The speculators who bought up trade dollars are now reaping their reward About \$5,250,000 of this depreciated cur rency have been redeemed at par. Nearly all these dollars had passed out of the hands of the people into the possession of shrewd speculators who bought them at 80 cents each. Their profits will probably be over \$1,000,000.

Thus it turns out that Congressional blundering in this small matter subjected the industrious citizens of this country to a loss of \$1,000,000.

WHAT LILS ITE KATION?

The Average Length of Life Decreasing-Not Pestilence-Not Famine-All our own Fault.

MODERN COOKING AND MOD-ERN LIVING have brought it on. It comes upon us unawares. The patients have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint, all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow; the kidney secretions becomes scanty and high colored, depositing a sediment after standing. There is frequently a spitting up of the

food, sometimes with a sour taste and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart and Asthmatic symptoms; the vision becomes impaired, with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-half of our population has this disease in some of its varied forms. Shaker Extract of Roots (Seigel's Syrup) changes the ferments of the Digestive organs so as to convert the food we eat into a form that will give nourishment to the feeble body, and good health is the consequence. The effect of this remedy is simply marvelous. Millions upon millions of bottles have been sold in this country, and the testimonials in favor of its curative powers are overwhelming. Hundreds of socalled diseases under various names are the result of indigestion, and when this one trouble is removed the other diseases vanish, for they are but symptoms of the real

malady. Testimonials from thousands of people speaking highly of its curative properties prove this beyond a doubt. Sold by druggists.
