It gave me instant relief and entirely cured me and I have not been afflicted since. I also beg to state that I had tried other remedies with no good result. ## The Prosperous South.

The remarkable industrial and commercial progress made in the southern States during the last few years has been widely noticed. An important feature of this is found in the comparative freedom from labor troubles, which in nearly every other section of the country have caused so much disturbance. Leading southern papers have recently called the attention of manufacturers and others to this as an inducement to embark in southern business enterprises, and this, with natural advantages at the south, has induced many to start in businesss there.-Bradstrects.

is scanty and high colored, depositing a sediment after standing. There is frequently a spitting up of the food, some-times with a sour taste and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired, with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our popu-lation has this disease in some of its varied forms.

It has been found that physicians have mistaken the cause of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., etc., but none of these kinds of treatment have been attended with success; for it is really constipation and dyspepsia. It is also found that Shaker Extract of Roots, or Mother Seigel's Curative Syrup, when properly prepared will remove this disease in all its stages. Care must be taken, however, to secure the genuine article. IT WILL SELL BETTER THAN COTTON.

Mr. John C. Hemptinstall, of Chulafirmee, Cleburn Co., Ala., writes; "My wife has been so much benefited by Shaker Extract of Roots or Seigel's Syrup that she says she would rather be without part of her food than without the medicine. It has done her more good than the doctors and all other me licines put together. I would ride twenty miles to get it into the hands of any sufferer if he can get it in no other way. I believe it will soon sell in this State better than cotton. TESTIMONY FROM TEXAS.
