The Law of Libel.

The State Chronicle, whose editor to the libel suit recently brought to be published by Belford, of New against our neighbor, the Davie Times, by one Prof. Leigh, who had taught school at Cana, very justly says:

In this connection we may say that to provide that no action or prosecution shall be maintained for the publication of any matter of legitimate interest to the public, if such publication is made without malice, and if the author or publisher thereof causes effectual retraction true or mistaken in such publication as soon as practicable after being requested to do so by the person aggrieved by the original publication. That would do justice to all and be in keeping with the progress of the age. Our present law is good in a country where only monthly magazines are printed but is not in keep. magazines are printed, but is not in keeping with the progressive spirit of to-day, and is a hardship upon honest editors.
