THURSDAY, MAY 3, 1888.

AN EXCITING DAY.

Ingalls on the South.

WE WAIVE THE BLOODY SHIRT.

By Telegraph to the Charlotte Chronicle.

WASHINGTON, May 1.—In the past 20 years of the Senate's history no such excitement has prevailed as that of today.

Political Points

From the information which reaches this place from Alexander, Wilkes and Yadin, it is inferred that the Democrats of these counties are practically solid for Judge Fowle for Governor.

The township Convention of Hendersonville instructed its delegates to vote for delegates in the County Convention who would vote for Judge Fowle for Governor.

Ex-Representative Frank Hurl, addressing the Yale Law School on "Tariff Reform," said: "The protective tariff is levied to protect the manufacturer alone."

"Trusts are being organized on every hand to limit production and enhance prices. The trusts are possible under the present tariff system, and are organized to refuse to the people the very things promised to them by that tariff."

April Crop Report. For most parts of the State, the rainfall since last report has been the chief cause of complaint.

CONDITION OF WHEAT. The condition of the wheat-plant is reported more than two points ahead of the March estimate.

CONDITION OF OATS AND RYE. In some parts of the State there is complaint of failure of oat crop from rain and overflow.

CONDITION OF ORCHARDS. The condition of orchards in the State is gratifying, as in most all parts of the fruit growing sections reports are favorable.

PREPARATION FOR ALL CROPS. In response to the question: Remarks on preparation for general crops, the only cause of complaint was wet weather which has delayed work in many sections otherwise all is moving well.

CLOVER, MEADOWS AND PASTURES. The condition of clover fields, meadow and pasture lands is reported at 90 for the State.

DOES COMPOST PAY. 94 per cent. of the replies to this question were in the affirmative.

LABOR. The average complaint of the inefficiency of labor has decreased, and the report this month gives an average of 86 1/2 against 80 1/2 for last month.

A Typewriter of 1829. A Washington correspondent of one of our daily papers says that evidence is about to be filed at the United States Patent Office which bids fair to prove that after all there is nothing new under the sun.

Washington Letter.

WASHINGTON, April 30, 1888. Cleveland and Gray is a favorite ticket with a great many democrats in Congress, and at this time it looks very much as if this same ticket might be the choice of the St. Louis Convention.

Secretary Whitney of the Navy Department is noted for his liberality. He never does anything on a small scale. On Saturday last he chartered at his own expense two special trains and carried 350 Congressmen, officials and newspaper men over to Philadelphia to witness the launching of the first two vessels for the new Navy.

The tariff is the absorbing theme in the House of Representatives, where it will hold the right of way for the next fortnight. So far revenue reformers have no reason to be ashamed of the figures made by their champions in the fight.

On Friday, Mr. Tarnsey, of Michigan, who has been claimed by the republicans to be opposed to the Mills bill on account of its putting lumber and salt on the free list, made a speech placing himself in line with the President.

Gen. Joseph E. Johnson, our present Commissioner of Railroads, and the highest in rank of living officers of the Confederate army, has been, at his own request, elected an honorary and contributing member of E. D. Barker Post G. A. R. of Philadelphia.

A bill has been favorably reported to the Senate which provides for the erection of the public building in every town where the gross postal receipts have averaged \$3,000 per annum during the past three years.

Senator Voorhees made a speech on the President's message in the Senate last week that has attracted considerable attention on account of the plainness of some of its statements in regard to the treatment of the South.

Both the Senate and the house have passed the bill to prohibit book and pool making in Washington and Georgetown. This is a game in which Senators and Members of Congress are disposed to indulge to a considerable extent, as they will this week at the race track beyond the city limits.

Charged with Embezzlement. J. A. Vernon, an agent in the employ of the Singer Sewing Machine Company, and who had territory in Rowan county, is charged with embezzling the funds of the company to the amount of \$450. A warrant for his arrest was sometime ago sworn out before D. G. Maxwell, and placed in the hands of Mr. McCrackin, an agent of the company, who was commissioned special deputy to arrest Vernon, in case he met with him in his travels.

Hot Water for Ivy Poisoning.

To the Editor of the Scientific American. Let me add my testimony to that of Mr. J. Burroughs as to the efficacy of hot water in curing the poison by ivy.

CENTENARIAN PRINTERS.—At Mount Jerome Cemetery, Dublin lately, was buried Pattison Jolly, aged 104, probably the oldest printer in the world.

The United States Senate, in one hour and a half, adopted 127 pension bills. Republican Senators never require much time or thought or speech when a raid is to be made upon the pockets of the people.

Dr. R. B. Anderson, wife and daughter, Miss Lila, returned home last Monday, after an absence of four months in Florida, and South Carolina.

BUY YOU A CLOCK.

If in town you chance to drop, Buy yourself a clock; The kind of clock—what is a clock? That will keep good time And run like a rhyme, And cost you nix for a year.

Now, of clocks I a large assortment have got, That must go and go cheap for each on the spot; In nickle, wood, and marbled iron, All the latest designs you surely will find, From the little tick tick to the big tock tock.

I have clocks for all people, the rich and the poor, From \$1.25 to \$18 in store. And clocks—what is clocks—nothing less, nothing more, And that for the cash they pass out of my door.
