J H Ramsay, P M.

Rev. Sam Jones, in an interview, estimates the number of conversions under his preaching at 150,000 to 200,000.

On the mend—the consumptive who's not bereft of judgment and good sense. He's taking Dr. Pierce's Golden Medical Discovery. If taken in time and given a fair trial, it will effect a cure. Consumption is Lung-scrofula. For Scrofula, in its myriad forms, and for all kiver, Blood and Lung diseases, the "Discovery" is an unequalled remedy. It's the only *guaranteed* one. If it doesn't benefit or cure, you get your money back. You only pay for the good you get.

"Discovery" strengthens Weak Lungs, and cures Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, and kindred affections. Don't be fooled into taking something else, said to be "just as good," that the dealer may make a larger profit. There's nothing at all like the "Discovery." It contains no alcohol to inebriate; no syrup or sugar to derange digestion. As peculiar in its curative effects as in its composition. Equally good for adults or children.

MAXIM'S FLYING MACHINE.

The English Gunmaker Describes an Invention.

"If I can rise from the coast of France, sail through the air across the channel and drop half a ton of nitro-glycerine upon an English city, I can revolutionize the world. I believe I can do it if I believe long enough. If I die some one will come after me who will be successful where I failed."

The man who made this prophecy is Hiram J. Maxim, the famous gun maker. He has built at his work-shop near Kent, England, a small flying machine with a wooden screw as its motive power. "It is not necessary to imitate the flapping of wings in making a flying machine," said Mr. Maxim. "Suppose Stevenson had said that as a horse was the most perfect form of locomotive over roads and fields, he would make his system engine walk. What speed would he have secured? By using wheels he obtained continuous motion, and that is why I use the screw. But the screw has to revolve with great rapidity—all the way from 1,000 to 2,800 revolutions per minute. You cannot make sufficient impression on the air with anything less.

"My first machine was a small one. It was an inclined plane, thirteen feet long and four feet wide and set edgewise against the air. I balanced it on an arm about thirty feet in length, revolving in a circumference of 200 feet. The arm was movable, so that it would raise and fall. When the maching travelled at the rate of thirty miles an hour it remained on the same plane. When the speed was increased to thirty-five miles an hour it began to rise. At ninety miles it pulled its guy wires so that it broke them. All our experiments were conducted with the greatest accuracy. Delicate machines measure the speed per minute and per hour, the push and lifting power of the screw, the horse power of the motor and every other factor.

"Now I am at work on a large machine, built of silk steel, that will do on a large scale what the other machines does on a smaller scale. We found by experiment that one-horse power will carry 139 pounds at the rate of seventy-five miles an hour. We proved also that our screw would lift forty times as much on a plane that it propelled as it could push. I have built a motor weighing 1,800 pounds and which pushes 1,000 pounds. It will therefore lift 40,000 pounds. The weight of my engines, generator, condenser, water supply and problem and of two men is 5,000 pounds. So you see what a margin I have left.

"The large machine will be 110 feet wide and 40 feet long—It will be propelled by two immense wooden screws, nearly eighteen feet in diameter, looking very much like the screws of ocean steamers, only with broader blades. The steam is generated by heating copper by petroleum and is condensed after being used, so that we get along with two gallons of water. The boiler is of the finest Whitworth steel, and we will use about forty pounds of petroleum per hour."

"How are you going to test the machine?

It will be placed at the angle of about a foot in eighteen inches on a railroad track twelve feet wide. At thirty miles an hour it will barely skim along, the pressure of the air underneath it being then equal to one pound to each square foot, or sufficient to just lift it. At thirty-five miles an hour it will begin to rise, and as the speed increases it will mount higher and higher. When you want to descend you will slack speed, or if you wish to proceed on a straight line you come back to the thirty miles an hour. It can be done as sure as fate. I have spent $45,000 already upon it, and I did not enter upon the work until I was convinced that the idea was practical.

An anti-trust law that will completely knock the props from under the monopolies is one of the greatest needs of this country.—Oxford Day.

He who is feeling miserable suffering with Dyspepsia and Indigestion and often times with dizziness, would do well to take P. P. P. at once. P. P. P. (Prickly Ash, Poke Root and Potassium) will cure you and arrest the diseases in its incipiency.

Scrofula is an impurity of the blood which produces unsightly lumps or swelling, which accumulating in the glands of the neck, causes painful running sores on the arms, legs or feet, which develops ulcers in the eyes, ears or nose, often causing blindness and deafness. Take P. P. P. (Prickly Ash, Poke Root and Potassium). It has proved itself the the most remarkable of all blood purifiers.

Dyspepsia, distress after eating, sour stomach, loss of appetite, a fitful all-gone feeling, bad taste, coated tongue, heart burn, all relieved and cured by P. P. P. (Prickly Ash, Poke Root and Potassium). It will regulate the system, give an appetite and make you well.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 820 Powers Block, Rochester, N. Y. 18.1y

Children Cry for Pitcher's Castoria.

A Household Remedy FOR ALL BLOOD AND SKIN DISEASES

B. B. B.

Botanic Blood Balm

It Cures SCROFULA, ULCERS, SALT RHEUM, ECZEMA, every form of malignant SKIN ERUPTION, besides being efficacious in toning up the system and restoring the constitution, when impaired from any cause. Its almost supernatural healing properties justify us in guaranteeing a cure, if directions are followed.

SENT FREE "Book of Wonders." ILLUSTRATED BLOOD BALM CO., Atlanta, Ga.

Undiscriminating praise is unjust. What is left to describe the really high types of North Carolina manhood and womanhood if all our words of praise are exhausted daily on persons who do not deserve them? There is too much of this sort of false, insincere laudation of men and women in North Carolina; and we happen to know that it is too much thought of in quarters where the baleful stimulant of newspaper praise once applied becomes a necessity for daily consumption.—Asheville Citizen.

Silver money is now as we understand the situation, the equal of gold in this country, barring only the pernicious limit to its coinage. The removal of this restriction is the paramount need of the time, and the almost universal demand of labor and unprotected industries.—Goldsboro Argus.

The people of this country are patriotic and well-meaning but they are easily deceived and hard to undeceive in matters involving their prejudices. They prefer to suffer from the errors into which they fall rather than acknowledge them.—Durham Sun.

SPRING, 1891.

DRESS FABRICS FOR EARLY SPRING

We are now showing a magnificent line of Dress Goods for early spring, embracing the very newest textures, and most fashionable colors in Novelty Plaids and Stripes, Camel's Hair, Cheviots, Henriettas, Serges, etc., etc.

This promises to be the most favorable season for

BLACK LACES

ever known, and we now have in stock a line of Lace Flounce, Drapery Nets and Grenadines, which for volume and beauty of design, excell our efforts any previous year.

Of White Goods, Embroideries and Laces, our display is by far the greatest we have ever made.

And every where in the house in all of our 41 departments, may now be seen new goods, bought low for cash, and offered to the people of North Carolina at as low prices as any house in the trade.

MAIL ORDER DEPARTMENT.

We have made this Mail Order business a special study, with the ultimate object in view of perfecting the system so that it will afford to those who reside in the most remote parts of our State the convenience of shopping in the best Dry Goods market in North Carolina. The business done through this channel has steadily increased during the season just closed, showing a greater proportionate increase than any former season, and we will use every effort in our power to make the one which we are now entering even a greater success than the one just closed.

SAMPLES.

We cheerfully send samples; and would like to impress upon our patrons the importance, when writing for samples, to be as explicit as possible, so that we can send them suitable samples instead of a lot which may be entirely different from what they want.

CATALOGUE.

Our spring Catalogue will be ready April 1st, and will be mailed free upon application.

GOODS DELIVERED FREE,

(Except Furniture and Crockery)

On all cash orders of $5.00 and over, we will deliver goods free to nearest Express office or railroad station.
