

Carolina Watchman.

THURSDAY, OCT. 6, 1887.

The President's Western Trip.

St. Louis Mo., was the objective point of the President's western trip, where he and his party, Mrs. Cleveland included, arrived safely on the 21 October instant, and were temporarily the guests of Mayor Francis. The President was invited to attend the State Fair to be held there this week, and on the next day was taken in hand by the city authorities who had made liberal preparations for escorting him through the city to the Fair grounds, &c. Immense crowds of people lined the streets through which the distinguished party were conducted. On arriving at the Merchants Exchange, after loud cheers, ceremonies of introduction and a speech of welcome from the Mayor, the President delivered a well conceived address suited to the time, place and circumstances. The people of St. Louis were in joyous mood, and displayed their hospitality in every way possible, all of which was duly acknowledged by the President, who will doubtless acquire some new ideas of the greatness of the country and people over which he is called to rule as their chief officer.

The elegantly appointed and equipped train that is bearing the Presidential party on their great Western and Southern tour, consists of three Pullman cars, connected in such a way that one can walk from one end to the other without opening a door or being exposed to the weather or other discomfort, and the coaches are richly and fashionably furnished and upholstered—among the articles being a beautiful bed room, centre table, inlaid writing desk, sofas, rocking chairs, barber chairs, and several large mirrors—to say nothing of a bath room and smoking compartment, and to cap the climax, the cars are heated by steam from the locomotive and furnished with electric lights from the same source. Washington has certainly never before seen such a splendidly outfitted train. Geo. M. Pullman gave his personal attention to the details, and the outlay is said to represent a capital of 200,000, and it is further stated that the President will be at an expense of \$10,000 for the trip. The party consisted of the President and Mrs. Cleveland, Private Secretary Lawton, two or three personal friends of Mr. Cleveland and three representatives of the press.

President Cleveland will arrive at Asheville, N. C., on his return trip at 10 o'clock, on the 21st day of the month. The programme limits him to 15 minutes in passing through the city, and his train will then move on to Salisbury, which place he is expected to reach in about six hours, running on the usual schedule time, which will make his arrival here at about 15 or 20 minutes after 4 o'clock, P. M. There will probably be no halting here, unless by special favor, as the Western N. C. and R. & D. are in close connection, trains passing from one to the other without any loss of time in shifting. It is to be hoped that the President may be induced to stop long enough for our people to see him, and pay the respect they cherish for him.

The organization of department clerks at Washington into State Associations, of which there are several, has been the occasion of one of the most sensational episodes of the present Administration. The organizations partake of a political as well as a social character—the real object being to protect the members in their official positions. On being invited to address the Illinois Democratic Association, Civil Service Commissioner Oberly not only declined to accept the compliment, but wrote the "Snickers" a long letter, informing them that the existence of their association is a violation of the civil service act, and admonishing the members that for such infraction they are liable to the penalties of the law.

There is a pickle factory at Fredericksburg, Va., which is supplied with cucumbers from lands near the city. The supply this season has reached 30,000,000, some of the producers raising as many as 1,000,000 cucumbers. It is denominated one of the "small industries." Does it pay—the proprietors, the farmers, and the city? The Wilmington Messenger is anxious for such a factory at that place, claiming for the soil in that neighborhood peculiar adaptability to the business. Small industries of other kinds pay equally as well, and if our people will, they can make them pay here.

Pretty bold conduct was that on the part of negro school children in Kansas, when they entered the school house of the whites to the number of fifty and claimed equal privileges there. The white children vacated the house, leaving it in possession of the negroes. They came back next day, and it seems were allowed room in the house, but only the white pupils were instructed. What is the position of the republican party on this mixed school question, any way? It cannot be ignored in the next canvass, but must come to the front, especially in the South.

It is reported that the Germans have deposited and seized King Malietoa of the Samoan Islands. The news is a surprise, as England, Germany and the United States were looking to a joint agreement to maintain native government on the islands. The British and American consuls are indignant.

The Chronicle says Charlotte pays this year a tax on over \$4,000,000—\$300,000 more than the year before. Poll tax not included.

The first cotton was planted in the United States in 1621. It was at first regarded as a curiosity, and was planted in gardens as such. It was 170 years before its value was understood, and the cotton crop of the United States at the end of that time had only risen to two million pounds, South Carolina producing three-fourths and Georgia one-fourth of this amount. But from 1791 the increase of pounds raised was rapid. The United States has led all other countries in the production, even down to the present time.

A negro preacher at Raleigh turned prophet, a few weeks ago, and predicted darkness and a cloud of locusts which would sting to death all the negroes out of the "ark of safety" on the 21 day of October. A great many were alarmed and made a profession—got into the ark. But when the 31 of October came and proved to be a beautiful day without locusts in swarming millions to sting, the negroes began to feel that they had been trifled with, and went for the preacher—but he was gone.

America is again victorious in the international yacht race and the America cup stays on this side of the drink. Another challenge will be sent from Scotland and another yacht will be built to contest for it next summer, but of course they will not win it. The yankees consider the America cup as a future for this side, and will not let it be taken across the water if they can possibly help it.

Nine counties in our State do not issue liquor licenses. Four of them have decided by a vote of the people not to allow it to be sold within their borders, and in the other five the commissioners refuse to grant it. Clay county—which by the way is hard to beat—has never granted a license in the forty years of its existence.

Jennie Lind, who enraptured great audiences in this country and in Europe a few years ago by her singing, is said to be nearing the dark river, and will soon rest in the shade of the trees beyond. The world—almost the entire world—will feel the thrill when it is announced that she is gone.

The laying of the corner stone of the Lee Monument promises to be one of the most interesting events of the present month. It takes place on the 27th instant. Adjutant General Jones is rallying a military representation from North Carolina. It is probable that several regiments of infantry will respond to his call.

The Naval Board has concluded to construct at Norfolk the 6000 ton battleship, authorized by the act of Congress, at a cost of \$2,375,000, which is \$125,000 less than the appropriation provides. It will take about eighteen months to finish the work on this great monster of the deep.

It is calculated at the Treasury that the Government has saved in interest by the prepayment of bonds under the circular of last month the handsome sum of \$3,200,000—not to mention the probably immense financial losses it prevented individuals from suffering.

Members of the Irish parliament party are coming to the United States for the purpose of explaining the condition of affairs at home, to thank the American people for their kindly interest heretofore, and ask a continuance of their support.

Nathan A. Stedman, Esq., died at Fayetteville, N. C., Sept. 28th, aged 81 years. The deceased was a man of high character, and in the prime of life one of the most useful men of the State.

The one cent a mile railroad rates to the State Fair will send many a man and woman who were never there before.

Tennessee only voted to prohibit whisky and brandy. Had it been carried what do you suppose would have been the proof of their wine.

President Cleveland left Washington for his western trip, Oct. 1st, on board the finest train of cars ever seen.

Another stay has been granted in the Jacob Sharpe case, this time pending an appeal to the Court of Appeals.

WRECKS.—In Lake Michigan several vessels went down under a gale, involving loss of life and property, Oct. 3d.

The prohibition amendment was defeated by 15,000 votes in Tennessee, but was carried in Florida.

The sorghum industry is reported as on the increase among farmers trading at Charlotte.

An earthquake of no considerable violence occurred throughout Greece, October 4th.

There have been several cases of cholera on Hoffman's Island, off New York coast.

A Woman Burglar.

Princeton, Ind., Sept. 29.—Five burglars were sentenced to the penitentiary yesterday. One of them astonished the court by announcing that the name Charles Kelly, which was read in the indictment, ought to be Clara King and that she was a woman in male attire. She said she was 22 years old, had been thrown on the world helpless and alone, that she took male attire a year ago to get along better and had this far escaped detection. She was sent to the penitentiary.

NOTICE TO DRUGGISTS AND STORE KEEPERS.

I guarantee Shriener's Indian Vermifuge to destroy and expel worms from the human body, where they exist, if used according to directions. You are authorized to sell it upon the above conditions. David E. Foutz, Proprietor, Baltimore, Md.

The New York Sun has opened its batteries upon President Cleveland and declares that to nominate him is for the Democracy to invite the campaign assured of certain defeat. Just why the Sun is so much concerned in the triumph of the Democratic party is not clear to those who watched the course of that crystallization of inconsistency during the last presidential campaign. Cleveland was elected despite the hypocrisy of the Sun in attempting to assassinate him while professing to be a standard bearer in the Democratic party, and he will be elected again whether the Sun supports him or not.

Chronic Coughs and Colds.

And all diseases of the Throat and Lungs, can be cured by the use of Scott's Emulsion, as it contains the healing virtues of Cod Liver Oil and Hypophosphites in their fullest form. It is a beautiful, creamy Emulsion palatable as milk, easily digested, and can be taken by the most delicate. Please read: "I consider Scott's Emulsion the remedy par excellence in Tuberculous and Strumous Affections, to say nothing of ordinary colds and throat troubles."—W. R. S. CONNELL, M. D., Manchester, O. "I am using your Emulsion Cod Liver Oil with Hypophosphites for an affection of my throat, and the improvements were beyond my expectation."—D. TAYLOR, M. D., Coosawatie, Ga.

News Items.

Typhoid fever has broken out in several districts of Philadelphia, and physicians attribute it to defective sewerage.

Lace robes and silk dresses, valued at \$5,000, were seized by customs inspectors from Miss M. Kennedy, a Boston dress-maker.

The President will not fill the vacancy on the Supreme Court bench until his return to Washington from his Western and Southern trip.

The race troubles in Texas have about quieted down. Two negroes were killed on Sunday, and the leader of the negroes has fled the country.

Great preparations are being made to receive the President at Chattanooga, Tennessee. The citizens are highly elated at his decision to stop with them.

Dr. Edward St. John, who is accused of assisting McGurgle, the Chicago bootler, to escape, has been arrested, and the bootler's lawyers have discovered a new legal point which may liberate them all.

In accordance with Governor Gordon's recommendation, a bill has been introduced into the Georgia Legislature providing for a permanent penitentiary and supply farm, thus abolishing the infamous convict lease system.

The extensive box factory of Maxwell Brothers, Chicago, was destroyed by fire on the 29th Sept., causing a loss of \$125,000, and throwing 308 people out of employment. The planing-mill and sash factory of Lobenstein was also burned at a loss of \$20,000.

Western Carolina.

The Baltimore Manufacturer's Record says:

There is no fairer land, no more delightful climate, no more fertile soil and no more marvelous mineral and timber wealth than is found in the section of country comprising East Tennessee and Western North Carolina. It is indeed a glorious country, and we imagine that Judge Kelly, of Pennsylvania, must have been speaking of this beautiful land when, in a speech after returning from the South he said: "My friends, North Carolina is the most beautiful and richest portion of God's earth upon which my vision or feet have ever rested."

A Recipe to be Miserable.

The best recipe we know, if you want to be miserable, is to think about yourself; how much you have not made, and the poor prospects for the future. A brave man with a soul in him gets out of such pitiful ruts and laughs at discouragements, rolls up his sleeves, whistles and sings, and makes the best of life. This earth never was intended for a paradise, and a man who rises above his discouragements and keeps his manhood will only be the stronger and better for his adversities. Many a noble ship has been saved by throwing overboard its most valuable cargo, and many a man is better and more humane after he has lost his gold.—Inter-Ocean.

The campaign which elects a Legislature to choose a successor to Senator Riddleberger has begun in Virginia, and Riddleberger is in it. He has no idea of remaining idle and allowing the Democrats and Mahone to run the State politics to suit themselves. He has no love for Mahone and not much more for the Democrats. The Republicans of the shore counties will stick to Riddleberger, while those of the interior and east will follow the Brigadier. This factional fight will have the effect of giving the Democrats a fair chance to victory. From present indications it is safe to say that John S. Barbour will soon be a United States Senator from Virginia.

It is a singular comment on the demoralization induced by the laxities of Republican rule that so much should be made of the fact that President Cleveland pays full fare and sleeping-car charges for himself and party during his trip just as any other citizen does when traveling in vacation. There has been no ostentation about the President's delectation of the free facilities tendered him, and it is only the faint finding of the opposition press that has brought the matter to public notice at all.—New York Star.

DRESS GOODS

AND

DRY GOODS.

Our 36 in. All Wool Serge

At 33 1/2 cts. is the Biggest Thing ever offered on this market.

We Have Space only to mention a few Of OUR SPECIAL BARGAINS, But hope you Will look sufficiently to your interest to see our STOCK BEFORE BUYING.

FERTILIZERS.

In short, at their Store you can get whatever you want at bottom prices. All they ask is a chance to prove what they say. JULIAN & WATSON.

North Carolina Superior Court.

Rowan County, October 4th, 1887.

D. A. Ramsay and Tobias Kessler, plaintiffs, against The Royal Fire Insurance Company of Birmingham, Ala., defendants, to recover loss by fire.

It appearing by affidavit and to the satisfaction of the Court that the defendant above named, the Royal Fire Insurance Company of Birmingham, Ala., is a foreign corporation and cannot after due diligence be found within the State, and that a cause of action exists in favor of the plaintiff and against the defendant, which are within this State. It is therefore ordered that publication be made in the Carolina Watchman, a newspaper published in said county, for six successive weeks, commanding the said defendant to be and appear before the Judge of our Superior Court at a Court to be held for the county of Rowan at the Court House in Salisbury on the eleventh Monday after the first Monday of September, 1887, and answer or demur to the complaint which will be filed in the office of the Clerk of said Court within the first three days of said term; and let the said defendant take notice that if it fail to answer or demur to said complaint during the term, the plaintiffs will apply to the Court for the relief demanded in the complaint.
