

University Shakespeare Club.

The beneficial results of the work of the Shakespeare Club, at the State University, on the literary tastes of the young men who are being educated there, can hardly be estimated.

This work is but another evidence that the University is striving in every possible way to elevate the tone and expand the intellectual horizon of the youth of the State who attend there.

It has been well said that the love of Shakespeare marks a broad mind and liberal culture. What Homer was to the ancient mind, Shakespeare is to the modern.

Any boy fifteen years old, black or white, who would insult a woman ought to be put out of the way, and any one who would take up for him ought to keep him company.

Shooting Affray.

A shooting affray occurred at the store of Mr. J. B. Keever, in Alexander county, on the fifteenth. The facts of the case are as follows:

Mrs. J. B. Matheson was picking blackberries in a field near her home when a colored boy about fifteen or sixteen years old, by the name of Pool, came up and grossly insulted her.

The government has a claim on this road, not yet matured, for \$80,000,000 which is not worth a nickel, because there are two prior mortgages on it to be satisfied before the government's claim can be considered.

An Example for Salisbury.

From the Manufacturer's Record.

Southern cities and towns are seeking to attract the attention of capitalists and manufacturers of other sections to their great advantages.

The new education at the University, with its enlarged faculty, progressive methods and buoyant ambition, is well signified by the work of the "Shakespeare Club," whose "Journal for 1886-87" is before us.

Wichita, Kansas, is noted far and wide for its wonderful progress, surpassing in some respects the marvelous growth of Birmingham.

We advertised by hundreds of thousands of circulars. We set forth all our advantages in such a manner that strangers who were led by our circulars to give us a call were not deceived.

Every town in the East of notoriety was not only served with our circulars but our newspapers.

The late Hon. J. L. Robinson, Asheville Citizen.

As an evidence of the high esteem in which our late friend was held by so distinguished a gentleman as Mr. Robinson, we are permitted to publish a letter, written by him to Gov. R. a short while before the death of the latter.

My Dear Sir:—I received your dispatch stating your health would not permit you to undertake the payment of the funds to the Osages which I wished to entrust to you.

From other sources I learn with extreme regret that your health is not improving. I hope you will believe me when I assure you that this intelligence gives me extreme distress.

Very truly your friend, L. Q. C. LAMAR.

Wrecked with 8,000 Melons on Board. A special train of eight cars, having on board 8,000 watermelons, was due in Charlotte early yesterday morning.

Stanley, The Explorer, Killed. London, July 21.—A dispatch from St. Thomas, West Africa, says: "The West African Company has received a report that Henry M. Stanley, the African explorer, had been shot dead by the natives with whom he was fighting for supplies."

After throwing eight boys over the fence out of a watermelon patch, a Clay county, Mo., woman charged them especially. "Now, see here boys, I'll keep this thing up till ye get me tired."

Republicans Congress to Fight.

The special committee now investigating the history and condition of the various Pacific railroads are making very shameful fact particular conspicuous. The fact that the Union Pacific road's robbery of the government was carried on with the consent and even with the participation of the earlier Republican congresses, and that the large fortunes which many Republican leaders are now enjoying are their share of this enormous and disgraceful robbery.

The government has a claim on this road, not yet matured, for \$80,000,000 which is not worth a nickel, because there are two prior mortgages on it to be satisfied before the government's claim can be considered.

Terrific Explosion.

Spector, Ill., July 23.—At 2:30 o'clock this morning the entire city was aroused by a most terrific explosion, which was immediately followed by the ringing of the fire bells.

The powder house of the Chicago, Wilmington and Vermillion Coal Company had been struck by lightning and between 8,000 and 10,000 pounds of powder exploded.

Every dwelling on the south and west side of the powder house was completely demolished. Not a vestige of the powder house remains, while where it stood is an excavation of about sixty feet long, forty feet wide and twenty feet deep.

One person was fatally injured, a tramp sleeping in a car near the powder house. Six others were seriously hurt, while the minor casualties will reach nearly one hundred.

There were forty five dwellings almost totally demolished, and there is not a plate glass window left in the business part of the city. It is impossible at this time to estimate the loss, but it will probably reach \$75,000 or \$100,000.

A Good Investment. It is that which yields large returns from a small outlay. Reader, the way is clear! No speculation, no chance, big returns!

A Terrible Disaster From Lightning at a Negro Funeral. A dispatch from Nashville, Tenn., says: A most remarkable occurrence followed a negro funeral at Mount Pleasant, about sixty miles south of Nashville.

The government has a claim on this road, not yet matured, for \$80,000,000 which is not worth a nickel, because there are two prior mortgages on it to be satisfied before the government's claim can be considered.
