The advance sheet of the "American Agriculturist" for July, 1888, says: "There ought to be no difficulty in raising (in the United States) all the cabbages we need, and yet enormous quantities are imported from Holland, Germany and Denmark." This should be regarded as an astonishing announcement to the farmers in this country, and will be perhaps, to some of them But it is no new thing. These foreign cabbages are mostly consumed in the large cities of our country. They are sent over by ship loads to the seaport towns and from thence many are sent out over to the interior towns and cities. J. D. McNeely has often sold not only foreign raised cabbages, but turnips and onions to the people of this goodly region of the Old North State, whose general soil will readily produce these vegetables in abundance. But the foreign dealers in these articles are careful in their selection; they never send to market an inferior article. They send the best, and if truck raisers in this country shall attempt to compete for their home market, they need not expect success unless they put on the market first class products.

Mr. A. B. Gillespie, editor of the now suspended *Weekly Mail*, was recently before Judge Conner, in Iredell Superior Court, on the charge of assault and battery. He was found guilty and his adversary acquitted, and the Judge required a bond to keep the peace. Mr. G. thinks, or seems to think, that he was unfairly dealt with, but that is the opinion of almost every defendant when a suit goes against him.

The Power of Kindness.

There is no power of love so hard to get and keep as a kind voice. A kind hand is deaf and dumb. It may be rough in flesh and blood, yet do the work of a soft heart and do it with a soft touch. But there is no one thing that love so much needs as a sweet voice to tell what it means and feels; and it is hard to get and keep it in the right tone. One must start in youth and work and play, to get and keep a voice that shall speak at all times the thoughts of a kind heart. It is often in youth that one gets a voice or a tone that is sharp, and it sticks to him through life, and stirs up ill-will and grief, and falls like a drop of gall on the sweet joys of home. Watch it day by day as a pearl of great price, for it will be worth more to you in days to come than the best pearl hid in the sea. A kind voice is to the heart what light is to the eye. It is a light that sings as well as shines.

Salisbury, N. C., June 8th-1888

NORTH CAROLINA DEMOCRACY.

Platform of Party Adopted in State Convention at Raleigh, May, 1888.

We again congratulate the people of North Carolina on the continued enjoyment of peace, good government and general prosperity under Democratic administration of the affairs of the State, which has now been unbroken for so many years; upon the just and impartial enforcement of the law; upon the increasing efficiency of our common school system, and the progress made in popular education; upon the improvement and enterprising management of all parts of the State. We again challenge a comparison between this state of things and the outrages, crimes and scandals which attended Republican ascendancy in our borders. We pledge ourselves to exert in the future as in the past our best efforts to promote the best interest of the people of all sections of the State. If draining our adherence to Democratic principles as heretofore enunciated in the platforms of the party, it is hereby Resolved, That no government has the right to burden its people with taxes beyond the amount required to pay its necessary expenses and gradually to extinguish its public debt; and that whenever the revenues, however derived, exceed this amount, they should be reduced, so as to avoid a surplus in the treasury. That any system of taxation which necessitates the payment of a premium of \$270 by the government on each \$1,000 of bonds, taken up with the State, that would otherwise lie idle in its vaults, and paid to bondholders who purchased in many instances, at less than par, is undemocratic, oppressive and iniquitous and should be reformed. The course of our Democratic Representatives in Congress, in their efforts to give relief to the people from burdensome internal revenue and tariff taxation, meets with the approval of the Democratic party of this State and we respectfully recommend that if they find it impossible to give to our people all the relief demanded, they support any just and practical measure presented in Congress that will afford a partial relief from such existing burden.

Resolved, That while the details of the methods by which the constitutional revenue tariff shall be gradually reached are subjects which the representatives of our people at the national capital must be trusted to adjust, we think the customs duties should be levied for the production of public revenue, and the discrimination in their adjustment should be such as will place the highest rates on luxuries and the lowest on the necessities of life, distribute as equally as possible the unavoidable burdens of taxation, and counter the greatest good on the greatest number.

Resolved, That we, as heretofore, favor, and will never cease to demand, the unconditional abolition of the whole internal revenue system, as a war tax, not to be justified in times of peace; as a grievous burden to our people and a source of annoyance in its practical operations. We call the attention of the people of the State to the hypocritical pretensions of the Republican party in their platforms that they are in favor of the repeal of this onerous system of taxation, enacted by their party, while the Republicans in Congress are taxing their energies to obstruct all legislative enactments by the representatives of the Democratic party to relieve the people of all or part of this odious system.

Resolved, That the course of the Democratic party, in furtherance of popular education, is a sufficient guaranty that we favor the education of the people, and we will promote and improve the present educational advantages so far as it can be done without burdening the people by excessive taxation.

Resolved, That to meet an existing evil, we will accept, for educational purposes, from the federal Government a *pro rata* share of the surplus in its treasury; provided, that the same be distributed by state agents and the bill for the distribution be free from objectionable features.

Resolved, That the United States being one government and ours a national party, we denounce the efforts of the Republicans to force sectional issues in Congress and elsewhere, and to compromise the honor and integrity of the people of the different sections of our common country.

Resolved, That it is due to the people of our eastern counties, who have so cheerfully borne their share of our common burdens, that the present or some equally effective county government should be maintained.

Resolved, That the Democratic party is opposed to any further extension of the "No-fence" law, unless such extension shall have first been authorized by a majority of the qualified voters within the territory to be affected thereby.

Resolved, That the Democratic party has ever been the party of the workingman, and has never fostered monopolies, nor have "trusts" or "combinations" or "pools" ever grown up under laws enacted by it. The contest in this country being between aggregated capital, seeking to crush out the competition, and the individual laborer, the Democratic party is, as it has ever been, against the monopolist and in favor of a just distribution of capital, and demands the enactment of laws that will bear equally upon all.

Resolved, That as all taxation bears most heavily upon the laborer, it is the duty of the legislator, as a direct benefit to the workingman, to keep the expense of our public institutions at the lowest limit consistent with wise and efficient management. The Democratic party opposes any competition between free and convict labor, but it insists that convicts shall not remain idle at the expense of honest labor.

Resolved, That our being an agricultural State, it is our duty as well as our pleasure to promote any and all legislation that is best calculated to advance the interests of agriculture; and that so doing will most effectually advance the interests of mechanics, manufacturers and laborers.

Resolved, That the Democracy of North Carolina, cordially approve the administration, of Hon. Alfred M. Scales, as honest, patriotic and conservative.

Resolved, That the ability, wisdom, honesty, patriotism, independence, faithfulness to duty, and manly courage of President Cleveland have won the admiration of all good men; and the interests of the country demand his re-nomination and his re-election.

List From a Tax List Maker's Diary.

List Taker—"Good morning, Mr. —, what can I do for you to-day, sir?"
"My father—" "Vell, look for my tax return."
"All right, sir. What is your age, my friend?"
"Ish about sefenty three years old."
"All right. Is your land the same as it was last year?"

There is over seven miles of pipe laid.

THE PERPETUAL BUILDING AND LOAN ASSOCIATION.

This association was organized nearly two years and a half ago. It now has about 1230 shares of stock in the five series it has issued. It has about \$30,000 loaned out on property worth twice that much. It has never lost a cent. Its net profits have always exceeded 8 per cent. per annum. It has been the means of building about 40 houses and enabling about as many families to procure homes.

SALISBURY IMPROVEMENT ASSOCIATION.

This association is composed of some of our best business men, with Theo F. Kluttz, President and I. H. Foust, Secretary.

At the first meeting the following resolution was adopted which shows the object of this association.

It was resolved, that: It shall be the duty of every member of this Association who knows that any one is visiting our town with a view of locating to report it at once to the President, who shall appoint a committee to show him the town and prevent his being imposed upon, in any purchase he may make.

The committee on correspondence are Messrs A. H. Boyden, J. D. McNeely, F. J. Murdoch, I. H. Foust, and J. Z. Scholtz. Any of these gentlemen will take pleasure in answering any inquiries about our town which they may receive.

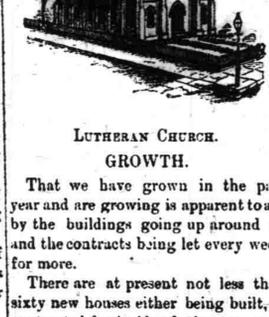

THE PRESS.

The Press consists of four papers, the *Herald*, *Truth*, *Press*, and *Watchman*. There is also a colored paper printed here under the auspices of Livingstone College: *The Star of Zion*.

HEALTH.

Salisbury is one of the most healthy towns in the State, the death rate being as low if not lower than any other place of the same size.

We have never had but two grave yards, one of less than an acre, and the other of less than two acres, and still there is plenty of room.

LUTHERAN CHURCH.

GROWTH.

That we have grown in the past year and are growing is apparent to all, by the buildings going up around us and the contracts being let every week for more.

There are at present not less than sixty new houses either being built, or contracted for inside of the corporate limits. Salisbury to-day is very different from the Salisbury of five years ago. At that time what we now call Brooklyn, east of the N. C. R. R., was almost considered out of town, but now it is built up thickly with handsome residences, and the same can be said of several other localities. We cannot begin to enumerate the new buildings that have sprung up in the past year.

THE OUTLOOK.

With all our advantages, with the steady growth that has been going on in the past few years, with all the crude articles of commerce at our doors ready to be manufactured, and with the almost inexhaustible forests of timber near us, surely the outlook is good.

What we need is capital from outside; capital to manufacture our timber into wagons, spokes, buckets, farming implements, and everything else that can be made out of wood; capital to build woolen mills, capital to turn all the crude articles that are now being lost into manufactured goods.

To parties who are now looking for a place to invest their money, we extend a hearty invitation to come and see what is here. Our people will show them all the courtesies possible, and will take pleasure in giving them all the information they can, and any person can see at once by the buildings and improvements that we are growing, and in a good sound business way.

WHITENING LINEN WITH POTATOES.

—According to L'Industrie Parisienne, a laundryman in the vicinity of Paris has discovered a very ingenious method of cleaning linen without soap. He uses no soap, lye, nor chlorine, but replaces these substances by boiling potatoes, with which he rubs the linen. The curious process, it appears, is much superior to those hitherto employed, and the worst soiled cotton, linen, or silk, cleaned by this method, are made whiter than they could be by the use of an alkali. Besides, the method has the advantage that brushes can be dispensed with, and well water be used.

Personal.

Mr. N. H. Frohlichstein, of Mobile, Ala., writes: I take great pleasure in recommending Dr. King's New Discovery for Consumption, having used it for a severe attack of Bronchitis and Catarrh. It gave me instant relief and entirely cured me, and I have not been afflicted since. I also beg to state that I had tried other remedies with no good result. I have also used Electric Bitters and Dr. King's New Life Pills, both of which I can recommend.

Dr. King's New Discovery for Consumption, Coughs and Colds, is sold on a positive guarantee.

This bottle free at T. F. Kluttz & Co's Drug Store.

We Tell You Plainly

that Simmon's Liver Regulator will rid you of Dyspepsia, Headache, Constipation and Biliousness. It will break up chills and fever and prevent their return, and is a complete antidote for all malarial poisons, yet entirely free from quinine or calomel. Try it and you will be astonished at the good results of the genuine Simmon's Liver Regulator, prepared by J. H. Zelin & Co.

Trained mechanics.

It is a notable fact, and one, too, not generally known, says the *Industrial World*, that some of the "best-around" mechanics, i. e., those who can turn their hands to all kinds of general machine work, are men who learned their business in small shops, where all sorts and all classes of work are done. An ingenious, thinking man placed in such a shop has the best possible chance to develop all the talent there is in him. The hundred and one little jobs that he is called upon to do, and in these ways means, and in these ways he will grow to be a man fertile in resources, dexterous in touch, and ready for nearly any kind of work which may come along. Now mark the difference: A man trained in a large shop, with its score or more of departments, learns or works through as a rule one, two or three different departments, of course becoming an expert in the several branches; but should occasion arise for him to do some particular work of which he has but a slight knowledge, he is out on his latitude, and makes poor progress, simply because he has not done any kind of work; while the man trained in the small shop can adapt his hand to almost anything which turns up.

Wonderful Cures.

W. D. Hoyt & Co., Wholesale and Retail Druggists of Rome, Ga., says: We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for two years. Have never handled remedies that sell so well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always.
