Peanut; vs. Cotton.

"Ah," said an old farmer Monday, " can't stand the labor of picking out cotton-it is the hardest work on the farm for me. I sha'l raise peanuts hereafter, for I think they will pay better than cotton and with less labor."

Peanuts have been raised in this section for a long time in small lots, only a few persons aiming to produce more than for family use. They grow very finely in the sandy soils of the county, and the best we ever saw were raised by Mr. A turkey cock on the farm of Mr. J. Denny, living near Heilig's Mills. They

NORTH CAROLINA AT ATLANTA.

The Richmond & Danville Railroad Company's exhibit at the Atlanta Exposition is certainly the finest mineral display ever made in the South. Capt. C. C. Mc-Phaill, ably assisted by Mr. Green, deserves the hearty gratitude of every owner of real estate in North Carolina as the finest and best woods and minerals in his collection are from this State. A celebrated mineralogist on the Exposition grounds on Monday, declared if such a magnificent display were made in London, Paris, and Berlin, there would be a rush of immigrants to the country of the Piedmont Air Line never equalled by the countless throngs to the West.

As a crowning feature of the mineral department there were on exhibition nearly one thousand cut gems from the collections of the Marion Bullion Company and the Marion Improvement Company of this State. Col. H. C. Demming. the secretary and general manager, super- ROSS & MCGUBBINS. intended in person their arrangement and classification on Monday, and answered the legion of questions from the immense throngs that gathered around the large show cases. In one case the gems were arranged in the form of an immense cornucopia, with the words "North Carolina" on the side, cunningly arranged by the p'acing of various small gems, From the mouth of the cornucopia specimens of 54 varieties of minerals and geme poured out as the product of two mines of the State. Underneath the cascade of gems was a representation of the world in numerous beautiful crystals, the intention being to represent to the visitor that North Carolina is good for a world's supply of gems and minerals if the demand

Among the precious stones on exhibition were several diamonds, (including the large twin diamond found last autumn in McDowell county,) rubies, sap-

ROCKS AT THE PAIR.

The State Department has set up again, in fair shape, the immense collection of gold, silver, copper, lead, zinc and iron ores collected for exhibit at Boston and New Orleans. This collection embraces times. hundreds of specimens, and shows at a glance the extent, variety and wealth of the States' mineral resources. This collection includes all the building stones, Bob White and Crystal marls, phosphatic rocks, soils, &c. Besides these there are the crystals, gem stones, cut and in the rough, nuggets of gold with the rarer forms of its occurence Winston to Miss Daisy, daughter of Mr. displayed. Then there is the illustration of the forest wealth of the State, shown The beautiful marriage service of the in the several most approved ways; discs Methodist church was conducted by the of the stem of the tree and sections of the pastor, Rev.
