trials which at ease will be fought; I've looked o'er the pages of trouble, and jotted the items all down. And at last I've decided we'd better be moving off to town.

"I know the old place is a relic that we always intended to keep,

And we shall, for we'll rent it to some one who knows how to plow and to reap; Yes, we'll rent the old homestead, not sell it, so you needn't begin with a frown,

Then, after the thing is all settled, we will take our departure for town. "This matter I long have considered, and now then I think it is best.

seek this new Eden of rest. We must try to be up with the fashious-O pshaw! we're not any too old, Not a very I'm sixty and you're about fifty. big figure all told.

That we rent out the lands and the house, an

"I've purchased a house of a townsman, 'tis fully two good stories high. thought i I got it at pretty low figures, so

inside the mansion and out, The whole thing was bought at a bargain, for I think I know'd what I was about. "You see we can take up our quarters, and

you, if good fortune attends, Can put on your best new apparel and call on your fashionable friends; While I, with my latest cut trousers, and you with your new pin-back gown-Why, the papers are bound to take notice, and

say we're residin' in town. "To be sure! we'll be ever so 'tony'-I guess that's the word that they use; They'H invite us to dinner and supper, and

mad if we dare to refuse. Well rent a new church-pew and buy new books and should the good people desire, Our assistance, we'll lend to the calling and send forth our notes in the choir."

So the farmer, good soul, found a tenant, a mar that "could see to affairs," And he rented the premises safely and droppe

agricultural cares. He drew up the rentable papers and copie them off in his book, And now that the business is settled, let's go into town for a look.

"Why, Solomon! what is the matter, is ther anything out of the way? I've been thinking I'd tell you of something. and I guess I will do it to-day: You know I attended the social-they didn'

give me an invite, And my feelings were never so shattered as they were on that very same night.

"I heard one pround feminine critter make diff'rent remarks about my face, And one of 'em said how my speeches didn't fit in their natural place; I never did sleep with a grammar, so I tried to

But I guess how if I dared say it, I could told which of us was the fool. And the farmer agreed with his helpmate, he'd

keep perfectly cool.

a trial of a similar kind, He said it had badly hurt, and was preying just then on his mind. And taking affairs altogether, combining the grammar and face.

Why, he thought that "if Betsy was willing they'd just move back on the place."

## Farm and Garden Notes.

Don't plant a mortgage on your farm, it never yields a profitable harvest.

Vegetable seeds of most kinds are still good at the second year.

peanut very extensively as food for with the labor employed in its care, the Endeavor to keep hens instead of pul-

lets, as the eggs will then be more uni-A horse appreciates a comfottable fit-

tingharness as much as he does a properly of the product of the farm, the next fitted shoe. Carolina tar applied to the cracks and

crevices of hen houses, is beneficial from a sanitary point of view.

Farmers are buying more liberally of well-bred hogs just now than any other kind of breeding stock.

"Agriculture," said George Washington, "is the most healthful, most useful and most noble employment of man." Who can give from his own experience

the price at home, in the average year, at which fat hogs can be sold at a profit? The farmer of to-day must study the principals of breeding and feeding stock,

as much as the best methods of grain-Country lard will be in demand as long as a compound is on the market labeled pure leaf lard that only contains twenty

per cent. of pure lard. When egg production alone is your object you need no males. The hens will lay as well without them (sometimes

better), and the eggs will keep longer. When the thermometer is down near zero, never put a frosty bit into a horse's mouth without warming it; if you don't know why, just touch your finger to it

## The Wood Lot.

and you will find out.

Every farm, however small, should, if tric current is sent through the wire, of needle thrust through the lining of the possible, have its wood lot. Besides the such strength as to keep it at the proper pad, to shift this stuffing in such a way supply of summer fuel, it is very convergedness to answer the desired required as to remove the pressure from any nient if one needs a post or a few rails for ments of temper. As the heating is not part of the animal's back which may repairs to go there and select them. In done in contact with the air, but is encutting our trees reference should be had to the welfare of those that are left. It pick up the chips and take them to the wood shed; when seasoned, they will be found most useful. The tops cut from the found most useful. The tops cut from the and the wire or ribben is finished by bered, there are no railways, no rivers, trees that have been felled should not be means of rolls. The process is also ap- no canals, and only one road, that left to litter the ground. Some of the plied to a number of springs besides from Kasvin to the capital (except a large branches may be sawed and split to those for watches, including piano- few that have been made for the Shah's add to the wood pile. The spray may be cut into suitable lengths for pea brush. These may be neatly stacked on a bare spot, the buts all one way, and the stack weighted with some heavy timbers to flatten the brush so that it may dry in a fan-shape; thus it will go much further in world is a chestnut near the foot of use, and look much neater than if allowed Mount Ætna. The circumference of three different ways and his friends to dry without this precaution. Cut out the main trunk is 212 feet. all the undergrowth, and add to the stock of pea brush, saving the useful or ornamental shrubs, such as Flowering Dogwood, Viburnums, etc., as well as young trees that are to grow up to re-place those that are felled. If there is excess of these, cut out the surplus but leave the hardwood trees to grow. Maple and hickory trees are worth far more to the farmer than sassafras, basswood or other softwood kinds .- American

Do you want to sell your farm? This is the way: Grow rye and sell the grain and straw, keep but little stock and market the hay.

Agriculturist.

### BUSINESS METHODS. The Need and Value of Them on the Farm Hints and Suggestions on Matters of In-

and in the flouse. Probably no occupation in which

not mastered the art of successful there are green velvet revers. farming, nor has the man who knows his fields to the best advantage, raise women who do not feel just satisfied ments of knowledge and many more. There's every convenience we're wanting both It used to be said that any fool could cal tastes, and a comfor able and suitaeducation.

methods of farming can be made to pay. Agriculture has become recognized as the markets of the world. The products of the cheap labor of foreign countries are also emptied into our midst to glut our markets. The farmer upon the worn soils of the older States must look closely to the details of their business or go to the wall.

What would be thought of the mer chant who would sell goods from his counter without knowing their cost? What would be thought of the manufacturer, who did not know, to the fraction of a cent, the cost of the raw material and labor put into a yard of cloth? both wide and narrow. And yet how many farmers can tell the whether they are making or losing.

acre with the interest on its value, the Post. probable amount of fertilizing material used by the crop, the cost of labor in its care. Credit it, with the market A Country Where Poor People Live on value of the crop produced. The difference between the two will represent

the profit or loss. A like account should be kept with the herd of cows, or, better, if practicable, with each one separately. If any one of the herd entails a loss upon you, dispose of her. Keep a strict account with the orchard, if you have one, and if you have not, set out one at once if Georgia farmers cultivate the Spanish you have a suitable location. Debit it harvesting of its fruit, and the dressing used upon it. Credit it with the value of its golden products, and learn from the balance on the right side of the ledger that it is one of your best friends.

Having learned to calculate the cost business requisite is to know how to sell the surplus. Make a study of the markets, and learn for yourselves the prices of those things you wish to sell. If you can not fix your own price you can at least prevent being taken adthen calculate from all the information these questions: What is the visible supply and what the probable demand? How much of this product have other countries to pour into our markets? How much will the article I wish to sell shrink or deteriorate by keeping? Exercise your reason and bring to bear upon the subject your best business ful farmer must know how to raise good crops, know their exact cost, how and when to sell. He must ever be on the alert for every iota of information that pertains to his calling .- E. C. Burrows, in St. Paul Globe.

Tempering Steel by Electricity. plied for tempering watch-springs and above the withers of the animal, and other forms of spring steel, whether in the padding is nowhere less than six the form of ribbon or wire.
