

# Carolina Watchman.

THURSDAY, OCT. 13, 1887.

## Col. Fred Grant.

The nomination of this gentleman for Secretary of State of New York by the Republicans shows the desperate straits of the Grand Old Party in the Empire State. The only qualification he possesses for this clerical office is in the fact that he is a son of General Grant. This he himself proclaims in his speech in New York last Saturday. Here is the entire speech:

My speech will be very short. I want to thank you for your cordial reception. I would I be elected in November I will try and show that I have inherited the ability of my father, and be faithful to the trust that you impose in me. I again thank you for your cordial reception.

The young man has left us in the dark as to the particular kind of ability he desires to show the people he has inherited from his father—whether his magic power as a soldier, his originality as a statesman, his unparalleled Executive gifts, his intuitive knowledge of men, or his brilliancy as a financier. It must have been the last, as the old General was more distinguished as a financier than in any other capacity.

## Filot Mountain.

This isolated but remarkable mountain is likely to loom up in the world's attention far beyond anything heretofore known of it. A railroad is now completed from Greensboro, via old Germantown, to the base of the mountain, so that it is now a comparatively pleasant trip to visit it. It was recently visited by two Methodist Sunday schools of Greensboro, and several other schools along the route who joined the excursion, making a party of 600 men, women and children. Quite an interesting account is given of it by a correspondent of the Raleigh News-Observer. Only 150 of the party reached the top of the pinnacle, of whom 30 were ladies. The ascent to the top is difficult and somewhat dangerous, as it must be made by ladders. Of course those who reached the top were abundantly rewarded by the magnificent scenery, which is described as very grand and impressive.

## Tin Plates.

The Scientific American says a patent has recently been granted to Mr. William H. Brown, of Jersey City, for a novel process of manufacturing continuous tin plates. The plates are made of steel, and the process consists of producing a sheet of steel of any continuous length and required width by first rolling the metal hot, and afterward rolling it cold, until a proper thickness and perfectly smooth surface is obtained; it is then scoured, and passed through a bath of molten tin, and again between the rollers. It is employed for all the purposes for which ordinary tin plates are used, though the inventor claims for the plates made by this process greater superiority in durability over those of any other.

The Western Carolinian of Hickory, speaks in pleasant terms of the successful working of the prohibition law in Yancey county. It has been in operation for two years, and many of its opponents at the election are now its friends and supporters. Only one man was indicted at the last Court for the violation of the law, and he submitted, paid the cost and gave a bond of \$500 not to violate it a law again. The effects of the law is easily seen on the Court dockets of the county by reducing indictments, &c. They are also evidenced by more liberal attention to schools, and religious matters.

The editor of the Carolinian has recently visited Roan mountain. He was profoundly affected by the scenery, and jots down his impressions and thoughts on the occasion. He concludes his remarks as follows: "The men who believe in God should go there to feel more than ever before that they are in His presence, and the men who don't believe in God should go there to feel as they never felt before and come away asking themselves, 'How can these things be?'"

The Winston Republican arraigns the Democratic Commissioners of Yadkin county on their management of financial affairs after the following style:

"The value of the taxable property of the county is about one and one-half million dollars (\$1,500,000). There has not been a public building erected or a railroad subscription voted since the war, and at the time the Democratic party, under the present Tory system of county government, took control of the finances of the county it was out of debt and its scrip was worth 100 cents on the dollar. Last year the tax on property was 67 1/2 cents on the \$100 and 29 1/2 on the poll. This year, notwithstanding the General Assembly reduced the State tax 5c on the \$100, Yadkin will have to pay 83 1/2 cents on the \$100 worth of property and 27 1/2 on the poll. An increase of 28 cents on the \$100 of her taxable property."

It is possible that a rational explanation can be given for the apparent mismanagement, for there is always two sides to every question.

There is quite a noticeable difference in form between the Scotch Thistle and the Yankee Volunteer, recently contesting for the America's cup, especially on the water line, the Thistle rearing up in front as if it was intended she should mount the waves with greatest possible ease, while the Volunteer sits as gracefully as a duck and well balanced from stem to stern. They were very nearly the same size, the Thistle only about two feet longer than the Volunteer, neither exceeding 60 feet, and the latter three feet wider in the beam than the Thistle, which was 23 to 20 feet.

Seven negro men have been committed to jail at Greenwood, Miss., on the charge of murdering Harry Taylor and his wife (colored). One other arrested on the same charge, gave bond. They are members of a Masonic order, and it is supposed, construe their obligations as such that they must take extreme vengeance on any one who shall cause the death of a brother member. There are several lodges in that part of the State, and citizens are excited in the determination to break them up.

The Atlanta Exposition opened on Monday last. It is a big thing in its way, and will attract visitors from far and near.

The North Carolina State Fair opens next week. Extraordinary efforts have been made to make it an occasion of great interest to the people.

Reduced railroad rates have been provided for those wishing to attend either the State Fair or the Atlanta Exposition.

Another bloody family feud has transpired in Kentucky, resulting in the killing of five persons. The trouble was between the Turners and Sowers, on Yellow Creek, in Bell county; but the fatalities extended to others—the Marshall sent to arrest one of the offenders, and Jim Hains, who was a great friend of the Sowers. Kentucky quarrels nearly always end in blood.

Judge Bond's decision in the Virginia coupon case requires the State to accept the coupons in the payment of taxes. This, it seems, was the contract, as the bonds show. But Virginia pleads her inability to use the coupons for her current expenses, which will be provided for if her taxes are paid in coupons. She has taken an appeal to the United States Supreme Court, but it is thought the case will go against her.

President Cleveland has been received every where in his excursion with marked respect. How much of this is due to the high office which he fills, or to the man who has through the severe trials of official life proved himself equal to the task exacted of him, cannot be known. It is evident we think that Mr. Cleveland is a very popular man and President, and that he will probably be his own successor for the next Presidential term.

Albert Starnes, (colored) of Union county, has been three times sentenced to be hanged, within the last two years, and yet at last escaped the gallows by the pardon of the Governor. This result came about by persistent appeal made to the Supreme Court, and in part by additional evidence obtained on the merits of the case which was thought would have changed the verdict of the jury condemning him.

The President's trip takes in many of the large cities of the West and Southwest, and he and his beautiful young wife have seen much to gladden them in their passage through the country. They have been everywhere received with joyful demonstrations on the part of the people, who have assembled by thousands at depots and along their route to catch a glimpse of them in passing.

Transplanting nut trees has been regarded as running great risk in losing them; but D. B. Weir of Illinois, has disproved the popular notion, and asserts from his own personal experience that nut trees of one, two and three years old may be transplanted with as much safety as any other. He has transplanted thousands of black and white walnut trees and is therefore good authority on the subject.

J. F. G. Mittag has a learned article in the Charlotte Chronicle under the head of "a fact in human nature," in which he deduces from ancient history that "the people of a southern climate should be judiciously crossed by those of a moderately colder climate," that being nature's method of reinforcing those of a southern climate, which is less invigorating than the northern.

The Atlanta Constitution denies the published report that exorbitant charges for accommodation would be made by the hotels and lodging houses of the city during the Exposition in that city. Only four places will charge \$2.50 per day, a few \$2 a day, and the vast bulk of them but \$1.50 per day, including board and lodging.

THOMAS C. MANNING, minister of Mexico, died at the Fifth Avenue Hotel, New York, shortly after nine o'clock Tuesday, of obstruction of the bowels. Mr. Manning was a distinguished son of North Carolina, a native of Eden-ton, a graduate of the University, and gifted as a lawyer. He was about 70 years of age.

Doctors are in doubt as to the true character of the disease which has so fearfully frightened the people at Tampa, Florida. It was announced as yellow fever at the first; but out of 20 cases only two have died, and the cause of death in these cases is in doubt. Some of the doctors think it is the "break-bone" fever.

Hon. John B. Finch, one of the greatest temperance orators in the country dropped dead in Boston last Saturday, just after stepping off the cars, caused by heart disease.

The Scotch cutter Thistle, recently defeated in a race with the Volunteer, is preparing to return to Glasgow. She was offered for sale but no one wanted to buy.

## NOTICE TO DRUGGISTS AND STORE KEEPERS.

I guarantee Shriner's Indian Vermifuge to destroy and expel worms from the human body, where they exist, if used according to directions. You are authorized to sell it upon the above conditions. David E. Foutz, Proprietor, Baltimore, Md.

The Atlanta Exposition is booming—weather fine and crowds attending. One of the incidents of Tuesday was a bicycle race of one mile, which was run in 2 minutes and 49 seconds, Rowe, the world's champion, winning by ten feet. Accommodations for visitors abundant and no extortion practiced by hotels and boarding houses.

Mayor Hewitt, of New York, was hanged in that city and Brooklyn, for stopping an unlawful gambling concern at the fair of the United Labor party; but like a brave and honest man he said he would discharge his sworn duty without regard to popular opinion.

The survivors of southern military prisons held their annual meeting at Worcester, Mass., on the 7th inst. Resolutions were passed asking Congress to recognize the suffering and diseases endured and contracted in prison. Doubtless they are pensioners already on the government.

The Alexander county Journal came out last week in double its usual size. Improvement now seems to be the watchword of the "June Bug" county, and we hope to see Alexander (one of the smallest counties in the State) rated as one of the most important.

The Cotton World's report of the crop for September says: That the Carolinas and Alabama are the only States in the cotton belt that hold up well. The average at this date for the cotton belt is 80.9, against 84.4 last year.

The Knights of Labor have been in convention. The secretary of the general executive board shows that the Order now has but 500,000 members in good standing as against 702,000 last year.

A vein of rock salt, twenty-five feet thick, and another not yet penetrated have been reached at Ithaca, N. Y., in a well 2,230 feet deep, which is to be made 1,000 feet deeper, unless oil or gas is found.

The Merchants' Hotel property in Cortlandt street, New York, located in 1792 by John Van Dalsen for £800, has been sold at private contract for \$135,000.

Four deaths from yellow fever at Tampa, Florida, and about twenty cases. The authorities are using every effort to prevent the spread of the disease.

Receipts of cotton at this port this season 40,996 bales, which exceeds the receipts of last season 23,394 bales.—Wilmington Messenger.

The evictions by an English syndicate in Northwestern Ohio, equal in barbarity anything of the kind that ever occurred in Ireland.

An attempt to rescue a drunken man from certain death on a railroad track in Philadelphia, resulted in the killing of the rescuer by a train.

SKIPPED—The cashier of the Merchants & Miner's Bank of Iron Mountain, Michigan, carrying over into Canada \$15,000 of the Banks money.

## A Word to Young Men.

If young men wish to succeed in business, they must not spend their time and money in having simply a good time. They must not be discontented with the little place they are in, because they think they are too big for it. The way to get into a large place is to outgrow the one you are in—grow until it is so small that it will not hold you any longer. A man who simply sits shrunken up and worthless in a little place, because he thinks it is not worth while to grow enough to fill that place, has little prospect of getting into a larger one. Fill the place that you are in. Study ahead of where you are. Fit yourself, for higher usefulness. To do that, you must do something besides play, though that may be innocent in itself.—Rev. M. J. Savage.

## Chronic Coughs and Colds,

And all diseases of the Throat and Lungs, can be cured by the use of Scott's Emulsion, as it contains the healing virtues of Cod Liver Oil and Hypophosphites in their fullest form. Is a beautiful, creamy Emulsion palatable as milk, easily digested, and can be taken by the most delicate. Please read: "I consider Scott's Emulsion the remedy par excellence in Tuberculous and Strumous Affections, to say nothing of ordinary colds and throat troubles."—W. R. S. CONNELL, M. D., Manchester, O. "I am using your Emulsion Cod Liver Oil with Hypophosphites for an affection of my throat, and the improvements were beyond my expectation."—D. TAYLOR, M. D., Coosawatie, Ga.

The N. Y. Star reports the subscriptions to the Grant Monumental fund to 11th October instant, as amounting to about \$20,000.

Astronomers at Moscow went above the clouds in a balloon to witness the eclipse of the sun, Aug. 19, the day being cloudy.

Russia sends to a firm in Raleigh for tobacco flues for curing tobacco.

For constipation, "liver complaint" or biliousness, sick headache, and all diseases arising from a disordered condition of the liver and stomach, take Dr. Pierce's Pleasant Purgative Pellets—a gentle laxative or active cathartic, according to size of dose.

## North Carolina Rowan County,

Superior Court. October 4th, 1887. D. A. Ramsay and Tobias Kesler, plaintiffs, vs. The Royal Fire Insurance Company of Birmingham, Ala., defendants.

It appearing by affidavit and to the satisfaction of the Court that the defendant above named, the Royal Fire Insurance Company of Birmingham, Ala., is a foreign corporation and cannot after due diligence be found within the State, and that a cause of action exists in favor of the plaintiff and against the defendant, which are within this State. It is therefore ordered that publication be made in the Carolina Watchman, a newspaper published in said county, for six successive weeks, commanding the said defendant to be and appear before the Judge of our Superior Court at a Court to be held for the county of Rowan at the Court House in Salisbury on the eleventh Monday after the first Monday of September, 1887, and answer or demur to the complaint which will be filed in the office of the Clerk of said Court within the first three days of said term; and let the said defendant take notice that if it fail to answer or demur to said complaint during the term, the plaintiff will apply to the Court for the relief demanded in the complaint.

J. M. HORRIG, Clerk Superior Court, Rowan County.

## WANTED!

Miners and Wood Choppers, At the Appalachian Mine, Montgomery county. Apply at once to COL. HARRY MCCOY, Eldorado P. O. Manager.
