### Are the Rpublicans Communists. N. Y. Herald,

The warehousing and Sub-Treasury cheme of the Farmers' Alliance has and a prolonged hearing before the Ways and Means Committee, by which the Alliance people are greatly encouraged. Mr. Livingston, the head of the organization, in his address said, very fairly, "I want the committee to report the bill to the House, either favorably or favorably, and let it be ventilated, in the House."

If the Alliance can force the committee to report the bill there will be some curious squirming among the legislators. In the committe hearing Mr. Flower and McMillin, both demecrats, were the only memlers who, by question and discussion, showed up the absurdity of the bill. Mr. Oates, of Alabama, also a democrat, has come out in opposition to the A liance programme in his State.

On the other hand, Senators Stanford and Cullom, both Republicans, have bills in the Senate directing the government to lend money to farmers on their land, and Mr. Stanford made an elaborate speech in favor of his communistic measure.

Mr. Livingston, the head of the Alliance, is evidently a man capable of drawing a local conclusion. Being of men Lee would never have been of that kind-If this is not a paterreplied, "Because they are protected already"--in the McKinley bill, of

Mr. Flower exposed very clearly and fully the results sure to come from the Alliance bill, but Mr. Livingston's reply to all that was that the farmers have been paying the bill long enough and now want to be included with the rest of the country-in what ever good things are going.

The Alliance fills the minds of the republicans with terror. It is strong and self-asserting in many republican districts, and its leaders have the shrewdness to preach the doctrine that if high tariffs are right to protect the favored manufacturers and if the McKinley bill is right, which greatly increases this favoritism, then the farmers, who have borne the load of high tariffs for many years, have a right to their share also of the general

If the Alliance leaders are wise they will not consent to have their bil smothered in the Ways and Means Committee, but will demand that it be reported to the House for debute. It is an absurd and com nunistic measure, but not a bit worse or more unreasable than the McKinley Tariff bill, and the Alliance has as much right as the fav-This is the day set apart for unveil- ored manufacturers to have its measure
