**His Affection Put to the Test.**

From the New Orleans Picayune.

It was midnight, and an impassioned lover in an up-town drawing-room kneeled at the feet of his heart's choice and exclaimed:

"Gerty, I will do anything in this world to make you happy."

"Do you mean it, George?"

"I do, I do, darling."

"Then for heaven's sake go home and let me go to bed."

**An End to Bone Scraping.**

Edward Sheperd, of Harrisburg, Ill., says, "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I used a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c per box at Klutz's Drug Store.

There is another fresh evidence of race prejudice in the great North. The Ancient Order of Foresters have served notice that negroes shall not be permitted to enter their organization. You cannot break down by denunciation or legal enactment the prejudices of race, or caste. They are interwoven into the very texture of society and are as lasting as time, and as inexorable as fate. Christianity did not come to destroy caste or race but to make people holy. It is not a revolution but an evolution. Laws, customs and distinctions will continue to prevail until the book of time closes.—Wilmington Star.

**Good Results in Every Case.**

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, did so and was entirely cured by the use of a few bottles. Since which time he has used it in his family for all Coughs and Colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery.

**Indians Studying Medicine.**

An Indian girl from the Hampton school is soon to enter the training school for nurses in New Haven. She is engaged to the son of a Sioux chief, who is studying in the Medical college at Philadelphia, and when they both graduate they will be married and return to the Indians and give them the benefit of skilled training.—Democrat's Monthly.

**"Waiting and Watching."**

One by one the great men of the nation are coming to the candid support of Cleveland. Thurman, McDonald, Sunset Cox, Sickles, Henry Watterson, Senator East and others; but Kitchen still stands out and the country breathlessly waits his coming.—Goldboro Argus.

At the alleged request of the war department, Gov. Curtin, during the war, pardoned and turned out of the Pennsylvania penitentiary a noted criminal to come South on a secret mission. Now Gov. Curtin thinks that criminal was it that performed his government. As a matter of fact the war department repudiated the alleged request, and Gov. Curtin revoked his pardon. But on letters purporting to be from the war department, Gov. Curtin did issue the pardon for the purpose that the man might come South on a secret mission. Now what was the secret mission? A friend at the North warned Mr. Davis at the time that the object was his assassination.—Raleigh Observer.

Close economy is a better lesson to learn than how to make a large expenditure wisely. But this is a lesson that must begin at home. If a father teaches his son to be a spendthrift at home, he must not be surprised if he is a spendthrift at college.—Independent.

State Democratic Conventions have, without exception, we believe, heartily endorsed President Cleveland's administration.

Are you sad, despondent, gloomy? Are you sore distressed? Listen to the welcome bidding—  
 "Be at rest."  
 Have you aches and pains unnumbered, Poisoning life's Golden Cup? Think not there's no balm in Gilead, and "Give up."  
 A Golden Remedy awaits you—Golden not alone in name—Reach, oh, suffering one, and grasp it. Health reclaim.

There is but one "Golden" Remedy—Dr. Pierce's Golden Medical Discovery. It stands alone as the great "Blood-purifier," "strength-renewer" and "health-restorer" of the age! The Liver, it regulates, removing all impurities. The Lungs it strengthens, cleansing and nourishing them. The whole system it builds up, supplying that above all other things most needed—pure, rich Blood.

**From Where I Am.**  
 August 19th, 1887.

**Editor Watchman**—Dear Sir: By your request, I will try to give you a note from where I am and what I do. It is useless for me to tell you that the corn, cotton and sweet potatoes are simply good but immense. I never saw just such a crop in my life. I speak for part of Locke, Franklin and Unity. The season is good and promises to "hold out to the end." The farmers are breaking fall and sowing oats with all their might. A good many have sown turnip seed, which are up and looking well. I see but little tobacco, which looks well. I am sorry that there is not more of the weed raised for I think that it will bring a good price. The molasses making has begun. Mr. John Powlas is at work and makes a good article. But we are sorry to say there is a grocery near by where the tipler can be supplied. The health of the community is very good. Mrs. Nancy Thompson was very low, but she is better at writing. We were sorry to see in the WATCHMAN that the "Man about the Country" was in feeble health, hope he is better. Sorry "Gen. Agent" has nothing to say. We saw Esq. Tarrh book up for life, Mr. Thos. Enniss and Miss Lillie Graham at his house on the 6th inst at 9 o'clock p. m. The colored folks have a revival at Cedar Grove. Those in quest of good flour can get it at Kepley & Lyerly's mill, or at Bost & Davis.

Mr. R. Bailey is doing good business in his line at Wood Leaf. We were pleased to see Prof. McNeill at the Normal, he looks like he has grown eight inches all over. By the way the Normal was a success this time.

And whatever happens to the Professors they may always feel that they have made a lasting impression on the writer.

We were well pleased at an incident that occurred with some little boys and the Professors. While the boys worried Prof. Moses, Prof. Nobles worried the boys. We call that tact.

Our country is on the go-ahead. Not far from here, (the school house) is a steam saw and grain mill, store, molasses mill, grog shop, country doctor, and we have a cotton manufactory with one spindle, not run by steam but by a woman. All seem to be actively at work.

Mr. Isaac Lyerly and family have got back from Asheville, he gives it a bad name. He said it was so quiet down here that it put him in mind of a burying. I think that folks do best where they are raised. I know that a lot of them spend money that they always feel the need of.

I was glad to see Mr. Harrison, on the small farm principle we talked it to our friend McCubbins long ago. Who will be the first to try it?

Could the old Confeds be induced to turn on some time in October or November? We would be glad to see the 8th N. C. S. T., especially Co. K.

Long live the old WATCHMAN and its aged editor.

Your most old servant,  
 ERRANT.

**The Order of Secretary Lamar Withdrawing the Indemnity Lands.**

Washington, D. C., August 15.—Secretary Lamar today revoked the order of withdrawal of the indemnity lands for the benefit of the Pacific R. Co., and, in a letter to the Commissioner of the General Land office, directed that these indemnity lands be restored to settlement under the pre-emption and homestead laws. It is stated that between 25,000 and 30,000 acres were involved in this decision in the case of the Atlantic & Pacific Company alone. The above order also applies to all of the other railroads named in the Secretary's rule of May 23 last, except the St. Paul, Minneapolis & Manitoba, the Hastings & Dakota, the St. Paul & Sioux City, the Sioux City & St. Paul and the Winona & St. Peter's. These are still under consideration and undecided.

John L. Sullivan has been presented by his admirers in "the Hub" with a belt of beaten brass, bejeweled and inscribed "To the Champion of Champions." He has been whipped long, but this is his apotheosis. He is about to visit foreign lands, and says he will always be "proud and happy to say that he belongs to Boston." That Boston also belongs to him, by virtue of his strong right arm, it might be thought invidious to say; but certainly there's passing strangers in the fact that the hero of the modern Athens stands forth a bruiser.—Raleigh Observer.

Gen. Neal Dow says that the prohibitionists in 1888 will have their national convention and their national candidate. Cold water and woman suffrage mixed, he says, may be part of the mosaic flooring of the platform.

**A Terrible Surgical Operation A FATAL MISTAKE.**

The Cleveland (Ohio) Press, of February 23d, 1883, published an account of a fatal surgical operation which caused a great commotion among medical men throughout the whole country, Dr. Thayer, the most eminent surgeon in Cleveland, pronouncing it scandalous. It appears that a Mrs. King had been suffering for many years from some disease of the stomach, which had resisted the treatment of all the physicians in attendance. The disease commenced with a slight derangement of the digestion, with a poor appetite, followed by a peculiar, indescribable distress in the stomach, a feeling that has been described as a faint "ail gone" sensation, a sticky slime collecting about the teeth, causing a disagreeable taste. This sensation was not removed by food, but, on the contrary, it was increased. After a while the hands and feet became cold and sticky—a cold perspiration. There was a constant tired and languid feeling. Then followed a dreadful nervousness, with gloomy forebodings. Finally the patient was unable to retain any food whatever, and there was constant pain in the abdomen. All prescribed remedies failing to give relief, a consultation was held, when it was decided that the patient had a cancer in the stomach, and in order to save the patient's life an operation was justified. Accordingly, on the 22d of February, 1883, the operation was performed by Dr. Vance in the presence of Dr. Tuckerman, Dr. Perrier, Dr. Arms, Dr. Gordon, Dr. Capner, and Dr. Halliwell of the Police Board. The operation consisted in laying open the cavity of the abdomen and exposing the stomach and bowels. When this had been done an examination of the organs was made, but to the horror and dismay of the doctors there was no cancer to be found. The patient did not have a cancer. When too late the medical men discovered that they had made a terrible mistake; but they sewed the parts together and dressed the wound that they had made, but the poor woman sank from exhaustion and died in a few hours. How sad it must be for the husband of this poor woman to know that his wife died from the effects of a surgical operation that ought never to have been performed. If this woman had taken the proper remedy for Dyspepsia and Nervous Prostration (for this was what the disease really was), she would have been living to-day. SHAKER EXTRACT OF ROOTS, or SEIGEL'S CURATIVE SYRUP, a remedy made expressly for Dyspepsia or Indigestion, has restored many such cases to perfect health after all other kinds of treatment have failed. The evidence of its efficacy in curing this class of cases is too voluminous to be published here; but those who read the published evidence in favor of this dyspeptic remedy do not question its convincing nature, and the article has an extensive sale.

**Dirt as a Great Healer.**

I very much doubt if anybody with Yankee blood in his veins can ever become the society dawdler our novelists are so fond of serving up in black and white for the delectation of their pessimist readers—such as Howells and James so aptly sketch with a free hand; but I have an impression that a six month's apprenticeship to farm life would eradicate the disease even in its worst stages. I am a believer in the Anthrax theory, that men gain strength by their contact with the earth. Dirt is a great healer, a great health giver, as many a child knows as he recalls his pie making days. It is the base of any great democracy and an admirable leveler of class distinctions. This repugnance on the part of some people to own their plebeian ancestry is a human weakness which honest people despise and avoid; for if there is anything of which an American ought to be proud it is his democratic descent, his plebeian independence. One's forefathers may not have been voyagers in the Mayflower, or have stood among the "embattled farmers" of Concord, or have had a hand in the drafting of the constitution; but I have no doubt that in some humble way they served served the common cause. It is enough to be of American birth in these days of growing civilization.—Sylvester's "Prose Pastorals."

Accordingly, on the 22d of February, 1883, the operation was performed by Dr. Vance in the presence of Dr. Tuckerman, Dr. Perrier, Dr. Arms, Dr. Gordon, Dr. Capner, and Dr. Halliwell of the Police Board. The operation consisted in laying open the cavity of the abdomen and exposing the stomach and bowels. When this had been done an examination of the organs was made, but to the horror and dismay of the doctors there was no cancer to be found. The patient did not have a cancer. When too late the medical men discovered that they had made a terrible mistake; but they sewed the parts together and dressed the wound that they had made, but the poor woman sank from exhaustion and died in a few hours. How sad it must be for the husband of this poor woman to know that his wife died from the effects of a surgical operation that ought never to have been performed. If this woman had taken the proper remedy for Dyspepsia and Nervous Prostration (for this was what the disease really was), she would have been living to-day. SHAKER EXTRACT OF ROOTS, or SEIGEL'S CURATIVE SYRUP, a remedy made expressly for Dyspepsia or Indigestion, has restored many such cases to perfect health after all other kinds of treatment have failed. The evidence of its efficacy in curing this class of cases is too voluminous to be published here; but those who read the published evidence in favor of this dyspeptic remedy do not question its convincing nature, and the article has an extensive sale.

**Dirt as a Great Healer.**

I very much doubt if anybody with Yankee blood in his veins can ever become the society dawdler our novelists are so fond of serving up in black and white for the delectation of their pessimist readers—such as Howells and James so aptly sketch with a free hand; but I have an impression that a six month's apprenticeship to farm life would eradicate the disease even in its worst stages. I am a believer in the Anthrax theory, that men gain strength by their contact with the earth. Dirt is a great healer, a great health giver, as many a child knows as he recalls his pie making days. It is the base of any great democracy and an admirable leveler of class distinctions. This repugnance on the part of some people to own their plebeian ancestry is a human weakness which honest people despise and avoid; for if there is anything of which an American ought to be proud it is his democratic descent, his plebeian independence. One's forefathers may not have been voyagers in the Mayflower, or have stood among the "embattled farmers" of Concord, or have had a hand in the drafting of the constitution; but I have no doubt that in some humble way they served served the common cause. It is enough to be of American birth in these days of growing civilization.—Sylvester's "Prose Pastorals."

**The Order of Secretary Lamar Withdrawing the Indemnity Lands.**

Washington, D. C., August 15.—Secretary Lamar today revoked the order of withdrawal of the indemnity lands for the benefit of the Pacific R. Co., and, in a letter to the Commissioner of the General Land office, directed that these indemnity lands be restored to settlement under the pre-emption and homestead laws. It is stated that between 25,000 and 30,000 acres were involved in this decision in the case of the Atlantic & Pacific Company alone. The above order also applies to all of the other railroads named in the Secretary's rule of May 23 last, except the St. Paul, Minneapolis & Manitoba, the Hastings & Dakota, the St. Paul & Sioux City, the Sioux City & St. Paul and the Winona & St. Peter's. These are still under consideration and undecided.

John L. Sullivan has been presented by his admirers in "the Hub" with a belt of beaten brass, bejeweled and inscribed "To the Champion of Champions." He has been whipped long, but this is his apotheosis. He is about to visit foreign lands, and says he will always be "proud and happy to say that he belongs to Boston." That Boston also belongs to him, by virtue of his strong right arm, it might be thought invidious to say; but certainly there's passing strangers in the fact that the hero of the modern Athens stands forth a bruiser.—Raleigh Observer.

Gen. Neal Dow says that the prohibitionists in 1888 will have their national convention and their national candidate. Cold water and woman suffrage mixed, he says, may be part of the mosaic flooring of the platform.

The Kentucky militia at Morehead, Rowan county, believing prevention better than cure, have seized and confiscated all the arms of the desperadoes they could find.

A Tennessean named John Elder claims to have discovered perpetual motion. The reader will never hear any more of it.
