### POSTER, STEVENS, & CO.

Grand Rapids, Mich., Sept. 9.-Gentlemen: As important and rather radical advances in prices in some articles in the hardware line are daily taking place we wish to say a few words so els; one acre produced 471 bushels. you may more fully -understand - the situation and not think that the jobber is overcharging.

### AXES.

There is not but one axe company in the United States, and that is called the American Axe and Tool Company. with headquarters at Pittsburg. This company has purchased outright every axe factory in the country of any importance, and thus controlling the prices on an average \$1 a dozen. This company also compose the manufacture of axe polls, or the heads of axes, the machinery of which is patented and this enables it to keep the price on polls per bushel.) so high no one else can afford to make els and forty-seven pounds, (of sixtyaxes,

### SAWS - HAND AND CROSS CUT.

In this industry the same forces have been at work, and to-day there are only two companies which manufacture hardware where there were a dozen four months ago, Prices in this line of goods have advanced from 10 to 50 a foot,

### LEAD.

Everything made of lead has taken a decided advance, owing to recent decisions on the admitting of Mexican ore into this country, as well as by combinations of manufactures, Shot, lead pipe, pig, lead, solder, babbit metal have all advanced, and may go still does not please the heirs, is of course, higher. The passage of the silver bill also affects all articles made of or coated with silver. In the hardware line plated knives and forks, spoons, &c., will be affected and advances made.

The present tariff on sheet tin is one cent a pound and the McKinley t ifoill, which will ro doubt pass both houses of Congress, advances the duty to 2 1-10 cents a pound, This must. of course, advance tin from \$1.25 to \$3 a box, according to the weight of said box. This advance on sheet tin will affect all articles of tinware, and advances will be made all along Laborers both white and colored at Betty Baker and Paint Bank Mines, Car-

Tin in New York has already adwanced from 50 cents to \$1 a box and miles from Mount Airy and Cape Fear is growing stronger each day, as the & Yadkin Valley R. R. certainty of the passage of the McKin- JAMES E. CLAYTON . by tariff bill becomes more assured. Not a box of tin is made this country, notwithstanding which tin has deglined in price from \$1.50 to \$4.75 a box during the last twenty-five Tears, -

The window-glass | market of this two large companies, who work in year, averaging 10 per cent.

# ZINC OR STOVE BOARDS.

The Adams & Westlake Company, . I. Grigge, Sidney Shepard & Co., Palmer Manufacturing Co.. H. Rendforf & Co., Central Stamping Co., W. 11. Sweency Manufacturing Co.—all of the above named firms were anxious for our business tast year, but now they have all sold out to the American Stove Board Co., with offices in New York and Chicago, and a general advance on all lines has taked place. Last year you could buy a 28-inch equare paper-lined zinc for 36 cents. This year the same thing costs you 72 cents-an advance of 100 per

The price is controlled by a combination, and you have to pay the price or go without.

The same-but one price, and that nearly double what it was two years ago.

# SUMMARY.

We call your attention to these! matters so you will understand why on nearly every invoice you get you will find something higher than it was Detare.

The tendency of the times seem to be consolidation, thus enabling large corporations to produce the goods cheaper and sell them at a higher price. We fail to find, however, in all the consolidation of various lines of goods a single instance, notwithstanding the advance they put on goods, where they have advenced the pay of labor a cent. If the consumer who p rch is s last does not pay this incrossed cost we do not know who does. Court of Rowan county in the case of T. FOSTER, STEVENS & Co., Hardware Merchants,
