### CALL THE STATE OF Kill the Chinch Bug.

We published last week a remedy for this pest by Geo. F. Atkinson, of Chapel Hill, and take pleasure in publishing the following letters:

RALEIGH, N. C., June 28th, 1887. Prof. Geo. F. Atkinson, University of N. C.

Dear Sir: I hasten to inform you of the Emulsion," suggested by Prof. Riley. of of the disease is to be found in the soil Washington City, and furnished by you to the Department of Agriculture, in the destruction of the "chinch bug" (Blissus Cucopterus) in my corn. About the midthe of June I took off my crop of wheat, to define the safe method of treatment, the wheat near the corn field this would require more exact knowledge of enemy of wheat and corn though not in large numbers. In a few days, however, I found my corn along the entire width rule in either case which might be re-of the wheat field filled with these misera- lied on as certain. And yet he has seen ble black chinch bugs making rapid havoc the black rot sweeping away an almost with the young corn, thousands of them around the root of the corn, sucking its distant from another grapery in which

I applied the English purple in solution, old fence row being in the line of their depredations). I told him to try the fire of water. This I had boiled and poured thoroughly, I directed that the mixture reference to air and light. was such good news that I hasten to let all my fellow-sufferers from the chinchthank you for ...
saved my corn crop.
Respectfully,
R. S. Tucker.

Mr. William F. Stroud, of Chapel Hill, had a field of wheat, which was infested to the air It is stated in the papers that teaspoonful of water may be given with the Chinch Bugs. When the wheat the engineers' camp materials and equip- every ten or fifteen minutes; but if the themselves to the corn, which was adja- Brunswick county, to pay debts which the cent.
