sent their red hot lava pouring down the sides into the valleys, destroying everything in their course. One entire village (Montesuma) was completely wiped out, and forests were burned up like tinder. Many people lost their lives.

The Charlotte Chronicle notes the failure of the water to flow from the nozzels of the hose at the McNinch fire, Sunday morning last, although there were 85 feet of water in the stand pipe; and the cause assigned for it was that the plugs were choked with mud and rocks. Now, we are having water works erected and expect to have at least 85 feet of water in the stand pipe; and we generally have plenty of mud and rocks lying around near the plugs, and it would ruin us to have them choked with mud and rocks, for we in the stand pipe as they have in Charlotte. NOTICE TO DRUGGISTS AND STORE

The Statesville Landmark says: The negro persecution of negroes who rote the Democratic ticket is a disgrace to the race. One of these was surrounded at the second ward polls on Monday by a crowd with drawn knives who seemed to wish to cut him to pieces. The air has all week been full of threatenings against the negroes who voted Democratic in the municipal election, and life has been a burden to them.

The radical negro tninks when he votes the radical ticket he is doing exactly right, and that when he attempts to kill a democratic negro for voting the democratic ticket, he is doing God services. That is the way they are
